Chapter VIII—Food Distribution Administration¹

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF FAIR AND REASONABLE WAGE RATES FOR PERSONS EMPLOYED IN PRODUCTION, CULTIVATION, OR HARVESTING OF 1943 CROP OF SUGAR BEETS

Whereas, section 301 (b) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane as follows:

(b) That all persons employed on the farm in the production, cultivation, or harvesting of sugar beets or sugarcane with respect to which an application for payment is made shall have been paid in full for all such work, and shall have been paid wages therefor at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing; and in making such determination the Secretary shall take into consideration the standards therefor formerly established by him under the Agricultural Adjustment Act, as amended, and the difference in conditions among various producing areas: *Provided, however*, That a payment which would be payable except for the foregoing provisions of this subsection may be made, as the Secretary may determine,

¹ Formerly Sugar Branch.

in such manner that the laborer will receive an amount, insofar as such payment will suffice, equal to the amount of the accrued unpaid wages for such work, and that the producer will receive the remainder, if any, of such payment.

And whereas, the Secretary of Agriculture, pursuant to a notice of hearing, dated February 15, 1943, held public hearings for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of the 1943 crop of sugar beets.

Now, therefore, I, Claude R. Wickard, Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearings and all other information before me, do hereby make the following determination:

§ 802.14i *Fair and reasonable wage rates for persons employed in the production, cultivation or harvesting of the 1943 crop of sugar beets.* Fair and reasonable wage rates for persons employed in the production, cultivation or harvesting of the 1943 crop of sugar beets shall be as follows:

For any farm or part of a farm, which is covered by a separate labor agreement, from which sugar beets are contracted to be delivered to factories located in the following districts:

(a) *Fair and reasonable wage rates for the 1943 crop of sugar beets.*

*The rate for all fractional tonnages rounded to the nearest tenth of a ton shall be in proportion within each interval.

¹ In District II the combined rate for mechanically blocked fields shall be \$16 per acre and for mechanically blocked and cross-cultivated fields the rate shall be \$14.50 per acre.

² When topping and loading are performed by different persons, 70 percent of the rates shall be paid for topping and 30 percent of the rates shall be paid for loading.

³ Applicable to farms located in the following counties: Madera, Fresno, Tulare, Kings, Kern, San Luis Obispo, Santa Barbara, Ventura, Los Angeles, San Bernardino, Orange, Riverside, San Diego, Imperial.

⁴ Applicable to farms located in counties in California other than those specified in footnote ³.

(b) *Provided, however:*

(1) That in instances where inexperienced workers or workers between 14 and 16 years of age are employed on a time basis, the fair and reasonable rate per hour shall be:

(i) For inexperienced workers during a reasonable training period three-fourths of the hourly rate specified herein for the operation to be performed;

(ii) For workers between 14 and 16 years of age, two-thirds of the hourly rate specified herein for the operation to be performed. (Employment of such workers not to exceed 8 hours per day.)

(2) That in an instance in which the use of a special machine method of planting, cultivation, or harvesting (other than specified under item 3 below) reduces the amount of labor required as compared with the method in previous use, the fair and reasonable rate for the operation involved shall be the rate agreed upon between the producer and the laborer, provided such rate is determined by the State Committee as equivalent to the piece rate specified herein for the part of such work performed;

(3) That in instances where segmented or sheared seed is used in planting and the amount of labor for blocking and thinning is reduced because no hand thinning is required (as compared to the amount of labor where hand thinning is required) the fair and reasonable piece rate for blocking and thinning shall be 75% of the rate specified herein or the rate agreed upon, whichever is higher;

(4) That if the producer and the laborer agree upon a wage rate for any operation or a combination of operations higher than that prescribed herein, payment in full of the amount agreed upon must be made to qualify the producer for payment;

(5) That the wage rate for any work in the production, cultivation or harvesting of sugar beets for which a rate is not specifically provided herein, shall be the rate agreed upon between the producer and the laborer;

(6) That if the producer and the laborer agree in writing that the laborer is to receive the combined rate specified herein for blocking, thinning, hoeing and weeding, for all such work in the production and cultivation of the crop regardless of the number of hoeings or weedings required, the payment of this amount will be deemed to meet the requirements of this determination with respect to such work;

(7) That in addition to the foregoing, the producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him, such as a house, garden plot, and similar incidents; and

(8) That the producer shall not, through any subterfuge or device whatsoever, reduce the wage rates to laborers below those determined above.

Chapter IX—Food Distribution
AdministrationPART 912—MILK IN THE DUBUQUE, IOWA,
MARKETING AREA

Order amending the order, as amended, regulating the handling of milk in the Dubuque, Iowa, Marketing Area.

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

§ 912.1 *Finding and determinations—*

(a) *Findings upon the basis of the hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900 1-900.17; 6 F.R. 6570; 7 F.R. 3350; 8 F.R. 2815) a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Dubuque, Iowa, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The aforesaid order, as amended and as hereby amended and all of the terms and conditions of said order, as amended and as hereby amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Dubuque, Iowa, marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in the aforesaid order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The aforesaid order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of indus-

trial and commercial activities specified in the aforesaid tentatively approved marketing agreement, as amended, upon which a hearing has been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings herein set forth.

(b) *Determination.* It is hereby determined that handlers (excluding co-operative associations of producers who are not engaged in processing, distributing, or shipping milk covered by the aforesaid order, as amended and as hereby further amended) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed within the Dubuque, Iowa, marketing area refused or failed to sign the tentatively approved marketing agreement, as amended, regulating the handling of milk in the Dubuque, Iowa, marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the Dubuque, Iowa, marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of this order and who, during the determined representative period, were engaged in the production of milk for sale in said Dubuque, Iowa, marketing area.

§ 912.2 *Order relative to handling.* It is, therefore, ordered that, from and after the effective date hereof, the handling of milk in the Dubuque, Iowa, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended in the following respect:

Delete § 912.6 (a) (4) and substitute therefor the following:

(4) For Class III milk, the price shall be the result of the following computation by the market administrator: multiply by 2.4 the average weekly prevailing price of the cheese known as "Twins" on the Wisconsin Cheese Exchange, Plymouth, Wisconsin (or in the absence of such price, the price of such "Twins" at Chicago, as reported by the United States Department of Agriculture), and multiply such result by 3.5: *Provided,*

That during any delivery period in which there is in effect an offer by Commodity Credit Corporation to purchase American Cheddar cheese for resale to manufacturers, the price offered by Commodity Credit Corporation shall be used in lieu of the aforesaid price of "Twins" in computing the price for Class III milk: *Provided, further,* That for purposes of determining the butterfat differential pursuant to § 912.10 (b) the price for Class III milk shall be computed on the basis of the price of the aforesaid "Twins."

(48 Stat. 51, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U.S.C. 1940 ed. 601 et seq.)

Issued at Washington, D. C., this 6th day of April 1943, to be effective on and after the 11th day of April 1943. Witness my hand and the official seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

PARAGRAPH 1. There is inserted immediately preceding § 19.322-1 the following:

SEC. 169. STATUTE OF LIMITATIONS ON REFUNDS AND CREDITS. (Revenue Act of 1942, Title I.)

(a) *Limit on amount of credit or refund.* Section 322 (b) (2) is amended to read as follows:

(2) *Limit on amount of credit or refund.* The amount of the credit or refund shall not exceed the portion of the tax paid—

(A) If a claim was filed by the taxpayer, and the claim was filed within three years from the time the return was filed, during the three years immediately preceding the filing of the claim.

(B) If a claim was filed, and (i) no return was filed, or (ii) if the claim was not filed within three years from the time the return was filed by the taxpayer, during the two years immediately preceding the filing of the claim.

(C) If no claim was filed and the allowance of credit or refund is made within three years from the time the return was filed by the taxpayer, during the three years immediately preceding the allowance of the credit or refund.

(D) If no claim was filed, and (i) no return was filed or (ii) the allowance of the credit or refund is not made within three years from the time the return was filed by the taxpayer, during the two years immediately preceding the allowance of the credit or refund.

(3) *Exceptions in the case of waivers.*—If both the Commissioner and the taxpayer

have, within the period prescribed in paragraph (1) for the filing of a claim for credit or refund, agreed in writing under the provisions of section 276 (b) to extend beyond the period prescribed in section 275 the time within which the Commissioner may make an assessment, the period within which a claim for credit or refund may be filed, or credit or refund allowed or made if no claim is filed, shall be the period within which the Commissioner may make an assessment pursuant to such agreement or any extension thereof, and six months thereafter, except that the provisions of paragraph (1) shall apply to any claim filed or credit or refund allowed or made, before the execution of such agreement. The amount of the credit or refund shall not exceed the total of the portions of tax paid (A) during the two years immediately preceding the execution of such agreement, or, if such agreement was executed within three years from the time the return was filed, during the three years immediately preceding the execution of such agreement, (B) after the execution of the agreement and before the expiration of the period within which the Commissioner might make an assessment pursuant to such agreement or any extension thereof, and (C) during six months after the expiration of such period, except that the provisions of paragraph (2) shall apply to any claim filed, or credit or refund allowed, before the execution of the agreement. If any portion of the tax is paid after the expiration of the period within which the Commissioner might make an assessment pursuant to such agreement, and if no claim for credit or refund is filed after the time of such payment and before the end of six months after the expiration of such period, then credit or refund may be allowed or made if a claim therefor is filed by the taxpayer within six months from the time of such payment, or, if no claim is filed within such six-month period after the payment, if the credit or refund is allowed or made within such period, but the amount of the credit or refund shall not exceed the portion of the tax paid during the six months immediately preceding the filing of the claim, or, if no claim was filed (and the credit or refund is allowed after six months after the expiration of the period within which the Commissioner might make an assessment), during the six months immediately preceding the allowance of the credit or refund.

(4) *Return considered filed on due date.*—For the purposes of this subsection, a return filed before the last day prescribed by law for the filing thereof shall be considered as filed on such last day. For the purposes of paragraphs (2) and (3) of this subsection, and for the purposes of subsection (d) of this section, an advance payment of any portion of the tax made at the time such return was filed shall be considered as made on the last day prescribed by law for the payment of the tax or, if the taxpayer elected to pay the tax in installments, on the last day prescribed for the payment of the first installment. For the purposes of this paragraph, the last day prescribed by law for filing the return or paying the tax shall be determined without regard to any extension of time granted the taxpayer.

(5) *Special period of limitation with respect to bad debts and worthless securities.*—If the claim for credit or refund relates to an overpayment on account of—

(A) the deductibility by the taxpayer, under section 23 (k) (1), section 23 (k) (4),

or section 204 (c), of a debt as a debt which became worthless, or, under section 23 (g) (2) or (k) (2), of a loss from worthlessness of a security, or

(B) the effect that the deductibility of a debt or loss described in subparagraph (A) has on the application to the taxpayer of a carry-over or of a carry-back,

in lieu of the three-year period of limitation prescribed in paragraph (1), the period shall be 7 years from the date prescribed by law for filing the return for the year with respect to which the claim is made. In the case of such a claim, the amount of the credit or refund may exceed the portion of the tax paid within the period provided in paragraph (2) or paragraph (3), whichever is applicable, to the extent of the amount of the overpayment attributable to the deductibility of items described in this paragraph.

(b) *Overpayment found by board.* Section 322 (d) is amended to read as follows:

(d) *Overpayment found by board.* If the Board finds that there is no deficiency and further finds that the taxpayer has made an overpayment of tax in respect of the taxable year in respect of which the Commissioner determined the deficiency, the Board shall have jurisdiction to determine the amount of such overpayment, and such amount shall, when the decision of the Board has become final, be credited or refunded to the taxpayer. No such credit or refund shall be made of any portion of the tax unless the Board determines as part of its decision (1) that such portion was paid (A) within two years before the filing of the claim, the mailing of the notice of deficiency, or the execution of an agreement by both the Commissioner and the taxpayer pursuant to section 276 (b) to extend beyond the time prescribed in section 275 the time within which the Commissioner might assess the tax, whichever is earliest, or (B) within three years before the filing of the claim, the mailing of the notice of deficiency, or the execution of the agreement, whichever is earliest, if the claim was filed, the notice of deficiency mailed, or the agreement executed within three years from the time the return was filed by the taxpayer, or (C) after the execution of such an agreement and before the expiration of the period within which the Commissioner might make an assessment pursuant to such agreement or any extension thereof, or (D) after the mailing of the notice of deficiency; or (2), if such portion was not paid within the period described in clause (1), but the notice of deficiency was mailed within seven years from the time prescribed for the filing of the return, or a claim described in subsection (b) (5) was filed, that such portion does not exceed the amount of the overpayment attributable to the deductibility of items described in subsection (b) (5).

(c) *Effective date of amendment.* The amendment inserting paragraph (5) of section 322 (b) shall be applicable to taxable years beginning after December 31, 1938.

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1942, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1941.

PAR. 2. Section 19.322-7 is amended as follows:

(A) By striking out the heading and first sentence of the section and inserting in lieu thereof the following:

§ 19.322-7. *Limitations upon the crediting and refunding of taxes paid; taxable years beginning prior to January 1, 1942.*—(a) *General rule.* Unless a claim for credit or refund of an overpayment for a taxable year beginning prior to January 1, 1942 is filed within three years from the time the return was filed by the taxpayer or within two years from the time the tax was paid, the Commissioner is prohibited from allowing or making a credit or refund of income tax imposed by chapter 1 for such year after both periods have expired.

(B) By striking out the last sentence of the first paragraph of the section and inserting in lieu thereof the following: The provisions of this subsection are subject to the exceptions provided in paragraphs (b) and (c) of this section.

(C) By inserting immediately after paragraph (b) (5) of the section the following:

(c) *Overpayments on account of bad debts, worthless securities, etc.* If the claim for credit or refund relates to an overpayment on account of:

(1) The deductibility by the taxpayer, under section 23 (k) (1), section 23 (k) (4), or section 204 (c), of a debt as a debt which became worthless, or, under section 23 (g) (2) or (k) (2), of a loss from the worthlessness of a security, or

(2) The effect that the deductibility of a debt or loss described in clause (1) has on the application to the taxpayer of a carry-over or of a carry-back, such as the carry-over of a capital loss provided in section 117 (e) or the carry-over or carry-back of a net operating loss provided in section 122 (b),

then in lieu of the three-year period from the date the return was filed in which the claim may be filed or credit or refund allowed or made, as prescribed in (a) of this section, the period shall be seven years from the date prescribed by law for filing the return (determined without regard to any extension of time for filing such return) for the taxable year for which the claim is made or the credit or refund allowed or made. In the case of such a claim, the amount of the credit or refund may exceed the portion of the tax paid within the period provided in (a) of this section to the extent of the amount of the overpayment attributable to the deductibility of items described in this paragraph. Such a credit or refund cannot exceed the sum of the following: (i) the portion, if any, of the tax paid within the period provided in (a) of this section, and (ii) the amount of overpayment due to the de-

ductibility of items described in this paragraph. The portion of an overpayment due to items described in this paragraph shall be determined by treating the proper deduction of such items as the first adjustment to be made in computing such overpayment.

Although claim for credit or refund is not filed and credit or refund is not allowed or made within the even-year period described in the preceding paragraph, credit or refund may nevertheless be allowed or made if claim therefor is filed or if such credit or refund is allowed or made within the two-year period prescribed in (a) of this section, subject to the provisions of (a) which limit the amount of credit or refund in the case of a claim filed within such period or, if no claim is filed, in the case of credit or refund allowed or made within such period.

The provisions of section 322 (b) (5) do not apply to an overpayment due to the deductibility of a debt that became partially worthless during the taxable year, but only to an overpayment due to the deductibility of a debt which became entirely worthless during such year.

The provisions of this subsection with regard to an overpayment caused by the deductibility of a bad debt under section 23 (k) (1), section 23 (k) (4), or section 204 (c) or of a loss from the worthlessness of a security under section 23 (g) (2) or (k) (2) are likewise applicable to an overpayment caused by the effect that the deductibility of such a bad debt or loss has on the application to the taxpayer of a carry-over or of a carry-back.

For the limitation on the allowance of interest for an overpayment where credit or refund is subject to the provisions of section 322 (b) (5), see section 3771 (d), as added by section 124 (c) of the Revenue Act of 1942.

PAR. 3. Section 19.322-8 is renumbered § 19.322-9, and there is inserted immediately after § 19.322-7 the following new section:

§ 19.322-8 *Limitations upon the crediting and refunding of taxes paid; taxable years beginning after December 31, 1941*—(a) *General rule.* Unless a claim for credit or refund of an overpayment for a taxable year beginning after December 31, 1941 is filed within three years from the time the return was filed by the taxpayer or within two years from the time the tax was paid, the Commissioner is prohibited from allowing or making a credit or refund of income tax imposed by chapter 1 for such year after both periods have expired. If no return is filed by the taxpayer, the Commissioner is prohibited from allowing or making a credit or refund of such tax after two years from the time the tax was paid unless before the expiration of such 2-year period a claim therefor is filed. The amount of the credit or refund in any case shall not exceed the portion of the tax paid:

(1) If a return was filed by the taxpayer, and the claim was filed within three years from the time the return was filed, during the three years immediately preceding the filing of the claim.

(2) If a claim was filed, and (A) no return was filed, or (B) if the claim was not filed within three years from the time the return was filed by the taxpayer, during the two years immediately preceding the filing of the claim.

(3) If no claim was filed and the allowance of credit or refund is made within three years from the time the return was filed by the taxpayer, during the three years immediately preceding the allowance of the credit or refund.

(4) If no claim was filed, and (A) no return was filed or (B) the allowance of the credit or refund is not made within three years from the time the return was filed by the taxpayer, during the two years immediately preceding the allowance of the credit or refund.

For the purposes of this section, a return filed before the last day prescribed by law for the filing thereof, or an advance payment of any portion of the tax prior to such date, shall be considered as filed or made on the last day prescribed by law for the filing of such return or the payment of such tax. If the taxpayer elected to pay the tax in installments, such an advance payment shall be considered as made on the last day prescribed for the payment of the first installment, but in all cases the last day prescribed by law for filing the return or paying the tax shall be determined without regard to any extension of time granted the taxpayer for filing the return or paying the tax. The provisions of this subsection are subject to the exceptions provided in paragraphs (b), (c), and (d) of this section.

(b) *Limitations in case waiver executed.* If the Commissioner and the taxpayer, within three years from the time the return was filed by the taxpayer or within two years from the time the tax was paid, whichever period expires the later, have agreed in writing under the provisions of section 276 (b) to extend beyond the period prescribed in section 275 the time within which the Commissioner may make an assessment, then the period within which a claim for credit or refund may be filed, or a credit or refund may be allowed or made if no claim is filed, is the period within which the Commissioner may make an assessment pursuant to such agreement or any extension thereof, and for six months thereafter. The amount of the credit or refund in such case shall not, however, exceed the sum of:

(1) The portion of the tax paid during the two years immediately preceding the execution of the agreement between the Commissioner and the taxpayer, or, if such agreement was executed within three years from the time the return was filed, during the three

years immediately preceding the execution of such agreement;

(2) The portion of the tax paid after the execution of the agreement between the Commissioner and the taxpayer and before the expiration of the period within which the Commissioner might make an assessment pursuant to such agreement or any extension thereof; and

(3) The portion of tax paid during the six months immediately following the expiration of the period within which the Commissioner might make an assessment pursuant to the agreement between the Commissioner and the taxpayer or any extension of such agreement.

If any portion of the tax is paid within six months after the expiration of the period within which the Commissioner might make an assessment pursuant to an agreement between the Commissioner and the taxpayer or any extension thereof, and if credit or refund is allowed or made after such payment and before the end of such six-month period, or if claim for credit or refund is filed after such payment and before the end of such six-month period, then the limitations on such credit or refund are those set forth in the preceding provisions of this subsection.

Credit or refund may be allowed or made more than six months after the expiration of the period within which the Commissioner might make an assessment pursuant to an agreement between the Commissioner and the taxpayer or any extension thereof (in cases other than those described in the immediately preceding paragraph) only if such credit or refund is allowed or made within six months after the tax was paid or if claim for such credit or refund is filed within six months after such payment. In such case, the amount of the credit or refund shall not exceed the portion of the tax paid during the six months immediately preceding the filing of the claim or, if no claim was filed, the amount of the credit or refund shall not exceed the portion of the tax paid during the six months immediately preceding the allowance of the credit or refund. The two-year period provided in section 322 (b) (1) and (2) is not applicable in any case in which the tax was paid after the execution of such an agreement.

If a claim for credit or refund is filed or if credit or refund is allowed or made before the execution of any agreement between the Commissioner and the taxpayer to extend the period within which the Commissioner might make an assessment, the limitations on such credit or refund shall be those specified in paragraph (a) of this section.

The agreement referred to in this subsection will not be considered to have been executed until the date it is signed by or for the Commissioner.

(c) *Overpayment on account of bad debts, worthless securities, etc.* If the

claim for credit or refund relates to an overpayment on account of:

(1) The deductibility by the taxpayer, under section 23 (k) (1), section 23 (k) (4), or section 204 (c), of a debt as a debt which became worthless, or, under section 23 (g) (2) or (k) (2), of a loss from the worthlessness of a security, or

(2) The effect that the deductibility of a debt or loss described in clause (1) has on the application to the taxpayer of a carry-over or of a carry-back, such as the carry-over of a capital loss provided in section 117 (e) or the carry-over or carry-back of a net operating loss provided in section 122 (b),

then in lieu of the three-year period from the date the return was filed in which the claim may be filed or credit or refund allowed or made, as prescribed in (a) of this section, the period shall be seven years from the date prescribed by law for filing the return (determined without regard to any extension of time for filing such return) for the taxable year for which the claim is made or the credit or refund allowed or made. In the case of such a claim, the amount of the credit or refund may exceed the portion of the tax paid within the period provided in (a) or (b) of this section, whichever is applicable, to the extent of the amount of the overpayment attributable to the deductibility of items described in this paragraph. Such a credit or refund cannot exceed the sum of the following: (i) the portion, if any, of the tax paid within the period provided in (a) or (b) of this section, whichever is applicable, and (ii) the amount of overpayment due to the deductibility of items described in this paragraph. The portion of an overpayment due to items described in this paragraph shall be determined by treating the proper deduction of such items as the first adjustment to be made in computing such overpayment.

If claim for credit or refund is not filed and if credit or refund is not allowed or made within the seven-year period described in the preceding paragraph, then credit or refund may be allowed or made only if claim therefor is filed within, or if such credit or refund is allowed or made within, any period prescribed in paragraph (a) or (b) of this section, whichever is applicable, subject to the provisions of such paragraph (a) or (b) which limit the amount of credit or refund in the case of a claim filed or, if no claim was filed, in the case of refund or credit allowed or made within such applicable period.

The provisions of section 322 (b) (5) do not apply to an overpayment due to the deductibility of a debt that became partially worthless during the taxable year, but only to an overpayment due to the deductibility of a debt which became entirely worthless during such year.

The provisions of this subsection with regard to an overpayment caused by the deductibility of a bad debt under section 23 (k) (1), section 23 (k) (4), or section 204 (c) or of a loss from the worthlessness of a security under section 23 (g) (2) or (k) (2) are likewise applicable to an overpayment caused by the effect that the deductibility of such a bad debt or loss has on the application to the taxpayer of a carry-over or of a carry-back.

For the limitation on the allowance of interest for an overpayment where credit or refund is subject to the provisions of section 322 (b) (5), see section 3771 (d), as added by section 124 (c) of the Revenue Act of 1942.

(d) *Overpayment determined by Board.* In any case where a person having a right to file a petition with the Board of Tax Appeals with respect to a deficiency in income tax imposed by chapter 1 filed such petition within the prescribed time, no credit or refund of the tax for the year to which the deficiency relates shall be allowed or made, and no suit for the recovery of any part of such tax shall be instituted by the taxpayer, subject to the following exceptions:

(1) If the Board finds that there is no deficiency but that the person has overpaid his tax for the year to which the notice of deficiency relates, and the decision of the Board as to the amount overpaid has become final (see section 1140, set forth in paragraph 39 of the Appendix to these regulations), the overpayment shall be credited or refunded, but no such credit or refund shall be made of any portion of the tax unless the Board determines as part of its decision:

(i) That such portion was paid:

(a) Within two years immediately preceding the filing of a claim for credit or refund thereof, the mailing of the notice of deficiency, or the execution of an agreement by both the Commissioner and the taxpayer pursuant to section 276 (b) to extend beyond the time prescribed in section 275 the time within which the Commissioner might assess the tax, whichever event occurs first in point of time, or

(b) Within three years immediately preceding the filing of the claim, the mailing of the notice of deficiency, or the execution of the agreement, whichever event occurs first in point of time, if the claim was filed, the notice of deficiency mailed, or the agreement executed within three years from the time the return was filed by the taxpayer, or

(c) After the execution of such an agreement and before the expiration of the period within which the Commissioner might make an assessment pursuant to such agreement or any extension thereof, or

(d) After the mailing of the notice of deficiency; or

(ii) If such portion of the tax was not paid within the period described in (i) of this paragraph, but the notice of deficiency was mailed within seven years from the time prescribed for the filing of the return (determined without regard to any extension of time for filing such return), or a claim of the type described in paragraph (c) of this section was filed, that such portion of the tax does not exceed the amount of the overpayment attributable to the deductibility of items described in paragraph (c) of this section. The amount of the overpayment attributable to the deductibility of items described in paragraph (c) of this section shall be determined under the provisions of that subsection. For the limitation on the allowance of interest for such portion of the overpayment see section 3771 (d), as added by section 124 (c) of the Revenue Act of 1942.

(2) In the case of a jeopardy assessment made under section 273, if the amount which should have been assessed as determined by a decision of the Board which has become final is less than the amount already collected, the excess payment shall be credited or refunded subject to a determination being made by the Board with respect to the time of payment as stated in (d) (1) of this section.

(3) If the amount of the deficiency determined by the Board (in a case where collection has not been stayed by the filing of a bond) is disallowed in whole or in part by the reviewing court, then the overpayment resulting from such disallowance shall be credited or refunded without the making of claim therefor subject to a determination being made by the Board with respect to the time of payment as stated in (d) (1) of this section. (See section 1146, set forth in paragraph 45 of the Appendix to these regulations.)

(4) Where the amount collected is in excess of the amount computed in accordance with the decision of the Board which has become final, the excess payment shall be credited or refunded within the period of limitation provided in section 322 (b).

(5) Where an amount is collected after the statutory period of limitation upon the beginning of distraint or a proceeding in court for collection has expired (see § 19.275-2), the taxpayer may file a claim for refund of the amount so collected within the period of limitation provided in section 322 (b). In any such case, the decision of the Board as to whether the statutory period upon collection of the tax expired before notice of the deficiency was mailed shall, when the decision becomes final, be conclusive.

§ 1306.165 Appendix G: Maximum prices for certain prime iron or steel products for various zones. The maximum delivered price for iron or steel products specifically covered by any zone table in this Appendix G when shipped within and between the zones and between the zones and the non-zoned area shall be determined in accordance with the provisions of this Appendix G regardless of any other provisions of this Revised Price Schedule No. 49. Sales of iron or steel products which are not specifically covered by this Appendix G shall continue to be governed by the applicable provisions of this Revised Price Schedule No. 49 without reference to the provisions of this Appendix G.

(a) *General provisions*—(1) *Products covered.* The products covered by this Appendix G are those specifically listed in the zone tables of the Appendix.

(2) *Relationship to § 1306.159, Appendix A.* The provisions of the following paragraphs of § 1306.159, Appendix A, shall also apply to this Appendix G: § 1306.159, Appendix A, (e) Maximum prices for exports of iron or steel products. § 1306.159, Appendix A, (k) (subparagraphs (1), (2), (5), (6), and (8) only). Maximum delivered prices for shipments of carload quantities and in certain specific cases. § 1306.159, Appendix A, (s) Maximum prices for imported iron or steel products.

(3) *Definitions.* When used in this Appendix G, the terms:

"Destination" means the place at which delivery is required for the buyer's operations.

"Shipping point" means the place at which the shipment was last withdrawn from the warehouse where it was put through the operations commonly known as the warehousing of iron or steel products.

"Non-zoned area" means any area not included in any zone.

"Zone" means the geographical or trading area whose boundaries are described in the tables in paragraph (b) below.

"Zone destination price" means the price at the buyer's destination located within a zone, computed in accordance with the provisions of subparagraph (4) below. (There is no zone destination price where the destination is within the non-zoned area.)

"Zone shipping point price" means the price at a shipping point within a zone, computed in accordance with the provisions of subparagraph (5) below.

(4) *Method of computing the zone destination price.* The zone destination price shall be the aggregate of the following as set forth in paragraph (b) below in the zone price component index for the zone in which the buyer's destination is located:

- (i) Price at the governing basing point; plus
- (ii) Freight; plus
- (iii) Spread, and
- (iv) Quantity, quality, merchandising, size cutting and miscellaneous extras and deductions.

(5) *Method of computing the zone shipping point price.* The zone shipping point price is the zone destination price at the shipping point: *Provided,* That where the shipping point is a mill basing point for the product shipped, no freight shall be added in computing the zone destination price.

(6) *Method of determining the governing basing point.* The governing basing point is that mill basing point of those set forth in the tables in paragraph (b) below, at which the price for any particular product, plus freight from such basing point to destination, results in the lowest charge for said product.

(7) *Maximum delivered prices for shipments from a shipping point within a zone to destination within the same zone.* The maximum delivered price for shipments from a shipping point within a zone to a destination within the same

zone shall be the zone destination price for that same zone.

(8) *Maximum delivered prices for shipments from a shipping point within a zone to a destination within another zone.* The maximum delivered price for shipments from a shipping point within a zone to a destination within another zone shall be the higher of the following two alternatives:

(i) The zone shipping point price plus freight as customarily charged to destination minus a freight allowance at the rate of \$.15 per 100 pounds, or

(ii) The zone destination price for the zone into which shipment is made.

(9) *Maximum delivered prices for shipments from a shipping point within a zone to a destination in a non-zoned area.* The maximum delivered price for a shipment from a shipping point within a zone to a destination in a non-zoned area shall be the higher of the following two alternatives:

(i) The seller's own zone shipping point price plus freight as customarily charged to destination minus a freight allowance at the rate of \$.15 per 100 pounds, or

(ii) The lowest combination price at destination as determined under § 1306-159, Appendix A, (b).

(10) *Maximum delivered prices for shipments from a shipping point within a non-zoned area to a destination within a zone.* The maximum delivered price for a shipment from a shipping point within a non-zoned area to a destination within a zone shall be the higher of the following two alternatives:

(i) The zone destination price; or

(ii) The seller's country price at the city from which shipment is made, as otherwise established by this Revised Price Schedule No. 49, plus freight as customarily charged to destination minus a freight allowance at the rate of \$.15 per 100 pounds.

(11) *Maximum delivered prices for shipments from a shipping point within the non-zoned area to a destination within the non-zoned area.* The maximum delivered price for a shipment from a shipping point within the non-zoned area to a destination within the non-zoned area shall continue to be established by the applicable provisions of this Revised Price Schedule No. 49 without reference to the provisions of this Appendix G.

(12) *Discounts and privileges.* Customary and general discounts, terms and privileges, in effect as of April 16, 1941, shall be continued without diminution or extra charge.

(13) *Restrictions on extras.* No extras not specifically listed in this Appendix G for the zone tables applicable in computing the maximum delivered price may be added to such price: *Provided*, That the Office of Price Administration may approve, upon application, the addition of extras not listed in this Appendix G and which were in effect and charged on April 16, 1941, by the seller or group of sellers applying.

No. 70—2

(b) *Specific provisions for each zone—*

(1) *Zone One—(1) Area covered Zone One shall consist of the entire states of:*

Maine. Massachusetts.
New Hampshire. Rhode Island.
Vermont.

(ii) *Tables to be Used.* The following tables are to be used in computing the maximum prices set forth in paragraph (a) above for Zone One.

PRICE AT BASING POINT

[Rate per 100 pounds]

The price at basing point shall be:

TABLE B-1.—All products except stair stringer channels, black iron plates, cold rolled sheets, galvanized iron sheets, black iron sheets, enamelling sheets, hot rolled and cold finished alloys and stainless steel

The mill carload base price of the United States Steel Corporation and its subsidiaries for each product as established by Revised Price Schedule Number 6.

TABLE B-2.—Stair stringer channels

The mill carload base price of the Jones and Laughlin Steel Company for stair stringer channels as established by Revised Price Schedule Number 6.

TABLE B-3.—Black iron plates, galvanized iron sheets and black iron sheets

The mill carload base price of the American Rolling Mill Company for each product as established by Revised Price Schedule Number 6. The "consumers" price shall be used for galvanized iron sheets.

TABLE B-4.—Cold rolled sheets

The mill carload base price for cold rolled sheets of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-5.—Enamelling sheets

The 20 gauge mill carload base price for enamelling sheets of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-6.—Hot rolled and cold finished alloys

Mill alloy carload base price (hot rolled or cold rolled, whichever is applicable) plus mill analysis extra (open hearth or electric furnace, whichever is applicable) of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6 for hot rolled or cold finished alloys.

TABLE B-7.—Stainless steel

The mill carload base price for each analysis of stainless steel of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

FREIGHT

[Rate per 100 pounds]

Freight may be added for less than carload shipments as follows:

TABLE C-1.—All products except cold rolled strip and cold rolled round edge flat wire

The less than carload rate of freight, in effect at time of shipment, from the governing basing point to destination.

TABLE C-2.—Cold rolled strip and cold rolled round edge flat wire

The less than carload rate of freight, in effect at the time of the shipment from the governing basing point to destination, except that no freight may be added when the destination is Worcester, Massachusetts.

SPREAD

[Rate per 100 pounds]

TABLE D-1.—Alloy bars hot rolled and cold finished

The spread shall be 66% of the price at basing point, as established in Table B-6. Such

spread shall be adjusted upward or downward to the nearest \$0.05.

QUANTITY DIFFERENTIALS

[Rate per 100 pounds]

All orders of one day from one person for shipment at one time or at seller's convenience to one destination shall be combined to determine the quantity bracket in accordance with the provisions of each of the following tables:

TABLE E-1.—Hot rolled products

All commodities listed below must be combined to determine the quantity differential:

Structural shapes.
Stair stringer channels.
Plates (all thicknesses), including tank, firebox, high carbon, copper bearing, and Armco iron.
Floor plates.
Bars and bar shapes, hot rolled carbon.
Bars, hot rolled, AISI C1112 (SAE x 1314) and AISI C1118 (SAE x 1315).
Bars, hot rolled, AISI C1137 (SAE x 1335) and (SAE x 1340).
Strip, hot rolled, band and hoop size.
Sheets, hot rolled, 16 gauge and heavier.
Sheets, hot rolled, Armco iron, 16 gauge and heavier.

Under 100 lb.	Add	\$1.50
100 lb. to 399 lb.	Add	.50
400 lbs. to 1,999 lb.	Base	
2,000 lb. to 9,999 lb.	Deduct	.10
10,000 lb. to 39,999 lb.	Deduct	.20

TABLE E-2.—Cold finished carbon bars

All cold finished carbon bars of one cross section, analysis and finish comprise one item and must be combined to determine the quantity extra.

1,500 lb. to 39,999 lb.	Base	
1,000 lb. to 1,499 lb.	Add	\$0.10
500 lb. to 999 lb.	Add	.50
300 lb. to 499 lb.	Add	1.25
Less than 300 lb.	Add	2.00

When the total weight of all items of cold finished carbon bars on an order is less than 300 pounds, a charge at the rate of \$1.00 per 100 pounds in addition to the less than 300 pound extra may be added.

TABLE E-3.—Reinforcing bars

All reinforcing bars must be combined to determine the quantity differential:

Under 2,000 lb.	Base	
2,000 lb. to 9,999 lb.	Deduct	\$0.15
10,000 lb. to 39,999 lb.	Deduct	.25

TABLE E-4.—Cold rolled strip.

All cold rolled strip of one width and thickness, finish, temper, and edge comprise one item and must be combined to determine the quantity extra.

500 lbs and over.	Base	
300 lbs to 499 lbs.	Add	\$1.00
200 lbs to 299 lbs.	Add	2.00
Less than 200 lbs.	Add	4.00

TABLE E-5.—Cold rolled round edge flat wire.

All cold rolled round edge flat wire of one width, thickness, finish, temper and edge comprise one item and must be combined to determine the quantity extra.

2,000 lbs. and over.	Base	
1,000 lbs. to 1,999 lbs.	Add	\$0.15
500 lbs. to 999 lbs.	Add	.30
300 lbs. to 499 lbs.	Add	1.00
100 lbs to 299 lbs.	Add	2.00
Less than 100 lbs.	Add	3.00

TABLE E-6.—Sheets.

All qualities listed below must be combined to determine the quantity differential.

Hot rolled steel sheets.	Lighter than 16 gauge.
Hot rolled Armco iron sheets.	Lighter than 16 gauge.
Cold rolled sheets.	All gauges.
Galvanized steel sheets.	All gauges.
Galvanized copper bearing steel sheets.	All gauges.
Galvanized Toncan iron sheets.	All gauges.
Galvanized Armco iron sheets.	All gauges.
Galvannealed sheets.	All gauges.
Paint grip steel sheets.	All gauges.
Zinc grip sheets, steel and Armco iron.	All gauges.
Long terme sheets.	All gauges.
Vitreous enameling sheets.	All gauges.

Under 1 bundle.	Add	\$3.00.
1 bundle.	Add	\$1.00.

2 bundles.	Add	\$0.50.
3 to 24 bundles.	Base.	
25 to 49 bundles.	Deduct	\$0.10.
50 bundles to 39,999 pounds.	Deduct	\$0.15.

TABLE E-7.—Alloy bars—hot rolled and cold finished.

A. All alloys of one cross section, analysis and finish comprise one item and must be combined to determine the quantity extra.

1,000 lbs. and over.	Base.	
500 lbs. to 999 lbs.	Add	\$0.50
300 lbs to 499 lbs.	Add	.75
Less than 300 lbs.	Add	1.25

B. When the total weight of all items of alloys on an order is less than 300 pounds, a charge at the rate of \$1.75 per 100 pounds in addition to the less than 300 pound extra may be added. Hot rolled alloys and cold finished alloys need not be combined to determine total weight in applying this order extra.

TABLE E-8.—Stainless steel SHEETS

Stock sizes: Combine all items of same thickness, width, length, finish and analysis.

Cut sizes: Combine all items of same thickness, finish and analysis.

BARS AND ANGLES

Stock lengths or cut lengths: Combine all items of same cross section, finish and analysis.

PLATES

Stock sizes or cut sizes: Combine all items of same thickness, width, length, finish and analysis.

500 lb. and over.	Base	
300 lb. to 499 lb.	Add	\$2.00
200 lb. to 299 lb.	Add	5.00
100 lb. to 199 lb.	Add	7.00
50 lb. to 99 lb.	Add	10.00
Under 50 lb.	Add	12.00

QUALITY AND MERCHANDISING EXTRAS

Annealing and pickling.	4.00

SIZE EXTRAS

[Rate per 100 pounds]

The following size extras may be added.

1. When material is sold without cutting, the size extra shall be determined by the actual size of material sold.

2. When material furnished is other than sizes available in stock and when material is actually cut to the buyer's specification, the size extra shall be determined by the actual size, prior to cutting, of the material used.

C. SUPPLEMENTARY EXTRA

1. Cold Rolled Sheets of the following dimensions double the sum of the applicable extras for gauge, width (A) and length (B) may be charged:

18 gauge and lighter, over 48" wide.
18 gauge and lighter, over 120' long.

2. The following extras may be added to the applicable extras for gauge and width (A) and length (B) where a seller has paid a mill extra for full finish or cold reduced finish on cold rolled sheets of No. 13 U. S. Standard gauge and heavier, as allowed by the provision of § 1306.8 (b) of Revised Price Schedule No. 6.

SKETCH PLATE SHEARING EXTRAS

Ordinary sketch plates up to 1" thick inclusive, with no re-entrant cuts, will be charged on the basis of labor involved; but the extra for cutting will not be less than the regular width and length shearing charges, plus 25¢ per 100 lbs. for special shape, based on the gross weight of the rectangular plate required.

Sketch plates over 1" thick, see Flame Cutting Extras.

SKETCHES WITH STRAIGHT SIDES

Over 1" thick charged on the weight of smallest rectangle from which same can be cut, plus above extras per lineal foot of perimeter of sketch. 1" thick and under will be charged on gross weight of nearest stock width.

CIRCULAR PLATES

Thickness up to 2" inclusive charged on weight of square plate ¼" larger than diameter of circle plus the above extras on the circumference of the circle. Thickness over 2" charged on weight of square plate 1" larger than the diameter of circle plus the above extras on the circumference of the circle.

RINGS

The gross weight of rings will be charged on same basis as circular plates plus the above extras for the inside and outside circumference

of the ring. One additional foot of burning will be added for drilling or blowing the lead hole.

TABLE H-3-c.—Cold saw cutting extras on bars

The standard Cold Saw Cutting Schedule as shown on Tables H-3-c to H-3-g inclusive, is to be used on Hot Rolled Steel Bars when saw cut and on all Cold Finished Steel whether sawed or sheared to length.

Please note particularly that the Cold Saw Cutting Schedule applies on all lengths of Cold Finished Steel with the exception of:

STANDARD STOCK LENGTHS AS FOLLOWS:

Rounds, 10 to 12 ft. random (at option of seller) and 20 ft. lengths.

*TRANSMISSION SIZES ONLY, 10 to 12 ft. random (at option of seller) and 16, 20 and 24 ft. lengths.

*The following sizes ONLY are regarded as transmission sizes: 1 ½", 1 ¾", 1 ½", 1 ½", 2 ½", 2 ½", 2 ½", 3 ½", 3 ½", 3 ½", 4 ½", 4 ½", 5 ½", 5 ½". Where any lengths other than the above are specified, or when exact lengths within the random limits are ordered, Cold Saw Cutting may be charged.

Flats over 1" thick—see Saw Cutting Extras. Flats charged on net weight basis except where resulting shorts are considered unsaleable.

OTHER HOT ROLLED BARS

All ovals, half ovals, half rounds, screen bars, bevel edge, tires, spring steel, charged on gross weight, using Flat Bar shearing schedule.

TABLE H-3-b.—Shearing extras—bar size angles

[Minimum cutting charge 25¢ per section]

	Over 10 ft.	Over 5 ft. to 10 ft.	Over 3 ft. to 5 ft.	Over 1 ft. to 3 ft.	6" to 1 ft. incl.	Under 6"
Weight up to .80 lbs. per ft.	\$0.80	\$1.25	\$1.50	\$2.30	\$4.00	\$7.00
Over .80 to 1.80 lbs. per ft.	.60	.70	.85	1.10	3.50	6.00
Over 1.80 under 2.44 lbs. per ft.	.45	.55	.70	.90	3.00	5.00
2.44 lbs. and over per ft.	.30	.40	.55	.70	2.50	4.00

Angles 1 x 1 x ¼" and larger charged on net weight. Angles ½ x ½ x ¼" and smaller charged on gross weight.

FIRST. Under list of extras for "Other Than Stock Lengths." Table H-3-d, locate quality Turned and Polished, and find division covering 4 ½" Round which comes under the heading "over 4" to 6" inclusive." This gives Schedule E to be used.

Then refer to Table H-3-e and using Schedule E find the division including the length of 6'6" which comes under the heading "Under 10' to 5'." This gives an extra of 25¢ per 100 lbs. to be added to the price of the steel.

SECOND. Apply the per cut charge according to Table H-3-f. Since the table does not show 4 ½" dia. use the next larger size under Rounds which is 4 ¾". Follow across to the right for six cuts which comes under the heading "5 to 9 cuts." This gives a cutting charge of 40¢ per cut.

For flats and other shapes first find the cross sectional area according to Table H-3-g. Then refer to Table H-3-d under shapes and find the proper schedule letter for the quality of steel required, under the heading for the cross sectional area for the size. Then refer to Table H-3-e for the extra per 100 lbs. for other than stock lengths. The per cut charge will be found on Table H-3-f opposite the cross sectional area shown in the extreme left hand column.

MISCELLANEOUS EXTRAS

[Rate per 100 pounds]

Except as specifically noted in the extra tables themselves, the following charges may be made only when the service, operation or labor described as an extra is actually performed on the material sold.

TABLE K-1.—Galvanizing extras

For pickling plates (not including oiling or liming).....	.15
For oiling plates.....	.10

C. HOT ROLLED BARS

Pickling.....	\$0.15
Oiling.....	.10
Pickling and liming.....	.25
Pickling and oiling.....	.25

TABLE K-3.—Extras for boxing and burlapping cold finished bars

The following boxing extras are to be charged only if material is actually boxed. If shipped in an open box (as is commonly done for metropolitan deliveries), the charge may be made only if the box is retained by the buyer.

	Rate per 100 pounds	Minimum Net
Boxing (domestic shipment).....	\$0.50	\$0.75
Boxing (export shipment).....	.75	1.00
Burlapping (full length).....	.25	.25
Burlapping (ends only).....	No charge	No charge

TABLE K-4.—Tolerance extra for cold finished bars

These extras may be charged only when Commercial Finished Bars are selected to closer than Standard Tolerances at the request of the buyer.
Carbon .30 and under—Charge 1½ times standard mill extra for accuracy.
Carbon .30-.45—Charge same as standard mill extra for accuracy.

TABLE K-5.—Extras for crating sheets—except stainless (domestic shipments)

The following extras are to be charged only when material is actually crated. No charge may be used for open crates used to protect sheets for metropolitan deliveries.

	Rate per 100 pounds	Minimum Net
Skeleton crating.....	\$0.40	\$2.00
Full box crating.....	.95	4.75

TABLE K-6.—Extras for boxing and crating stainless steel

	Rate per 100 pounds	Minimum Net
Crating of sheets*.....	\$1.00	\$2.00

*This crating extra applies to all finishes of stainless sheets for both city and country shipments.

	Rate per 100 pounds	Minimum Net
Boxing of bars.....	\$0.50	\$1.00
Wrapping or single boarding of bars.....	.25	.25

(2) Zone Two—(i) Area covered. Zone Two shall consist of:

The Eastern Section of New York State, consisting of the following counties:

Clinton	Richmond
Essex	Greene
Warren	Columbia
Saratoga	Ulster
Suffolk	Dutchess
Nassau	Sullivan
Kings	New York
Queens	Bronx
Washington	Orange
Schenectady	Putnam
Albany	Rockland
Rensselaer	Westchester

The Entire State of Connecticut.
The Northern Section of New Jersey, consisting of the following counties:

Bergen	Union
Passaic	Hudson
Sussex	Somerset
Morris	Middlesex
Essex	Monmouth

(ii) Tables to be used. The following tables are to be used in computing the maximum prices set forth in paragraph (a) above for Zone Two.

PRICE AT BASING POINT
[Rate per 100 pounds]

The prices indicated below shall be used as the price at basing point:

TABLE B-1.—All products except stair stringer channels, junior beams, black iron plates, galvanized iron sheets, black iron sheets, cold rolled sheets, enameling sheets, hot rolled and cold finished alloys, stainless steel, and electrical sheets

The mill carload base price of the United States Steel Corporation and its subsidiaries for each product as established by Revised Price Schedule Number 6.

TABLE B-2.—Stair stringer channels and junior beams

The mill carload base price of the Jones and Laughlin Steel Company for each product as established by Revised Price Schedule Number 6.

TABLE B-3.—Black iron plates, galvanized iron sheets and black iron sheets

The mill carload base price of the American Rolling Mill Company for each product as established by Revised Price Schedule Number 6. The "consumers" price shall be used for galvanized iron sheets.

TABLE B-4.—Cold rolled sheets

The mill carload base price for cold rolled sheets of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-5.—Enameling sheets

The 20-gauge mill carload base price for enameling sheets of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-6.—Hot rolled and cold finished alloys

Mill alloy carload base price (hot rolled or cold rolled, whichever is applicable) plus mill analysis extra (open hearth or electric furnace, whichever is applicable) of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-7.—Stainless steel, and electrical sheets

The mill carload base price for each analysis of each product of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

FREIGHT

[Rate per 100 pounds]

Freight may be added for less than carload shipments as follows:

TABLE C-1.—All products

The less than carload rate of freight, in effect at time of shipment, from the governing basing point to destination.

SPREAD

[Rate per 100 pounds]

TABLE D-1.—Alloy bars—hot rolled and cold finished

The spread shall be 66% of the price at basing point as established in Table B-6. Such

spread shall be adjusted upward or downward to the nearest \$0.05.

QUANTITY DIFFERENTIALS

[Rate per 100 pounds]

All orders of one day from one person for shipment at one time or at seller's convenience to one destination shall be combined to determine the quantity bracket in accordance with the provisions of each of the following tables:

TABLE E-1.—Hot rolled products

All commodities listed below must be combined to determine the quantity differential:

Structural shapes.
Stair stringer channels.
Junior beams.
Plates, including tank, firebox, high carbon, copper bearing.
Floor plates (all thicknesses).
Bars and bar shapes, hot rolled carbon.
Bars, hot rolled, AISI C1112 (SAE x 1314) and AISI C1118 (SAE x 1315).
Bars, hot rolled, AISI C1137 (SAE x 1335) and (SAE x 1340).
Strip, hot rolled, band and hoop sizes.
Sheets, hot rolled, all gauges.

Under 100 lbs.	Add	\$1.50
100 lbs. to 399 lbs.	Add	.50
500 lbs. to 1,999 lbs.	Base	
2,000 lbs. to 9,999 lbs.	Deduct	.10
10,000 lbs. to 39,999 lbs.	Deduct	.20

TABLE E-2.—Cold finished carbon bars

All cold finished carbon bars of one cross-section, analysis and finish comprise one item and must be combined to determine the quantity extra.

1,500 lbs. to 39,999 lbs.	Base	
1,000 lbs. to 1,499 lbs.	Add	\$0.10
500 lbs. to 999 lbs.	Add	.50
300 lbs. to 499 lbs.	Add	1.25
Less than 300 lbs.	Add	2.00

When the total weight of all items of cold finished bars on an order is less than 100 pounds a charge at the rate of \$1.00 per 100 pounds in addition to the less than 300 pound extra may be added.

TABLE E-3.—Reinforcing bar

All reinforcing bars must be combined to determine the quantity differential:

Under 2,000 lbs.	Base	
2,000 lbs. to 9,999 lbs.	Deduct	\$0.15
10,000 lbs. to 39,999 lbs.	Deduct	.25

TABLE E-4.—Cold rolled strip and flat wire

All items of one width, thickness, finish, temper and edge comprise one item and must be combined to determine the quantity extra.

500 lbs. and over	Base	
300 lbs. to 499 lbs.	Add	\$1.00
200 lbs. to 299 lbs.	Add	2.00
Less than 200 lbs.	Add	4.00

TABLE E-5.—Cold rolled sheets

All cold rolled sheets of one grade must be combined to determine the quantity extra.

Less than 400 lbs.	Add	\$0.50
400 lbs. to 1,499 lbs.	Base	
1,500 lbs. to 9,999 lbs.	Deduct	\$0.10
10,000 lbs. to 39,999 lbs.	Deduct	.20

TABLE E-6.—Coated sheets

All qualities listed below must be combined to determine the quantity extra:

Galvanized steel sheets.
Galvanized copper bearing steel sheets.
Galvanized toncan iron sheets.
Galvannealed sheets.
Zincgrip sheets, steel and Armco iron.
Long term sheets.
Galvanized Armco iron sheets.

Under 150 lbs.	Add	\$2.00
150 lbs. to 499 lbs.	Add	1.00
450 lbs. to 1,499 lbs.	Base	
1,500 lbs. to 3,499 lbs.	Deduct	.15
3,500 lbs. to 39,999 lbs.	Deduct	.25

TABLE E-7.—Electrical sheets

All electrical sheets must be combined to determine the quantity extra.

Under 7,000 lbs.	Base	
7,000 lbs. to 39,999 lbs.	Deduct	\$0.25

TABLE E-8.—Alloy bars—hot rolled and cold finished

A. All alloys of one cross section, analysis and finish comprise one item and must be combined to determine the quantity extra.

1,000 lbs. to 39,999 lbs.	Base
500 lbs. to 999 lbs.	Add \$0.50
300 lbs. to 499 lbs.	Add .75
Less than 300 lbs.	Add 1.25

B. When the total weight of all items of alloys on an order is less than 300 pounds, a charge at the rate of \$1.75 per 100 pounds in addition to the less than 300 pound extra may be added. Hot rolled alloys and cold finished alloys need not be combined to determine total weight in applying this order extra.

TABLE E-9.—Stainless steel

Sheets. Stock sizes: Combine all items of same thickness, width, length, finish and analysis.

Cut sizes: Combine all items of same thickness, length or cut lengths.

Bars and angles. Stock lengths or cut lengths: Combine all items of same cross section, finish and analysis.

Plates. Stock sizes or cut sizes: Combine all items of same thickness, width, length, finish and analysis.

500 lbs. and over.	Base
300 lbs. to 499 lbs.	Add \$2.00
200 lbs. to 299 lbs.	Add 5.00
100 lbs. to 199 lbs.	Add 7.00
50 lbs. to 99 lbs.	Add 10.00
Under 50 lbs.	Add 12.00

QUALITY AND MERCHANDISING EXTRAS

A. For material which is carried in stock in the following condition or qualities, the following charges may be made (More than one extra may be added, if applicable):

Annealing	\$1.00
Normalizing	1.00
Heat treating (quench and draw)	2.50
Spheroidizing annealing	2.50
Stress relieving after cold working	1.25
Aircraft quality	2.50
Extensometer test	.40

B. For material which is treated at an outside plant (not by a producer as defined in Revised Price Schedule Number 6 or in the seller's own plant) a charge may be made for any of the operations listed in A above and actually performed, as follows:

1. Actual invoice cost to the seller, minus any trucking charges included on such invoice, plus.

2. An added charge at the rate of thirty cents per 100 pounds.

Provided, That no additional charges may be made such as, but not limited to, a charge for trucking, handling, risks, etc.

Annealing	\$2.00
Annealing and pickling	4.00

SIZE EXTRAS

[Rate per 100 pounds]

The following size extras may be added.

1. When material is sold without cutting, the size extra shall be determined by the actual size of material sold.

2. When material furnished is other than sizes available in stock and when material is actually cut to the buyer's specification, the size extra shall be determined by the actual size, prior to cutting, of the material used.

C. SUPPLEMENTARY SIZE EXTRAS

1. For stretcher leveled resquared cold rolled sheets of the following dimensions double the sum of the applicable extras for gauge and width (A) and length (B) may be charged:

#20 Gauge and heavier wider than 48" or longer than 144"
Lighter than #20 gauge wider than 48" or longer than 120"

C. SUPPLEMENTARY SIZE EXTRAS—continued

2. The following extras may be added to size extras (gauge and width and length) in Tables A and B above where a seller has paid a mill extra for full finish or cold reduced finish on cold rolled sheets of Number 13 U. S. Standard gauge and heavier, as allowed by the provision of § 1306.8 (b) of Revised Price Schedule Number 6.

¹ Universal mill plates over 3/8" thick, in stock widths up to 14" wide inclusive, cut to length—use friction saw cutting structural shape extras in table H-8. All other plates over 3/8" thick—use flame cutting extras in table H-7.

² Ordinary straight side sketch plates up to 3/8" thick inclusive, with no re-entrant cuts, based on gross weight of rectangular plate required in nearest stock width. Sketch plates over 3/8" thick—use flame cutting extras in table H-7.

C. CIRCLE CUTTING

See flame cutting extras in table H-7.

Add to above, the regular length cutting extras (table H-3).
Gross weight may be charged for the stock size cross-section of the cut length angle.
The leg-shearing operation is done before cutting to length. Thus 2 angles 5' 0" long would be subject to only one \$0.25 leg shearing extra since this operation would be performed on a 10' 0" angle.

Charges are based on lineal feet for each piece. Fractions of an inch, charged at next full inch.

Rectangular plates. Over 1" thick a charge may be made for flame cutting one side and one end at above extras unless flame cutting all edges is specified when a charge may be made for two sides and two ends. 1" thick and under a charge may be made for flame cutting of 4 edges.

Circular plates. Flame cutting charge based on circumference of circle.

Rings. Flame cutting charge based on total footage of inside and outside circumferences.

Sketches with straight sides. With straight and no reentrant cuts. Flame cutting charge based on total footage in perimeter of sketch.

A. RECTANGULAR SHAPES

1. If width* of piece ordered is less than 1/4 of the width of any stock size sheet in same type, gauge and finish add ten percent (10%) of the stock size price.

2. If width* of piece ordered is 1/4 but less than 1/2 of the width of any stock size sheet in

*The smallest dimension shall be considered the width regardless of surface finish or grain structure. If a charge is made in accordance with (1), (2), or (3) the net weight of the cut material ordered shall be the weight used in invoicing.

same type, gauge and finish add fifteen percent (15%) of the stock size price.

3. If width* of piece ordered is $\frac{1}{2}$ or more of the width of any stock size sheet in the same type, gauge and finish add twenty percent (20%) of the stock size price.

4. If the cut size or sizes ordered are cut without waste from any stock size, none of the above percentage extras (10%, 15%, 20%) may be added, but the following shearing charges may be made for the number of cuts actually made in filling the order. Figure one first cut for each thickness ordered. In no case shall the shearing charge exceed the value of the cut pieces figured at 12¢ per pound.

B. STAINLESS SHEET CIRCLES

When rough cut to size 5" diameter and larger on straight blade shear, price as a square and charge for weight of square $\frac{1}{2}$ " larger than diameter of circle, and then add the following extra for shearing to circle:

8¢ (eight cents) per inch diameter. Minimum charge \$1.00 net per thickness.

Example: 1 circle #24 x 20"
Dia., Charge is..... \$1.60 net
4 circles #10 x 22½"
Dia., Charge is..... 1.80 each or 7.20 net

MISCELLANEOUS EXTRAS

TABLE K-1.—Galvanizing extras—Continued

A. GENERAL CONDITIONS

The prices are list prices subject to differentials and cover new material only.

All prices herein are based on galvanized weight.

Differentials apply to the total weight of all galvanized materials (except galvanized sheets, produced at mills) ordered in one day for shipment at one time or at the seller's convenience to one destination.

For intermediate sizes use next higher list.

B. DIFFERENTIALS

For any material from which paint or grease has to be burned off not more than 50% may be added to galvanizing charge.

The following length differentials apply to angles, tees, channels, flat bars, flat strips, half-ovals, rounds, squares, half-rounds and may be added to net galvanizing extra:

	Rate per 100 pounds
Under 10'0"	Add..... \$0.15
Under 6'0"	Add..... .25
Under 2'0"	Add..... .50
Over 22'0"	Add..... .10
Over 30'0"	Add..... .20
Over 45'0"	Add..... .40
Over 50'0"	Add..... .90

Minimum charge of \$1.00 will be made for galvanizing a single item and/or order if weight of order at net price does not amount to \$1.00.

The following Differentials apply on all Galvanizing Extras listed below:

	Plus.....	25%
Under 500 lbs.....	Plus.....	10%
500 to 1,999 lbs.....	Less.....	5%
2,000 to 5,999 lbs.....	Less.....	15%
6,000 to 9,999 lbs.....	Less.....	20%
10,000 to 35,999 lbs.....	Less.....	25%
36,000 lbs & over.....

TABLE K-3.—Extras for boxing and burlapping cold finished bars

[Rate per 100 pounds]

The following extras are to be charged only if material is actually boxed. If shipped in an open box (as is commonly done for Metropolitan deliveries) the charge may be made only if the box is retained by the buyer.

	Per 100 lbs.	Minimum (net)
Boxing (Domestic shipment)	\$0.50	\$0.75
Boxing (Export shipment)	.75	1.00
Burlapping (Full length)	.25	.25

TABLE K-4.—Tolerance extra for cold finished bars

When commercial finished bars are selected to closer than standard tolerances at the request of the buyer, one and one-half times standard mill extra for accuracy may be charged.

TABLE K-5.—Extras for crating sheets (except stainless)

The following extras are to be charged only when material is actually crated. No charge may be made for open crates used to protect sheets for Metropolitan deliveries. The charge may be made only if the box is retained by the buyer.

	Per 100 lbs.	Minimum (net)
Skeleton crating	\$0.40	\$2.00
Full box crating	.95	4.75

TABLE K-6.—Corrugating hot rolled sheets

[Not to be used for coated sheets]

Rate per 100 lbs.

16 gauge and lighter, 42" wide and narrower, 144" long or shorter with standard 2 1/4" or 1 3/4" corrugations. \$0.15

TABLE K-7.—Extras for boxing and crating stainless steel

	Per 100 lbs.	Minimum (net)
Crating of Sheets*	\$1.00	\$2.00

*This crating extra applies to all finishes of stainless sheets for both city and country shipments.

	Per 100 lbs.	Minimum (net)
Boxing of bars	\$0.50	\$1.00
Wrapping or single boarding of bars	.25	.25

PRICE AT BASING POINT

[Rate per 100 pounds]

The price at basing point shall be:

TABLE B-1.—All products except stair stringer channels, junior beams, black iron plates, cold rolled sheets, galvanized iron sheets, black iron sheets, enameling sheets, hot rolled and cold finished alloys and stainless steel

The mill carload base price of the United States Steel Corporation and its subsidiaries for each product as established by Revised Price Schedule Number 6.

TABLE B-2.—Stair stringer channels and junior beams

The mill carload base price of the Jones and Laughlin Steel Company for each product as established by Revised Price Schedule Number 6.

TABLE B-3.—Black iron plates, galvanized iron sheets and black iron sheets

The mill carload base price of the American Rolling Mill Company for each product as established by Revised Price Schedule Number 6. The "consumers" price shall be used for galvanized sheets.

TABLE B-4.—Cold rolled sheets

The mill carload base price for cold rolled sheets of the United States Steel Corporation and subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-5.—Enamelling sheets

The 20 gauge mill carload base price for enamelling sheets of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-6.—Hot Rolled and cold finished alloys

Mill alloy carload base price (hot rolled or cold rolled, whichever is applicable) plus mill analysis extra (open hearth or electric furnace, whichever is applicable) of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-7.—Stainless steel

The mill carload base price for each analysis stainless steel of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

FREIGHT

(Rate per 100 pounds)

Freight may be added for less than carload shipments as follows:

TABLE C-1.—All products

The less than carload rate of freight, in effect at the time of shipment, from the governing basing point to destination, provided that no freight may be added for a shipment to a destination located within the switching limits of a basing point for the product sold.

SPREAD

(Rate per 100 pounds)

TABLE D-1.—Alloy bars—hot rolled and cold finished

The spread shall be 66% of the price at basing point, as established in Table B-6. Such spread shall be adjusted upward or downward to the nearest \$0.05.

QUANTITY DIFFERENTIALS

(Rate per 100 pounds)

All orders of one day from one person for shipment at one time or at seller's convenience to one destination shall be combined to determine the quantity bracket in accordance with the provisions of each of the following tables:

TABLE E-1.—Hot rolled products

All commodities listed below must be combined to determine the quantity differential.

Structural shapes.
Stair stringer channels.
Junior beams.
Plates, including tank, flange, firebox, high carbon, copper bearing, hot rolled armco iron and abrasion resisting.
Floor plates (all thicknesses).
Bars and bar shapes, hot rolled carbon, including carbon spring steel.
Reinforcing bars.
Bars, hot rolled, AISI C1112 (SAE X1314) and AISI C1118 (SAE X1315).
Bars, hot rolled, AISI C1137 (SAE X1335) and (SAE X1340).
Strips, hot rolled, band and hoop sizes.
Sheets, hot rolled, all gauges, including hot rolled armco iron and abrasion resisting.

Under 100 lbs.	Add	\$1.50
100 lbs. to 399 lbs.	Add	.50
400 lbs. to 1,999 lbs.	Base	
2,000 lbs. to 9,999 lbs.	Deduct	.10
10,000 lbs. to 39,999 lbs.	Deduct	.20

TABLE E-2.—Cold finished carbon bars

All cold finished carbon bars of one cross section, analysis and finish comprise one item and must be combined to determine the quantity extra.

1,500 lbs. to 39,999 lbs.	Base	
1,000 lbs. to 1,499 lbs.	Add	\$0.10
500 lbs. to 999 lbs.	Add	.50
300 lbs. to 499 lbs.	Add	1.25
Less than 300 lbs.	Add	2.00

When the total weight of all items of cold finished carbon bars on an order is less than 300 pounds, a charge at the rate of \$1.00 per 100 pounds in addition to the less than 300-pound extra may be added.

No. 70—6

TABLE E-3.—Cold rolled strip and flat wire

All cold rolled strip of one width, thickness, finish, temper and edge comprise one item and must be combined to determine the quantity extra.

500 lbs. and over	Base	
300 lbs. to 499 lbs.	Add	\$1.00
200 lbs. to 299 lbs.	Add	2.00
Less than 200 lbs.	Add	4.00

TABLE E-4.—Cold rolled sheets and hot rolled pickled and oiled sheets

All sheets of one thickness and one grade must be combined to determine the quantity differential.

Less than 100 lbs.	Add	\$1.50
100 lbs. to 399 lbs.	Add	.50
400 lbs. to 1,999 lbs.	Base	
2,000 lbs. to 9,999 lbs.	Deduct	.20
10,000 lbs. to 39,999 lbs.	Deduct	.20

TABLE E-5.—Coated sheets

All qualities listed below must be combined to determine the quantity differential.

Galvanized steel sheets.
Galvanized copper bearing steel sheets.
Galvanized toncan iron sheets.
Galvanized armco iron sheets.
Galvannealed sheets.
Paintgrip sheets.
Zincgrip sheets, steel and armco iron.
Long terme sheets.

Under 150 lbs.	Add	\$2.00
150 lbs. to 449 lbs.	Add	1.00
450 lbs. to 1,499 lbs.	Base	
1,500 lbs. to 3,499 lbs.	Deduct	.15
3,500 lbs. to 39,999 lbs.	Deduct	.25

TABLE E-6.—Electrical sheets

All electrical sheets must be combined to determine the quantity extra.

Under 7,000 lbs.	Base	
7,000 lbs. to 39,999 lbs.	Deduct	\$0.25

TABLE E-7.—Alloy bars—hot rolled and cold finished

A. All alloys of one cross section, analysis and finish comprise one item and must be combined to determine the quantity extra.

500 lbs. to 999 lbs.	Add	\$0.50
300 lbs. to 499 lbs.	Add	.75
Less than 300 lbs.	Add	1.25

B. When the total weight of all items of alloys on an order is less than 300 pounds, a charge at the rate of \$1.75 per 100 pounds in addition to the less than 300 pounds extra may be added. Hot rolled alloys and cold finished alloys need not be combined to determine total weight in applying this order extra.

B. For material which is treated at an outside plant (not by a producer as defined in Revised Price Schedule No. 6 or in the seller's own plant) a charge may be made for any of the operations listed in A above and actually performed, as follows:

1. Actual invoice cost to the seller, minus any trucking charges included on such invoice, plus

2. An added charge at the rate of thirty cents per 100 pounds

Provided, that no additional charges may be made such as, but not limited too, a charge for trucking, handling, risks, etc.

SIZE EXTRAS

[Rate per 100 pounds]

The following size extras may be added.

- When material is sold without cutting, the size extra shall be determined by the actual size of material sold.
- When material furnished is other than sizes available in stock and when material is actually cut to the buyer's specification, the size extra shall be determined by the actual size, prior to cutting, of the material used.

C. SUPPLEMENTARY SIZE EXTRAS

1. For stretcher leveled resquared cold rolled sheets of the following dimensions double the sum of the applicable extras for gauge and width (A) and length (B) may be charged:

#20 gauge and lighter	Over 120" long
Heavier than #20 gauge	Over 144" long
#16 gauge and heavier	Over 60" wide
Lighter than #16 gauge	Over 48" wide

C. SUPPLEMENTARY SIZE EXTRAS—Continued

2. The following extras may be added to size extras (gauge and width and length) in Tables A and B above where a seller has paid a mill extra for full finish or cold reduced finish on cold rolled sheets of Number 13 U. S. Standard gauge and heavier, as allowed by the provisions of § 1306.8 (b) of Revised Price Schedule Number 6.

8 x 8 or wider by $\frac{3}{16}$ or over.	5.00

UNEQUAL LEG ANGLES

If shorter leg is equal to or greater than $\frac{3}{4}$ of longer leg, apply extra for equal leg angle of length and thickness of shorter leg plus 1¢ per pound. In case shorter leg is not equal to or greater than three-quarters of longer leg, apply extra for equal leg angle of length and thickness of shorter leg plus 2¢ per pound.

CUTTING EXTRAS

[Rate per 100 pounds]

The following charges are to be made only when material furnished is other than sizes available in stock and when material is actually cut to the buyer's specification.

TABLE H-1.—Plate shearing extras

$\frac{3}{16}$ " to 1" thick inclusive, including U. M.,¹ sheared, flange, firebox, high carbon, Copper bearing and floor plates, and hot rolled strip $\frac{3}{16}$ " thick over 6" wide cut to length only, or any size $\frac{3}{16}$ " thick strip cut to width and length.

TABLE H-3.—Shearing hot rolled carbon bars (under 0.60 mean of carbon)

HOT ROLLED STRIP AND ANGLES

Rounds, squares, hexagons, 2" cross section and under.

Flats, 1 1/2" x 6" and smaller.

Angles, 2 1/2" x 2 1/2" x 1/2" and smaller—all lengths.

Angles, 3" to 6" leg, inclusive, under 5'0" long.

Total cuts of one length, cross section, finish and analysis determines the charge per cut.

Minimum charge—35¢ per item of one length, cross section, finish and analysis.

Pounds per lineal foot	Lengths						
	Over 8'0" any number cuts	4'0" to 8'0" incl.		1'0" to under 4'0"		Under 1'0"

20.0 and over.....	.13	.11	.08	.07	.05	.04	.03

Rounds, squares, hexagons over 2"; flats over 1 1/2" thick; bar channels; bar tees; bar zeos; use Table H-5.

Angles over 6" either leg, use Table H-8.

Hot rolled bars 0.60 mean of carbon and over use Schedule H-6.

TABLE H-4.—Shearing legs of angles

	10'0" and less	Over 10'0" to 20'0"	Over 20'0" to 30'0"
Set up charge.....	\$1.00 net	\$1.00 net	\$1.00 net
Per cut for each leg of each angle.....	.25	.50	.75

Add to above, the regular length cutting extras, (Table H-3.)

Gross weight may be charged for the stock size cross-section of the cut length angle.

The leg-shearing operation is done before cutting to length. Thus 2 angles 5'0" long would be subject to only one \$0.25 leg shearing extra since this operation would be performed on a 10'0" angle.

RECTANGULAR PLATES

Over 1" thick a charge may be made for Flame Cutting one side and one end at above extras unless Flame Cutting all edges is specified when a charge may be made for two sides and two ends. 1" thick and under a charge may be made for Flame Cutting of 4 edges.

CIRCULAR PLATES

Flame Cutting charge based on circumference of circle.

RINGS

Flame Cutting charge based on total footage of inside and outside circumferences.

SKETCHES WITH STRAIGHT SIDES AND NO RE-ENTRANT CUTS

Flame Cutting charge based on total footage in perimeter of sketch.

A. RECTANGULAR SHAPES

1. If width* of piece ordered is less than $\frac{1}{4}$ of the width of any stock size sheet in same type, gauge and finish add ten percent (10%) of the stock size price.
2. If width* of piece ordered is $\frac{1}{4}$ but less than $\frac{1}{2}$ of the width of any stock size sheet in same type, gauge and finish add fifteen percent (15%) of the stock size price.
3. If width* of piece ordered is $\frac{1}{2}$ or more of the width of any stock size sheet in same type, gauge and finish add twenty percent (20%) of the stock size price.
4. If the cut size or sizes ordered are cut without waste from any stock size, none of the above percentage extras (10%, 15%, 20%) may be added, but the following shearing charges may be made for the number of cuts actually made in filling the order. Figure one first cut for each thickness ordered. In no case shall the shearing charge exceed the value of the cut pieces figured at 12¢ per pound.

Gauge No.	Charge for—	
	First cut	Additional cuts
No. 10	\$0.60	\$0.20
11	.60	.20
12	.60	.20

26	.35	.10

*The smallest dimension shall be considered the width regardless of surface finish or grain structure. If a charge is made in accordance with (1), (2), or (3) the net weight of the cut material ordered shall be the weight used in invoicing.

B. STAINLESS SHEET CIRCLES

When rough cut to size 5" dia. and larger on straight blade shear, price as a square and charge for weight of square $\frac{1}{4}$ " larger than diameter of circle, and then add the following extra for shearing to circle:

- 8¢ (eight cents) per inch diameter.
Minimum charge \$1.00 net per thickness.
(Example: 1 circle #24 x 20"
Dia., Charge is \$1.60 net
4 circles #10 x 22½" Dia.,
Charge is 1.80 each or
7.20 net)

Under 100 lbs.	6.00

All cut plates shall be billed on the net weight of cut material ordered.

B. STAINLESS PLATE CIRCLES

When rough cut to size 8" diameter and larger on straight blade shear, price as a square and charge for weight of a square $\frac{1}{4}$ " larger than diameter of circle, and THEN ADD the following extra for shearing to circle:

- 10¢ (ten cents) per inch of diameter.
Minimum charge \$1.00 net per thickness.
Examples: 1 circle ½" x 20"
Diameter charge is \$2.00 net
4 circle ½" x 22½" diameter
charge is 2.25 each or

All angles cut to length shall be billed on the net weight of cut material ordered.

MISCELLANEOUS EXTRAS

[Rate per 100 pounds]

Except as specifically noted in the extra tables themselves, the following charges may be made only when the service, operation or labor described as an extra is actually performed on the material sold:

TABLE K-1.—Galvanizing extras

A. GENERAL CONDITIONS

The prices are list prices subject to differentials and cover new material only.
All prices herein are based on galvanized weight.

Differentials apply to the total weight of all galvanized materials (except galvanized sheets, produced at mills) ordered in one day for shipment at one time or at the sellers convenience to one destination.

For intermediate sizes use next higher list.

B. DIFFERENTIALS

For any material from which paint or grease has to be burned off not more than 50% may be added to galvanizing charge.

The following length differentials apply to angles, tees, channels, flat bars, flat strips, half-ovals, rounds, squares, half-rounds and may be added to net galvanizing extra.

Under 10'0"	Add	\$0.15
Under 6'0"	Add	.25
Under 2'0"	Add	.50
Over 22'0"	Add	.10
Over 30'0"	Add	.20
Over 45'0"	Add	.40
Over 50'0"	Add	.90

Minimum charge of \$1.00 will be made for galvanizing a single item and/or order if weight of order at net price does not amount to \$1.00.

The following differentials apply on all galvanizing extras listed below:

	Percent
Under 500 lb.	Plus 25
500 to 1,999 lb.	Plus 10
2,000 to 5,999 lb.	Less 5
6,000 to 9,999 lb.	Less 15
10,000 to 35,999 lb.	Less 20
36,000 and over	Less 25

PRICE AT BASING POINT

[Rate per 100 pounds]

The price at basing point shall be:

TABLE B-1.—All products except stair stringer channels, junior beams, black iron plates, cold rolled sheets, galvanized iron sheets, black iron sheets, enamelling sheets, hot rolled and cold finished alloys and stainless steel

The mill carload base price of the United States Steel Corporation and its subsidiaries for each product as established by Revised Price Schedule Number 6.

TABLE B-2.—Stair stringer channels and junior beams

The mill carload base price of the Jones and Laughlin Steel Company for each product as established by Revised Price Schedule Number 6.

TABLE B-3.—Black iron plates, galvanized iron sheets, and black iron sheets

The mill carload base price of the American Rolling Mill Company for each product as established by Revised Price Schedule Number 6. The "consumers" price shall be used for galvanized iron sheets.

TABLE B-4.—Cold rolled sheets

The mill carload base price for cold rolled sheets of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-5. Enamelling sheets

The 20 gauge mill carload base price for enamelling sheets of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

TABLE B-6.—Hot rolled and cold finished alloys

Mill alloy carload base price (hot rolled or cold rolled, whichever is applicable) plus mill analysis extra (open hearth or electric furnace, whichever is applicable) of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

1,000 lbs to 1,499 lbs. Add \$0.10
500 lbs to 999 lbs. Add .50
300 lbs to 499 lbs. Add 1.25
Less than 300 lbs. Add 2.00

When the total weight of all items of cold finished carbon bars on an order is less than 300 pounds, a charge at the rate of \$1.00 per 100 pounds in addition to the less than 300 pound extra may be added.

TABLE E-3.—Cold rolled strip and flat wire

All cold rolled strip of one width, thickness, finish, temper and edge comprise one item and must be combined to determine the quantity extra.

500 lbs and over. Base
300 lbs to 499 lbs. Add \$1.00
200 lbs to 299 lbs. Add 2.00
Less than 200 lbs. Add 4.00

TABLE E-4.—Cold rolled sheets and hot rolled pickled and oiled sheets

All sheets of one thickness and one grade must be combined to determine the quantity differential.

Less than 100 lbs. Add \$1.50
100 lbs to 399 lbs. Add .50
400 lbs to 1,999 lbs. Base
2,000 lbs to 9,999 lbs. Deduct .10

TABLE E-5.—Coated sheets

All quantities listed below must be combined to determine the quantity differential.
Galvanized steel sheets.
Galvanized copper bearing steel sheets.
Galvanized Toncan iron sheets.
Galvanized Armco iron sheets.
Galvannealed sheets.
Paintgrip sheets.

Zincgrip sheets, steel and Armco iron.
Long term sheets.
Under 150 lbs. Add \$2.00
150 lbs. to 449 lbs. Add 1.00
450 lbs. to 1,499 lbs. Base

TABLE E-6.—Electrical sheets

All electrical sheets must be combined to determine the quantity differential.

Under 7,000 lbs. Base
7,000 lbs. to 39,999 lbs. Deduct \$0.25

TABLE E-7.—Alloy bars—Hot rolled and cold finished

A. All alloys of one cross section, analysis and finish comprise one item and must be combined to determine the quantity extra.

1,000 lbs. to 39,999 lbs. Base
500 lbs. to 999 lbs. Add \$0.50
300 lbs. to 499 lbs. Add .75
Less than 300 lbs. Add 1.25

B. When the total weight of all items of alloys on an order is less than 300 pounds, a charge at the rate of \$1.75 per 100 pounds in addition to the less than 300 pound extra may be added. Hot rolled alloys and cold finished alloys need not be combined to determine total weight in applying this order extra.

TABLE E-8.—Stainless steel

Sheets:
Stock sizes: Combine all items of same thickness, width, length, finish and analysis.

Cut sizes: Combine all items of same thickness, finish and analysis.

Bars and angles:
Stock lengths or cut lengths: Combine all items of same cross section, finish and analysis.

Plates:
Stock or cut sizes: Combine all items of same thickness, width, length, finish and analysis.

TABLE B-7.—Stainless steel

The mill carload base price for each analysis stainless steel of the United States Steel Corporation and its subsidiaries as established by Revised Price Schedule Number 6.

FREIGHT

[Rate per 100 pounds]

Freight may be added for less than carload shipments as follows:

TABLE C-1.—All products

The less-than-carload rate of freight, in effect at the time of shipment, from the governing basing point to destination, provided that no freight may be added for a shipment to a destination located within the switching limits of a basing point for the product sold.

SPREAD

[Rate per 100 pounds]

TABLE D-1.—Alloy bars—hot rolled and cold finished

The spread shall be 66% of the price at basing point as defined in Table B-6. Such spread shall be adjusted upward or downward to the nearest \$0.05.

QUANTITY DIFFERENTIALS

[Rate per 100 pounds]

All orders of one day from one person for shipment at one time or at seller's convenience to one destination shall be combined to determine the quantity bracket in accordance with the provisions of each of the following tables:

TABLE E-1.—Hot rolled products

All commodities listed below must be combined to determine the quantity differentials.

Structural shapes.
Stair stringer channels.
Junior beams.

Plates, including tank, flange, firebox, high carbon, copper bearing, hot rolled armco iron and abrasion resisting.

Floor plates (all thicknesses).
Bars and bar shapes, hot rolled carbon, including carbon spring steel.

A. For material which is carried in stock in the following condition or qualities, the following charges may be made: (more than one extra may be added, if applicable)

Annealing	\$1.00
Normalizing	1.00
Heat treating (quench and draw)	2.50
Spheroidizing annealing	2.50
Stress relieving after cold working	1.25
Aircraft quality	2.50

B. For material which is treated at an outside plant (not by a producer as defined in Revised Price Schedule No. 6 or in the seller's own plant) a charge may be made for any of the operations listed in A above and actually performed, as follows:

1. Actual invoice cost to the seller, minus any trucking charges included on such invoice, plus
2. An added charge at the rate of thirty cents per 100 pounds

TABLE F-8.—Alloy bars—hot rolled and cold finished—Continued

Provided, that no additional charges may be made such as, but not limited to, a charge for trucking, handling, risks, etc.

SIZE EXTRAS

[Rate per 100 pounds]

The following size extras may be added:
1. When material is sold without cutting, the size extra shall be determined by the actual size of material sold.
2. When material furnished is other than sizes available in stock and when material is actually cut to the buyer's specification, the size extra shall be determined by the actual size, prior to cutting, of the material used.

C. SUPPLEMENTARY SIZE EXTRAS

1. For stretcher leveled resquared cold rolled sheets of the following dimensions double the sum of the applicable extras for gauge and width (A) and length (B) may be charged:

No. 20 gauge and lighter, over 120" long. Heavier than No. 20 gauge, over 144" long. No. 16 gauge and heavier, over 60" wide. Lighter than No. 16 gauge, over 48" wide.

2. The following extras may be added to size extras (gauge and width and length) in Tables A and B above where a seller has paid a mill extra for full finish or cold reduced on cold rolled sheets of Number 13 U. S. Standard gauge and heavier, as allowed by the provision of § 1306.8 (b) of Revised Price Schedule Number 6.

No. 11 gauge and heavier..... \$1.00
No. 12 and 13 gauge..... .50

UNEQUAL LEG ANGLES

If shorter leg is equal to or greater than ¾ of longer leg, apply extra for equal leg angle of length and thickness of shorter leg plus 1¢ per pound. In case shorter leg is not equal to or greater than three-quarters of longer leg, apply extra for equal leg angle of length and thickness of shorter leg plus 2¢ per pound.

CUTTING EXTRAS

[Rate per 100 pounds]

The following charges are to be made only when material furnished is other than sizes available in stock and when material is actually cut to the buyer's specification.

TABLE H-1. Plate shearing extras

$\frac{3}{16}$ " to 1" thick inclusive, including U. M., sheared, flange, firebox, high carbon, copper bearing and floor plates and hot rolled strip $\frac{3}{16}$ " thick over 6" wide cut to length only, or any size $\frac{3}{16}$ " thick strip cut to width and length.

TABLE H-3.—Shearing hot rolled carbon bars (under .60 mean of carbon)

HOT ROLLED STRIP AND ANGLES

Rounds, squares, hexagons 2" cross section and under.

Flats 1½" x 6" and smaller.

Angles 2½" x 2½" x ½" and smaller—all lengths.

Angles 3" to 6" leg, inclusive, under 8'0" long.

Total cuts of one length, cross section, finish and analysis determines the charge per cut.

Minimum charge—35c per item of one length, cross section, finish and analysis.

Pounds per lineal foot	Lengths						
	Over 8'0" any number cuts	4'0" to 8'0" incl.		1'0" to under 4'0"		Under 1'0"

Rounds, squares, hexagons over 2"; flats over 1½" thick; bar channels; bar tees; bar zeos; use table H-5.

Angles over 6" either leg, use table H-8.

Hot rolled bars .60 mean of carbon and over, use Schedule H-6.

TABLE H-4.—Shearing legs of angles

Set up charge.....	\$1.00 net	\$1.00 net	\$1.00 net
Per cut for each leg of each angle.....	.25	.50	.75

Add to above, the regular length cutting extras. (Table H-3.)

Gross weight may be charged for the stock size cross-section of the cut length angle.

The leg-shearing operation is done before cutting to length. Thus 2 angles 8'0" long would be subject to only one \$0.25 leg shearing extra since this operation would be performed on a 10'0" angle.

RECTANGULAR PLATES

Over 1" thick a charge may be made for Flame Cutting one side and one end at above extras unless Flame Cutting all edges is specified when a charge may be made for two sides and two ends. 1" thick and under a charge may be made for Flame Cutting of 4 edges.

CIRCULAR PLATES

Flame Cutting charge based on circumference of circle.

RINGS

Flame Cutting charge based on total footage of inside and outside circumferences.

SKETCHES WITH STRAIGHT SIDES

With straight sides and no re-entrant cuts. Flame Cutting charge based on total footage in perimeter of sketch.

TABLE H-9.—Stainless steel sheets

A. RECTANGULAR SHAPES

1. If width* of piece ordered is less than 1/4 of the width of any stock size sheet in same type, gauge and finish add ten percent (10%) of the stock size price.
2. If width* of piece ordered is 1/4 but less than 1/2 of the width of any stock size sheet in same type, gauge and finish add fifteen percent (15%) of the stock size price.
3. If width* of piece ordered is 1/2 or more of the width of any stock size sheet in same type, gauge and finish add twenty percent (20%) of the stock size price.
4. If the cut size or sizes ordered are cut without waste from any stock size, none of the above percentage extras (10%, 15%, 20%) may be added, but the following shearing charges may be made for the number of cuts actually made in filling the order. Figure one first cut for each thickness ordered. In no case shall the shearing charge exceed the value of the cut pieces figured at 12¢ per pound.

Gauge No.	Charge for—	
	First cut	Additional cuts
No. 10	\$0.60	\$0.20
11	.60	.20
12	.60	.20
14	.60	.20

18	.50	.15
20	.50	.15
22	.40	.10
24	.35	.10
26	.35	.10

*The smallest dimension shall be considered the width regardless of surface finish or grain structure. If a charge is made in accordance with (1), (2), or (3) the net weight of the cut material ordered shall be the weight used in invoicing.

B. STAINLESS SHEET CIRCLES

When rough cut to size 5" Dia. and larger on straight blade shear, price as a square and charge for weight of square 1/2" larger than diameter of circle, and then add the following extra for shearing to circle:

8¢ (eight cents) per inch diameter.

Minimum charge \$1.00 net per thickness.

(Example: 1 circle #24 x 20" Dia., Charge is \$1.60 net

4 circles #10 x 22 1/2" Dia., Charge is 1.80 each or 7.20 net

PART 1306—IRON AND STEEL

[RPS 49, as Amended April 8, 1943]

RESALE OF IRON OR STEEL PRODUCTS

Sections 1306.151, 1306.152, 1306.157 (s), 1306.159 (e), (i) (3) and (p) (5) amended; §§ 1306.157 (p) and (q) revoked, and § 1306.157 (bb) added by Amendment 13,¹ issued April 8 and effective April 15, 1943, so that Revised Price Schedule 49 shall read as follows:

Prices in effect on April 16, 1941, have been specified as maximum prices for sale of iron or steel products by producers, under Price Schedule No. 6, as revised on June 21, 1941.² A large proportion of the iron or steel products used in industry passes through the hands of jobbers, dealers, and distributors of various kinds. In some cases, these middlemen have charged exorbitant and unwarranted prices. It is therefore essential that the price charged by these persons, as well as the price charged by the producer, be kept within reasonable limits. To protect both the consumer and the jobbers, dealers, and other distributors who have maintained a reasonable price level, it has been determined by the Office of Price Administration that a price schedule covering all resale of iron or steel products should be issued. April 16, 1941, has been selected as the base date since the maximum price at which the reseller may purchase from a producer has been established as of that date. Pending further investigation of transportation problems, maximum prices for Pacific Coast and Gulf Port prices are being specified.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

- Sec.
- 1306.151 Maximum prices for the resale of iron or steel products.
- 1306.152 Less than maximum prices.
- 1306.153 Evasion.
- 1306.154 Records and reports.
- 1306.155 Enforcement.
- 1306.156 Petitions for amendment, adjustment or exception.
- 1306.157 Definitions.
- 1306.158 Effective date of Price Schedule No. 49.
- 1306.158a Effective dates of amendments.
- 1306.159 Appendix A: Domestic and export maximum prices for iron and steel products.
- 1306.160 Appendix B: Listed cities.
- 1306.161 Appendix C: List of products.
- 1306.162 Appendix D: Exceptions to Price Schedule No. 49.
- 1306.163 Appendix E: Base prices and quantity extras.
- 1306.164 Appendix F: Maximum delivered prices for certain secondary or rejected iron or steel products.

AUTHORITY: §§ 1306.151 to 1306.164, inclusive, issued under E.O. 8734, 8875, 6 F.R. 1917, 4483. (Executive authority superseded by Emergency Price Control Act of 1942, Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.)

§ 1306.151 *Maximum prices for the resale of iron and steel products.* On and

after December 15, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no seller, as defined in § 1306.157 (a) of this Revised Price Schedule 49, shall sell, offer to sell, deliver or transfer iron or steel products at prices higher than the maximum prices in effect at the time of such sale, offer for sale, delivery or transfer, as hereinafter set forth in the appendices to this Revised Price Schedule 49.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that the prohibition contained in any price regulation against buying or receiving any commodity or service at a price higher than the maximum price permitted by such regulation shall not apply to any war procurement agency, or government whose defense is vital to the defense of the United States.]

[NOTE: Supplementary Order No. 31 (7 F.R. 9894) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

§ 1306.152 *Less than maximum prices.* Lower prices than those established by this Revised Price Schedule 49 may be charged, demanded, paid or offered.

§ 1306.153 *Evasion.* The price limitations set forth in Price Schedule No. 49 shall not be evaded either by direct or indirect methods in connection with a purchase, sale, barter, delivery or transfer of iron or steel products alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or by way of discount, premium, or other privilege, or by way of tying agreement or other trade understanding, or otherwise.

§ 1306.154 *Records and reports—(a) Records of sales, inventory and orders.* Every seller of iron or steel products shall, after December 15, 1941, keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of:

(1) Each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid on each purchase for resale and received on each resale, the quality and grade, the sizes, and the quantity of each product purchased or sold, and

(2) The tonnage of iron or steel products on hand and on order, classified by product, in a manner similar to that of Form PD 83 as issued by the War Production Board. A copy of Form PD 83 may be had upon request by applying to the War Production Board.

[Paragraph (a) as amended by Amendment 2, 7 F.R. 2540, effective 3-31-42]

(b) *Filing prices.* On or before December 31, 1941, every seller of iron or

steel products having annual gross sales of \$100,000 or more, even though iron and steel products comprise only a part of the total, during the year ending December 31, 1941, shall file in duplicate, in affidavit form, with the Office of Price Administration, Washington, D. C., his prices circulated to his salesmen or customers in effect on April 16, 1941, or customarily quoted and charged on that date, including extra lists; deduction lists, charges, and discounts. Special prices or discounts given to any customers and classes of customers as of April 16, 1941, shall be filed. This includes prices or discounts to jobbers, dealers and large, industrial or other special buyers. Every seller shall file individual price sheets for each warehouse or branch, showing city and country prices, wherever such exist; and he shall indicate the area or cities to which such prices apply. In the event that any prices so filed exceed the maximum prices established by Revised Price Schedule No. 49, the seller shall, after the effective date of Revised Price Schedule No. 49, eliminate this excess and charge a maximum price not in excess of the maximum prices established herein. Every seller shall state with regard to his April 16, 1941 price for each product, the range of sizes, types or cross-section covered by each price submitted; trade names, if any, and prices charged; prices for each base quantity; products sold in various quantity brackets, and prices for each bracket. If the person is a seller without prices as of April 16, 1941, (a) because of establishment of business after April 16, 1941, or (b) because of introduction of a product not handled on or prior to April 16, 1941, he shall file a list of his inventory as of December 1, 1941, and prices he proposes to charge for such products. These prices shall not be in excess of the maximum as established by Revised Price Schedule No. 49. Additional filing requirements from Pacific Coast and Gulf Port sellers, and for carload business, are included in other sections of Revised Price Schedule No. 49. Persons affected by Revised Price Schedule No. 49 shall submit such other reports to the Office of Price Administration as it may from time to time require: *Provided*, That every seller of pipe and tubular products shall file with the Office of Price Administration, in duplicate, on or before September 15, 1942, his cutting and threading charges circulated to his salesmen or to his customers and in effect on April 16, 1941, or customarily quoted and charged as of that date.

[Proviso added by Amendment 7, 7 F.R. 6693, effective 9-4-42]

NOTE: Supplementary Order 23 (7 F.R. 8478) provides that on and after October 24, 1942, reports filed with OPA pursuant to any price regulation issued prior to October 24, 1942, need not be notarized.

§ 1306.155 *Enforcement.* (a) Persons violating any provision of this Revised Price Schedule No. 49 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 49 or any price schedule, regula-

[NOTE: The provisions of Supplementary Order No. 17, (7 F. R. 7239, 11007) licensing persons subject to Revised Price Schedules 46 and 49, and Maximum Price Regulation No. 159 are applicable to every person selling iron or steel products for which maximum prices are established by Revised Price Schedule No. 49. That order provides in substance that a license is required of every person selling iron or steel products by this Revised Price Schedule No. 49, that every person subject to this regulation is granted a license as a condition of selling iron or steel products hereunder, and that every such person may in the future be required to register with the Office of Price Administration at such time and in such manner as the Administrator may prescribe. Licensees violating any of the provisions of this regulation or of said license are subject to the license suspension proceedings provided in the Emergency Price Control Act of 1942.]

§ 1306.156 *Petitions for amendment, adjustment or exception.* (a) Any person seeking an amendment of any provisions of this Revised Price Schedule No. 49 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.⁸

[Paragraph (a) as amended by Supplementary Order 26, 7 F. R. 8948]

(b) A petition for exception may be filed by any seller requesting permission to sell high cost inventory, title to which was acquired prior to December 15, 1941, at prices in excess of the maximums established in this Revised Price Schedule No. 49. Such petitions must prove that serious financial losses will be imposed on the seller by sale at ceiling prices.

(c) A petition for exception may be filed in any case in which the petitioner claims that the gross margin on a particular product between mill ceiling price and the resale ceiling price as established by this Revised Price Schedule No. 49 is inadequate. The petition must demonstrate:

(1) That the spread is less than that which existed on April 16, 1941; and

(2) That circumstances such as the withdrawal of special competitive prices by the mill, the grant of an amendment or an exception under Revised Price Schedule No. 6⁹ by the Office of Price Administration to the supplying mill, the use of the emergency basing point by the mill, etc., have led to the inadequacy of the gross spread; and

(3) That the sale of the particular product, at ceiling prices, has a serious effect on the over-all financial position of the petitioner.

The Office of Price Administration will consider the above factors, together with such other economic and financial data as may be relevant, in determining the merits of such a petition.

(d) A petition for adjustment may be

filed requesting that the April 16, 1941 price of any seller be raised to conform to the listed or published price in any listed city, or the lowest combination price in an unlisted city.

(e) In any case in which extraordinary and unusual freight absorption is compelled by the exigencies of the war program, such as priority rating, allocation or the like, and the situation is not covered by § 1306.159 (f) of this Revised Price Schedule No. 49, a petition for exception may be filed by the seller; Upon such petition, the Administrator may grant, together with such other relief as may be proper, the right to price f. o. b. warehouse.

[Paragraphs (b), (c), (d) and (e) as amended by Amendment 2, 7 F. R. 2540, effective 3-31-42]

[NOTE: Supplementary Order No. 28 (7 F. R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

§ 1306.157 *Definitions.* When used in Revised Price Schedule No. 49, the term:

(a) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Seller" means any person who resells iron and steel products to any other person, whether as distributor, jobber, dealer, agent, broker, merchant, exporter, including any person who acts as an intermediary in any connection with such resale, or otherwise: *Provided*, That:

(i) The term shall not include producers of iron or steel products whose activities are covered by Revised Price Schedule No. 6—Iron and Steel Products, except insofar as such producers operate warehouses, branches, or affiliates engaged in the redistribution of iron or steel products. The operation by producers of mill depots for the purpose of distributing iron or steel products manufactured by such producers shall not be considered a resale within the terms of Revised Price Schedule No. 49, but is a sale covered by Revised Price Schedule No. 6.

(ii) "Seller" as defined herein shall not include retail merchants who make retail sales of merchant wire products, all types of roofing and siding, or pipe to consumers in small quantities specifically exempted by this Revised Price Schedule No. 49: *Provided*, That on sales made in quantities larger than those specifically exempted from the maximum price provisions of this Revised Price Schedule No. 49, such retail merchants shall keep records, file prices and observe maximum established prices.

[Paragraph (ii) as amended by Amendment 2, 7 F. R. 2540, effective 3-31-42]

(c) "Iron or steel product" includes all iron or steel ingots, all semi-finished iron or steel products, all finished hot rolled or

cold rolled iron or steel products, all iron or steel products further finished (by galvanizing, enameling, plating, coating, drawing, extruding or otherwise) in a manner commonly performed at steel works or rolling mills, and shall include all products listed in the table of Capacity and Production for Sale contained in the Annual Statistical Report of the American Iron and Steel Institute for 1939, pages 42 and 43: *Provided*, That the term shall not include pig iron. Any iron or steel product, as defined above, subject to the operations of pickling, cutting by machine or flame, cutting and threading of pipe, shall be considered a part of this definition of iron or steel product. This definition includes primes, rejects, seconds, wasters, waste wasters, side and end shearings, coil ends, fish tails, mill crop ends and all other off-grade products including reusable products. It does not include (1) crop ends of unused structural steel shapes, structural steel plates and steel shafting, all originating in shipbuilders' or in other fabricators' yards or plants, and reusable structural steel shapes, structural steel plates and steel shafting (which are covered by Maximum Price Regulation No. 310, Reusable Structural Steel Shapes and Plates, and Shafting¹⁰); (2) relaying rail (which is covered by Revised Price Schedule No. 46, Relaying Rail¹¹); (3) reusable iron and steel pipe (which is covered by Maximum Price Regulation No. 230, Reusable Iron and Steel Pipe¹²); and (4) iron and steel scrap (which is covered by Revised Price Schedule No. 4, Iron and Steel Scrap¹³). The term "iron or steel product" includes concrete reinforcing bars but not the fabrication thereof (which is covered by Maximum Price Regulation No. 159, Fabricated Concrete Reinforcing Bars¹⁴). The term "iron or steel product" includes structural steel shapes but not the fabrication thereof (which is covered by Order No. 61, under § 1499.3 (b) of General Maximum Price Regulation¹⁵). The term "iron or steel product" also includes cut nails allocated and sold to distributors under directive order, dated July 23, 1942, issued by the Director of Industry Operations, War Production Board.

[Paragraph (c) as amended by Amendment 12, 8 F. R. 2388, effective 3-1-43]

(d) "Maximum delivered price" means the combination of all factors entering into the final charge to the customer, including base prices, transportation and delivery charges and all extras, deductions and other terms of sale;

(e) "Published listed price" or "published list price" means a price for resale of iron or steel products publicly circulated in the trade, and is confined, except as stated below in § 1306.159 (m) (3), to price lists issued for the cities named and the persons stated in Appendix B, incorporated herein as § 1306.160. If not otherwise stated, the term is meant to apply only to price lists effective

tive as of April 16, 1941. In any "listed city" in which there are several such published listed prices for any product or quantity, the highest of such prices shall be the published listed price herein referred to;

(f) "Dislocated tonnage" means—

(1) Any shipments by a seller of 150 to 350 miles which are made through any listed city, into any listed city, or substantially in the same direction and past any listed city; or

(2) Any shipments by a seller of more than 350 miles in any direction.

[Paragraph (f) as amended by Amendment 12, 8 F.R. 2388, effective 3-1-43]

(g) "Governing basing point" means the basing point of producers of iron or steel products included in Price Schedule No. 6, which results in the lowest delivered price to the mill customer;

(h) "Mill base price" means the price at the basing point which governs a sale from a mill by producers of iron or steel products included in Revised Price Schedule No. 6;

(i) "Listed city" means any city named in § 1306.160, Appendix B;

(j) "Unlisted city" means any city or place other than those in § 1306.160, Appendix B;

(k) "Lowest combination" means the lowest delivered price that is the result of a combination of (1) country price of any seller located in any listed city and (2) less-than-carload freight from such listed city.

(l) "Freight as customarily charged" means that type of freight, either all-rail, rail and water, or all water which is customarily used and which may be used to arrive most economically at the place of delivery;

(m) "Mixed carload" means a carload containing not less than three product items of steel in substantial quantities and of different type, such as strip, plates, sheets or bars, etc., or a carload of one or more product classifications containing not less than 10 items of different sizes and/or gauge, each item to be of a specific and known quality, length and cross section, and no item of which shall be more than 8,000 pounds. (On those products as are customarily designated by gauge numbers, cross-section shall mean a specific and known width and gauge.) Maximum prices for mixed carloads are set forth in § 1306.159 (k) (2), except that maximum prices for mixed carloads of merchant wire products and of pipe and tubular products are set forth in § 1306.159 (k) (3) and (k) (4).

[Paragraph (m) as amended by Amendment 7, 7 F.R. 6893, effective 9-4-42]

(n) "Pacific Coast" means any place within the States of California, Oregon, or Washington;

(o) "Gulf Ports" means all cities and other places located on or near the Gulf of Mexico in the States of Texas, Louisiana, Mississippi, Alabama, and Florida.

(p) [Revoked April 8, 1943]

(q) [Revoked April 8, 1943]

(r) "Distress or stranded material" means any iron or steel products which:

(1) Were intended for an export shipment

(2) Were shipped to a port of exportation prior to March 1, 1942; and

(3) Have incurred charges for ocean freight, marine or war risk insurance or storage charges directly attributable to failure to secure shipping space as a result of war or of stoppage or diversion by act of a governmental agency in the interests of national defense.

[Paragraph (r) added by Amendment 1, 7 F.R. 2473, effective 3-28-42]

(s) "The operations commonly known as the warehousing of iron or steel products" means the actual receipt and unloading of iron or steel products, purchased under the authority granted by the applicable regulations of the War Production Board governing the purchase for resale of iron or steel products in substantially the same form as received, into premises (not a public warehouse) equipped with facilities for performing such operations as receiving, stocking, sorting and grading, pipe threading or cutting, shearing, flame cutting or burning to size or shape, and shipping, which operations are necessary or incidental to the resale and distribution of the particular products brought into those premises.

(t) "Mill run long ties", or "longs", means cotton bale ties 11' 6" in length, removed from bales of cotton, cotton linters, and cotton waste.

(u) "Mill run short ties", or "shorts", means cotton bale ties shorter than 11' 6" in length, removed from bales of cotton, cotton linters and cotton waste.

(v) "Whole secondhand ties" means rebundled and straightened cotton bale ties, 7' 3" or longer, free of riveted or spliced joints, in standard bundles of 30 ties and 30 buckles.

(w) "Riveted or spliced secondhand ties" means rebundled and straightened cotton bale ties, 7' 3" or longer, riveted or spliced together from two or more pieces of mill run short ties in standard bundles of 30 ties and 30 buckles.

(x) "F. o. b. port" means any one of the following ports, the use of which results in the lowest delivered price to destination of the customer: Norfolk, Virginia; Wilmington, North Carolina; Charleston, South Carolina; Savannah, Georgia; Mobile, Alabama; New Orleans, Louisiana; Galveston, Texas; Houston, Texas; Texas City, Texas.

[Paragraphs (t), (u), (v), (w), and (x) added by Amendment 9, 7 F.R. 10844, effective 1-1-43]

(y) "Imported" means entered into the continental United States from outside thereof for consumption therein or withdrawn from a bonded warehouse in the United States for consumption therein.

(z) "Total landed costs" means the sum of the price charged by the foreign seller, plus all the costs, expenses and charges, including customs duties and import taxes, if any, incurred by a seller with respect to a shipment of an imported iron or steel product from the point of shipment outside the continental United States to the point in the con-

tinental United States designated by the seller for initial delivery.

[Paragraphs (y) and (z) added by Amendment 11, 8 F.R. 1583, effective 2-8-43]

(aa) The further definitions as set forth in § 1306.164, Appendix F, paragraph (b) shall apply to the secondary or rejected iron or steel products covered by Appendix F.

[Paragraph (aa) added by Amendment 12, 8 F.R. 2388, effective 3-1-43]

(bb) The further definitions set forth in § 1306.165, Appendix G, (added by Amendment 14, *supra*, 4-8-43), paragraph (a) shall apply to the products covered by Appendix G.

§ 1306.158 *Effective date of Price Schedule No. 49.* This schedule (§ 1306.151 to 1306.161, inclusive) shall become effective on December 15, 1941.

[Issued December 13, 1941]

§ 1306.158a *Effective dates of amendments.* [Effective dates of amendments are shown in notes following parts affected.]

§ 1306.159 *Appendix A: Domestic, export and import maximum prices for iron and steel products—(a) Maximum delivered prices in any city, whether listed or unlisted, or free delivery area, in which the seller is located.* (1) In any city or free delivery area in which the seller is located, the maximum delivered price for any iron or steel products shall be the delivered price which was or would have been charged by the seller on April 16, 1941. It is provided however:

[Section heading amended by Amendment 11, 8 F.R. 1583, effective 2-8-43]

(i) That in cities designated in § 1306.160, Appendix B, as listed cities, the maximum delivered prices shall not exceed the published listed prices, as set out in § 1306.160, Appendix B, in effect as of April 16, 1941, for that city or free delivery area.

(ii) That in unlisted cities, the maximum delivered price shall not exceed the lowest delivered price that is the result of a combination of (a) country prices of any seller named in § 1306.160, Appendix B herein [or as may hereinafter be issued under "General Provisions," § 1306.159 (m) (3)] located in any listed city, and (b) less-than-carload freight from such listed city.

(2) Extras which were customarily charged as of April 16, 1941, may be computed in the maximum delivered price: *Provided*, That such extras do not exceed those established and charged on April 16, 1941, by sellers listed in § 1306.160 Appendix B of Price Schedule No. 49. Extras listed but not customarily charged as of April 16, 1941, shall not be charged. Deductions customarily granted as of April 16, 1941, shall be deducted in computing the maximum delivered price. Where a seller has paid a mill the extra for full finish or cold reduced finish on cold rolled sheets of No. 13 U. S. S. gauge and heavier, as allowed by the provisions of § 1306.8 (b) of Revised Price Schedule No. 6, he may charge an extra for No. 11 U. S. S. gauge

and heavier of \$1.00 per 100 pounds, and an extra for No. 12 and No. 13 U. S. S. gauge of \$0.50 per 100 pounds.

[Paragraph (2) as amended by Amendment 11, 8 F.R. 1583, effective 2-8-43]

(3) Persons not having prices shall compute maximum delivered prices in accordance with paragraph (c) of this section.

(b) *Maximum delivered prices in places other than the city or free delivery area in which the seller is located.* (1) In any other place than a city or free delivery area in which the seller is located, the maximum delivered price for that seller shall be the seller's prices in the city or free delivery area in which the seller is located (as established in § 1306.159 (a)) and less-than-carload freight to destination: *Provided*, That such maximum prices may not exceed the lowest delivered price that is the result of a combination of (i) country price of any seller named in § 1306.160, Appendix B, herein (or as may hereinafter be issued under "General Provisions," § 1306.159 (m) (3)) located in any listed city and (ii) less-than-carload freight from such listed city. It is provided, however, that in no case shall the maximum delivered price on a sale for delivery into a listed city exceed published listed prices, extras and deductions, as set out in § 1306.160, Appendix B, in effect as of April 16, 1941, for that city or free delivery area.

[Paragraph (b) as amended by Amendment 2, 7 F.R. 2540, effective 3-31-42]

(c) *Maximum delivered prices for persons without prices.* (1) In the city or free delivery area in which are located certain persons without prices as of April 16, 1941, because of (a) the establishment of their business after that date, or (b) the introduction of a product not handled on or prior to April 16, 1941, the maximum delivered price for persons having no prices for the product or the quantity being sold shall be:

(i) In listed cities, the maximum delivered price shall not exceed the published listed prices, as set out in § 1306.160, Appendix B, [or, as may hereinafter be issued under "General Provisions", § 1306.159 (m) (3)] for that city or free delivery area.

(ii) In unlisted cities, the maximum delivered price shall not exceed the lowest delivered price that is the result of a combination of (a) country prices of any seller named in § 1306.160, Appendix B herein [or as may hereinafter be issued under "General Provisions", § 1306.159 (m) (3)] located in any listed city, and (b) less-than-carload freight from such listed city.

(2) If a person not having prices sells for delivery into a place other than the city or free delivery area in which he is located, the maximum delivered price shall be set in conformance with paragraph (b) of this section.

(3) Any person who for any reason is unable to set a maximum delivered price in accordance with the terms of Revised Price Schedule No. 49 may apply to the Office of Price Administration to set maximum delivered prices for the sale or series of sales in question.

(d) *Modification of certain April 16, 1941, prices.* (1) Any seller located in

listed city or free delivery area to which published listed prices are applicable, if his prices as of April 16, 1941, were lower than such published listed prices, may make application to the Office of Price Administration to increase the maximum delivered price applicable to him in order to correspond to the published listed prices applicable to such listed city or free delivery area. Such application shall be in affidavit form and shall state that the services rendered by such seller are comparable to services rendered by the sellers named in § 1306.160, Appendix B, for such city, in such matters as delivery service, performance of cutting, shearing, bending, threading and similar operations, carrying of a full line of products, of comparable type, grade and quality, etc.

(e) *Maximum prices for exports of iron or steel products.* Maximum prices for export sales of iron or steel products under this Revised Price Schedule No. 49 shall be computed in accordance with the Revised Maximum Export Price Regulation² and any amendments or revisions thereof.

(f) *Maximum delivered prices for dislocated tonnage.* For dislocated tonnage, as defined in § 1306.157 (f), out of warehouse stock, the maximum delivered price for any iron or steel product so shipped shall be the seller's maximum price for shipments out of his own city or free delivery area (that is, his country price) as established in this Revised Price Schedule No. 49, plus freight to destination, less 15¢ per 100 pounds. *Provided*, That if, in computing the price on dislocated tonnage, the resultant delivered price is lower than the price that would be obtained by using § 1306.159 (b), only that part of the 15¢ need be deducted which will make the price equivalent to that established by § 1306.159 (b). (In effect, if to the seller's advantage, he may use the dislocated tonnage provision when applicable; if not, he may use § 1306.159 (b)). *Provided further*, That the maximum delivered prices for dislocated tonnage shall not apply to shipments of pipe or tubular goods, and that on all shipments of standard pipe, seamless pipe, water well casing, large O. D. pipe, line pipe and wrought iron pipe originating from jobber's stocks in the States of Washington, Idaho, Montana, Oregon, Wyoming, Nevada, Utah, Colorado, Arizona, California, New Mexico and Texas (El Paso and Pecos only) and shipped to points within the above mentioned states or to points West of the 103rd meridian, within the States of North Dakota, South Dakota, Nebraska, and Texas, any freight actually paid in excess of the sum of thirty (30) cents per 100 pounds may be charged, notwithstanding that freight equalization of more than this amount may be required by the provisions of § 1306.159 (i) (1) and (2), establishing maximum delivered prices at such points of delivery.

[Paragraph (f) as amended by Amendment 12, 8 F.R. 2388, effective 3-1-43]

(g) *Maximum delivered prices on the Pacific Coast and for Gulf Ports: Special*

filing provisions. (1) Maximum delivered prices on the Pacific Coast shall be as provided in Revised Price Schedule No. 49. *Provided*, That: (i) on the following steel products whether sold as standard specification carbon steel, or steel products of that grade known in the trade as Mayari R, Corten etc., or steel products of Abrasive Resisting, Armco, and Toncan quality, and on no others, the following sums may be added to the maximum delivered prices as otherwise established in Revised Price Schedule No. 49:

	Cents per 100 pounds
Plates, universal and sheared, and floor plates	75
Hot rolled sheets	65
Cold rolled sheets	65
Hot rolled bars and small shapes (concrete reinforcing bars are not included in this classification)	20
Galvanized, galvanized and enameling sheets	45
Hot rolled strip	25
Structural shapes	45
Hard red sheets	90
Billets	70

(ii) On all pipe and tubular products covered by § 1306.159 (i) of this Revised Price Schedule No. 49, the rail and water rates to Pacific Coast ports, referred to in that section, may be disregarded and published all-rail freight rates may be used in computing maximum prices.

(2) Information from Pacific Coast and Gulf Port sellers is required to be filed with the Office of Price Administration on Forms 149: 1 and 149: 2, respectively. Copies of Forms 149: 1 and 149: 2 may be had upon request by applying to the Office of Price Administration.

[Paragraph (g) as amended by Amendment 2, 7 F.R. 2540, effective 3-31-42, and Amendment 7, 7 F.R. 6893, effective 9-4-42]

(h) *Maximum delivered prices for specific wire products.* (1) Notwithstanding the provisions of any other section of Revised Price Schedule No. 49, the maximum delivered price for shipment from warehouse stock of less-than-carload quantities of standard wire nails, annealed smooth wire, and galvanized smooth wire, in the city or free delivery area in which the seller is located, shall be the aggregate of:

(i) Mill straight carload price (after deducting the regular jobber allowance of 15¢ per cwt.).

(ii) Carload freight from the governing mill basing point to warehouse, or carload freight from the emergency basing point where use of the latter is permissible under Revised Price Schedule No. 6, not to exceed, however, the actual freight paid. (Where the emergency basing point is used as a basis for computation, records of such sales and of the manner of computing price shall be kept available for inspection for a period of one year.)

(iii) One of the following: for standard wire nails, 50¢ per cwt.; for annealed smooth wire, 60¢ per cwt.; for galvanized smooth wire, 68¢ per cwt.

(2) The maximum delivered price for shipment from warehouse stock of less-than-carload quantities of standard wire nails, annealed smooth wire, and galvanized smooth wire sold from the city or free delivery area in which the seller is located to any other place shall be the

² 2d Revision, 8 F.R. 4132.

price (as computed above) in the city or free delivery area in which the seller is located and less-than-carload freight from such city.

(3) On all merchant wire products, and all types of roofing and siding, whether covered by subparagraphs (1), (2) or (4) of this paragraph, extras charged by jobbers and dealers on merchant wire products, and all types of roofing and siding, shall be the same as regular published mill extras in effect as of April 16, 1941, and deductions customarily granted as of April 16, 1941, shall be deducted in computing the maximum delivered price. On standard wire nails, annealed smooth wire and galvanized smooth wire, for which maximum prices are established above, deductions shall be in the same ratio to these maximum prices as they were to prices existing on April 16, 1941.

(4) The maximum delivered domestic prices for less-than-carload quantities of all other merchant wire products (including poultry netting, screen cloth and hardware cloth) and all types of roofing and siding shall be computed as otherwise provided in paragraphs (a), (b) and (c) of this section. *Provided*, That in no case need the price of any seller, listed or otherwise, in the city or free delivery area in which he is located, fall below the aggregate of:

(i) Mill straight carload price to jobbers

(ii) Carload freight from the governing mill basing point to warehouse, or carload freight from the emergency basing point where use of the latter is permissible under Revised Price Schedule No. 6, not to exceed, however, the actual freight paid; (where the emergency basing point is used as a basis for computation, records of such sales and of the manner of computing price shall be kept available for inspection for a period of one year) and,

(iii) A mark-up of 20% of the aggregate of subdivisions (i) and (ii) of this subparagraph.

Provided further, That in no case shall the maximum delivered price of merchant wire products or all types of roofing and siding sold to any place other than the city or free delivery area in which the seller is located exceed the seller's maximum price, as herein established, plus less-than-carload freight from the city in which such seller is located.

(5) The maximum prices for mixed or straight carloads of merchant wire products are established by § 1306.159 (k) (3).

(6) The maximum delivered prices of merchant wire products and all types of roofing and siding established in this section do not govern retail sales of such products by retail merchants (such as retail hardware stores, retail lumber yards, or mail order houses) to consumers: *Provided*, That sales by any person of nails in quantities of more than 25 kegs or other merchant wire products and all types of roofing and siding in quantities of more than 2,500 pounds shall be so governed.

[Paragraph (h) as amended by Amendment 2, 7 F.R. 2540, effective 3-31-42, and Amendment 7, 7 F.R. 6893, effective 9-4-42]

(i) *Maximum delivered prices for pipe and tubular products.* Maximum delivered prices for the following types of iron and steel pipe and tubular products shall be the seller's prices in effect as of April 16, 1941: *Provided*, That they do not exceed the maximum delivered prices established below, as modified by deductions, discounts, and other terms customarily granted by the seller as of April 16, 1941. Standard published mill extras in effect as of April 16, 1941, shall be used in computation of maximum delivered prices. *Provided further*, That extras for cutting and threading operations where performed by mill shall not exceed the standard published mill extras, in effect April 16, 1941, for such operations; and that where cutting and threading operations are performed by the seller, the extras for such operations shall not exceed the amount charged or which would have been charged by the seller on April 16, 1941, and which seller has filed with the Office of Price Administration.

(1) For standard pipe, seamless pipe, water well casing, large O. D. pipe, and line pipe: the lowest price resulting from that combination of flat basing card discounts of the National Tube Company in effect April 16, 1941, and published all-rail carload freight from Basing Point to destination of customer (except to Pacific Coast points where the rail and water rate is applicable) " plus:

(i) 25% on standard pipe, reamed and drifted pipe and line pipe 6 inches and smaller, both black and galvanized, and

(ii) 30% on all larger sizes of standard pipe and line pipe, also all sizes of extra strong and double extra strong, both black and galvanized, and all sizes of water well casing and large O. D. pipe.

(2) For wrought iron pipe: the price resulting from combination of resale discounts for sales from distributors' stocks as shown on A. M. Byers Company card in effect April 16, 1941, and published all-rail carload freight from Pittsburgh to destination of customer (except to Pacific Coast points where the rail and water rate is applicable)."

(3) For oil country tubular goods: (i) *Direct mill shipments:* For direct mill shipments of oil country casing, tubing, drill pipe and drive pipe only, the lowest price (as established by Revised Price Schedule No. 6 ") resulting from that combination of mill basing point price, as published by Oil Well Supply Company, distributor for National Tube Company, in effect April 16, 1941, (Oil Country Tubular Goods Price List No. 24) and carload freight or transportation charges from the governing mill basing point to destination of customer as computed in National Tube Company Freight Book No. 1.

(ii) *Shipments out of seller's field or warehouse stock:* For shipments out of field or warehouse stock of oil country casing, tubing, drill pipe, and drive pipe only: the lowest price resulting from that combination of basing point out of field

" 7 F.R. 1215, 2132, 2153, 2299, 2997, 3115, 3941, 4780, 7240, 8948.

or distributor's stock price as published by Oil Well Supply Company, distributor for National Tube Company, in effect April 16, 1941, (Oil Country Tubular Goods Price List No. 24) and carload freight or transportation charges from the governing mill basing point to location of field or warehouse stock, as computed by the National Tube Company Freight Book 1, to which may be added freight or transportation charges from the location of field or warehouse stock to destination of the customer.

(4) For boiler and other pressure tubes: the lowest price resulting from that combination of basing point prices in each quantity bracket of the National Tube Company price list for sales to consumer in effect April 16, 1941, and less-than-carload freight from basing point to destination of customer (carload freight shall be charged on shipments of 40,000 lbs. and over) " : *Provided*, That maximum prices for merchant and other tubes shall be in the same ratio to the maximum prices established for seamless tubing as existed on April 16, 1941. In no case shall these prices exceed the maximum established here for seamless tubing: *Provided further*, That for boiler and other pressure tubes in the following sizes and gauges only:

1"-2 1/4" OD, 11 gauge and heavier.
2 1/2"-3" OD, 10 gauge and heavier.
3 1/2"-3 1/2" OD, 9 gauge and heavier.
4"-4 1/2" OD, 8 gauge and heavier.
5"-5 1/2" OD, 7 gauge and heavier.
6" OD, 5 gauge and heavier.
6 1/4"-6 1/2" OD, 5 1/2" and heavier.

On shipments from warehouse stock, the maximum delivered price shall be the lowest price resulting from that combination of mill carload basing point prices and less-than-carload freight from basing point to destination of customer, plus mark-up on such total as shown for each quantity bracket as established herein:

	For quantity (percent)
30,000 to 39,999 # or ft.	35
20,000 to 29,999 # or ft.	40
10,000 to 19,999 # or ft.	50
5,000 to 9,999 # or ft.	55
2,000 to 4,999 # or ft.	65
Under 2,000 # or ft.	80

(5) For cold drawn seamless and other mechanical tubing: the prices in effect and actually charged as of April 16, 1941, by the exclusive distributors of the National Tube Co., covering all sections of the country, shall be the maximum prices to be charged in areas served by each such distributor.

(6) Revised Price Schedule No. 49 does not establish a maximum price for sales by retailers, such as mail order houses and retail hardware stores, in quantities not greater than 5 standard lengths of pipe larger than 3 1/2", or than 15 standard lengths of pipe 3 1/2" or smaller.

(7) In the event that a recognized tubular goods jobber purchases oil country tubular goods or line pipe from an oil company or pipe line company at a price determined under Maximum Price Regulation No. 204 and resells such tubular goods or pipe directly to another oil company or pipe line company, and that the Office of Petroleum Coordinator has granted prior approval to the transaction,

the maximum price that the jobber may charge or receive for the tubular goods or pipe is the price which the jobber actually paid for the material plus 3% of such price.

[Paragraph (i) as amended by Amendment 7, 7 F.R. 6893, effective 9-4-42]

(j) *Maximum delivered prices for tool steel.* The maximum delivered price for tool steel shall be the seller's prices which were in effect, or would have been charged on April 16, 1941, provided they do not exceed, for comparable products, prices listed in the published price list of Crucible Steel Company, effective on April 16, 1941. The locations of warehouses of the Crucible Steel Company are set forth in § 1306.160, Appendix B, of Revised Price Schedule No. 49.

(k) *Maximum delivered prices for shipments in carload quantities, and in certain specific cases.* (1) Prices in excess of the mill prices provided under Revised Price Schedule No. 6 shall not be charged by any person for:

(i) Direct shipments from producers or converters of any quantity of iron or steel products; or

(ii) Shipments of any quantity diverted from delivery to warehouses; or

(iii) Shipments of any quantity not put through the operations commonly known as the warehousing of iron or steel products:

Provided, That direct mill shipments of special name steel differing in chemical analysis and quality from standard mill specifications, and on which the seller takes responsibility as to performance, may be sold, after approval by the Office of Price Administration as to qualification in this respect, at prices not to exceed the seller's April 16, 1941 prices established for such shipment.

(2) Notwithstanding the provisions of any other section of Revised Price Schedule No. 49 which relate to carload shipments, shipments of mixed carloads as defined in § 1306.157 (m) out of warehouse stock shall be sold at a price not in excess of the maximum delivered price for a 500 pound quantity minus a discount of not less than \$7.00 per net ton: *Provided*, That if the applicable price for the quantity of any item shipped, as established by any provision of this schedule, is lower than the price as calculated above (500 pound quantity bracket price minus a discount of not less than \$7.00 per net ton) such lower price shall be the maximum price for such item: *Provided further*, That prices established by this subparagraph for alloy steels (including Stainless Steel) and cold finished carbon bars need not in any instance be below mill prices as established by Revised Price Schedule No. 6 for the same quantity of the same item: *Provided further*, That if a mixed carload contains any product items which were not customarily sold on a quantity plan on April 16, 1941, there shall be deducted from the out-of-stock less-than-carload price established by this Schedule for such product a discount of not less than \$3.00 per net ton.

Invoices covering any mixed carload shipment as herein defined must list each item in the shipment. Carload freight rather than less-than-carload freight

shall be used in computing maximum prices applicable to a mixed carload.

(3) Mixed or straight carload of merchant wire products shall be sold at maximum prices not exceeding the published mill base prices established under Revised Price Schedule 6. (Regular jobber allowances given by mills may be retained by seller of such mixed carload.)

(4) Mixed or straight carloads of 40,000 lbs. or more of pipe and tubular products, including boiler and other pressure tubes and mechanical tubing, shall be sold at maximum delivered prices not to exceed published mill carload prices of such products established by Revised Price Schedule 6: *Provided*, That the above provision shall not apply to sales of Oil Country Tubular Goods out of distributor's stocks, but shall apply to direct mill shipment.

(5) On shipments of 40,000 lbs. or more by a seller at one time or on one order, (except that on rails this provision shall apply to a minimum quantity of 56,000 lbs.) the maximum delivered price shall be the mill price as established under Revised Price Schedule No. 6, except insofar as specific exception is made to this clause in other subparagraphs of this paragraph (k): *Provided*, That on presentation to the Office of Price Administration of a certificate that such shipment has been found by the War Production Board (i) to be necessary in the interests of the war effort and (ii) to be of such a character that shipment from a mill is not practicable or possible, a maximum delivered price will be established by the Office of Price Administration.

(6) Notwithstanding the provisions of any other section of Revised Price Schedule No. 49, in the case of any shipment of any quantity out of a warehouse stock which has been specifically allocated to the warehouse by the War Production Board, and has been there held for reshipment at the direction of the War Production Board for use in defense repairs or other defense purposes, the maximum delivered price shall be fixed by the Office of Price Administration upon application for the setting of such maximum delivered price, which application shall contain a sworn statement setting forth the source of such iron or steel products, the War Production Board rating or certificate, and the destination to which the War Production Board has directed that shipment be made.

(7) This subparagraph is hereby repealed and is superseded by the provisions of Maximum Price Regulation No. 204.

(8) Where any five shipments or less to one customer in any semi-monthly period total 40,000 lbs. or more, records shall be filed with the Office of Price Administration covering all shipments made to such customer during said semi-monthly period on or before the 15th day of the next succeeding month. This filing shall be supported by affidavit and shall include names and addresses of the buyers, full description of products shipped, and prices charged including all extras for each quantity and size. (Copies of invoices accompanied by affi-

davit will be considered proper filing under this requirement). This provision shall not be construed to allow shipment of carload amounts at any other than the mill selling price, except as specifically permitted elsewhere in this Revised Price Schedule No. 49.

[Paragraph (k) as amended by Amendment 2, 7 F.R. 2540, effective 3-31-42, and Amendment 7, 7 F.R. 6893, effective 9-4-42]

(l) *Maximum delivered prices for all other secondary or rejected iron or steel products for which prices are not established in § 1306.164, Appendix F, and reusable iron or steel products not governed by any other maximum price regulation.* The maximum delivered price for all other secondary or rejected iron or steel products for which prices are not established in § 1306.164, Appendix F, and reusable iron or steel products not governed by any other maximum price regulation, after such shearing, cutting, straightening, bending, or pickling as may be necessary, shall be computed in the same manner used by the seller on April 16, 1941. *Provided*, That such prices do not exceed the maximum delivered prices for comparable iron or steel products of prime quality.

[Paragraph (l) as amended by Amendment 12, 8 F.R. 2388, effective 3-1-43]

(m) *General provisions.* (1) Delivery and other services of all kinds, credit or other discounts, all freight absorptions (except as otherwise specified in Revised Price Schedule No. 49), all allowances, and all other privileges in effect on April 16, 1941, shall be continued without diminution or extra charge.

(2) Brokers, agents, consignees, distributors without stocks, and other persons acting in sales transactions on behalf of owners of iron or steel products other than producers, may continue to charge their customary commissions in effect on April 16, 1941: *Provided*, That in such cases where commissions are to be added to the selling price, the result shall not exceed the maximum delivered prices as established by Revised Price Schedule No. 49.

(3) Whenever the Office of Price Administration publishes prices for any city or free delivery area, they shall on publication become the official published listed prices for such city or free delivery area, and shall supersede references otherwise made in Revised Price Schedule No. 49 for the determination of sellers' maximum prices for such products, either in Appendix B for listed cities, or for unlisted cities. Transportation and delivery charges and all extras, deductions and other terms of sale to continue in effect as established by Revised Price Schedule No. 49, unless specifically stated otherwise in such official published price sheet.

(n) *Special provisions for the sale of distress and stranded materials.* [Paragraph (n) expired on October 1, 1942]

(o) The maximum delivered price for concrete reinforcing bars sold by any person other than a producer, as defined in Revised Price Schedule No. 6, or a fabricator, as defined in Maximum Price Regulation No. 159,¹³ shall be a price as

¹³ 7 F.R. 4339, 5710, 8948; 8 F.R. 970.

otherwise established in this Revised Price Schedule No. 49: *Provided*, That (1) The maximum delivered price for carload quantities of concrete reinforcing bars when sold by any person other than a producer, as defined in Revised Price Schedule No. 6, shall be established by and subject to the conditions of the provisions applicable to carload sales of concrete reinforcing bars of Maximum Price Regulation No. 159, establishing maximum prices for sales of concrete reinforcing bars by fabricators.

[Paragraph (c) added by Amendment 5, 7 F. R. 4342, effective 6-15-42]

(p) Maximum delivered prices for less-than-carload quantity sales of any alloy steels whose specifications as presently described were not used in production by mills on April 16, 1941, such as National Emergency Specifications and American Iron and Steel Institute Specifications of alloy grades (but not including carbon steel or tool steel grades) are hereby established:

(1) For the purposes only of this section and paragraphs of this Revised Price Schedule No. 49, and for no other purpose, basing point cities for hot rolled alloy steel shall be: Bethlehem, Pennsylvania; Buffalo, New York; Canton, Ohio; Chicago, Illinois; Massillon, Ohio; and Pittsburgh, Pennsylvania. Basing point cities for cold finished alloy steel shall be: Buffalo, New York; Chicago, Illinois; Cleveland, Ohio; Gary, Indiana; and Pittsburgh, Pennsylvania.

(2) Base prices per 100 pounds for delivery of alloy steels within the free delivery area of basing point cities shall be the aggregate (adjusted upward or downward to the nearest \$0.05) of:

(i) Mill alloy base price, as established by Revised Price Schedule No. 6, at any basing point city (hot rolled or cold finished, whichever is applicable).

(ii) Mill analysis extras, as established by Revised Price Schedule No. 6, (open hearth or electric furnace, whichever is applicable).

(iii) A mark-up of 66⅔% of the aggregate of (i) and (ii) herein above.

(3) Base prices per 100 pounds for delivery at any destination other than the free delivery area of basing point cities shall be that combination of base prices established for basing point cities in subparagraph (2) of this paragraph plus less-than-carload freight rates in effect at time of shipment from governing basing point city to destination which results in the lowest delivered price.

(4) Quantity extras shall be determined by combining the weight of one or more orders placed in one day, shipped at one time or at seller's convenience, to one destination.

(i) Item quantity extra, to be determined by quantity of one size, grade and finish, shall be as follows:

1,000 to 39,999 pounds—base.
500 to 999 pounds plus \$0.50 per 100 pounds.
300 to 499 pounds plus \$0.75 per 100 pounds.
Less than 300 pounds plus \$1.25 per 100 pounds.

(ii) An order extra of \$3.00 per 100 pounds may be charged on alloy orders which total less than 300 pounds. If the

order extra is applicable and charged, the item quantity extra for less than 300 pounds in (i) above may not also be charged. Hot rolled alloys and cold finished alloys need not be combined to determine total weight.

(5) (i) For material which is carried in stock in the following condition or qualities, the following charges may be made:

	Rate per 100 pounds
Annealing.....	\$1.00
Normalizing.....	1.00
Heat treating (quench and draw).....	2.50
Spheroidized annealing.....	2.50
Stress relieving after cold working.....	1.25
Aircraft quality.....	2.50
Extensometer test.....	.40

(ii) For material which is treated at an outside plant (not a producer, as defined in Revised Price Schedule No. 6, or in the seller's own plant) on which are performed any of the operations listed in (i) above:

(a) Actual invoice cost to seller minus any trucking charges included on such invoice, plus

(b) An added charge at the rate of 30¢ per 100 pounds, provided that no additional charges may be made such as, but not limited to, a charge for trucking, handling, risks.

(iii) Mill size extras as established by Revised Price Schedule No. 6; also, other quality extras not to exceed mill extras as established by Revised Price Schedule No. 6 or actual cost, whichever is lower.

(iv) No charge may be made for machine straightening.

(6) Other customary and general discounts, terms and privileges, in effect as of April 16, 1941, shall be continued without diminution or extra charge.

[Paragraph (p) added by Amendment 7, 7 F. R. 6893, effective 9-4-42]

(q) The maximum prices for sellers of cut nails specifically allocated and sold to distributors under directive order, dated July 23, 1942, issued by the Director of Industry Operations, War Production Board, shall be as follows:

(1) On sales by those distributors specifically allocated such cut nails, delivered cost from mill plus 50¢ per keg.

(2) On sales by persons who have purchased cut nails from such distributors, delivered cost plus 75¢ per keg.

(3) On sales by any other seller, a price approved by the Office of Price Administration after application by the seller.

(4) The prices set forth in (1), (2) and (3) above shall be f. o. b. seller's warehouse, except that no delivery charge shall be made for deliveries within the seller's customary free delivery area.

[Paragraph (q) added by Amendment 8, 7 F. R. 6935, effective 8-31-42]

(r) *Cotton bale ties*. (1) The maximum delivered price for any seller of new cotton bale ties shall be the price he charged or would have charged on August 1, 1941.

(2) The maximum price for any seller of mill run ties shall be:

(i) For shorts, \$.60 per 100 pounds, f. o. b. location of material.

(ii) For longs, \$1.25 per 100 pounds, f. o. b. location of material.

(3) The maximum delivered price for any seller of secondhand, reprocessed, or reconditioned cotton bale ties shall be as follows, plus less-than-carload freight from the applicable port on less-than-carload shipments and carload freight from the applicable port on carload shipments:

(i) On sales to cotton ginner's,

(a) For whole ties, \$1.45 per bundle, f. o. b. port.

(b) For riveted or spliced ties, \$1.35 per bundle, f. o. b. port.

(ii) On sales to all other persons, including, but not limited to, jobbers, cotton compressors, and cottonseed oil mills.

(a) For whole ties, \$1.40 per bundle, f. o. b. port.

(b) For riveted or spliced ties, \$1.30 per bundle, f. o. b. port.

(4) *Relationship to Maximum Price Regulation No. 211.*¹⁴ Sales of cotton bale ties by cotton ginner's as part of their cotton ginning services are not subject to this Revised Price Schedule 49 but continue to be governed by Maximum Price Regulation No. 211.

(5) *Relationship to Amendment No. 32 to Supplementary Regulation No. 14 under General Maximum Price Regulation.*¹⁵ Sales by cotton oil mills of cotton bale ties when sold in combination with cotton bale bagging at a single price for the combination are not subject to this Revised Price Schedule 49 but continue to be governed by Amendment No. 32 to Supplementary Regulation No. 14 under General Maximum Price Regulation.

(6) *Relationship to Revised Price Schedule No. 4.*¹⁶ Sales of mill run ties as "iron and steel scrap" as defined in Section 1304.11 (b) of Revised Price Schedule No. 4 are not subject to this Revised Price Schedule 49 but continue to be governed by Revised Price Schedule No. 4.

[Paragraph (r) added by Amendment 9, 7 F. R. 10844, effective 1-1-43]

(s) *Maximum prices for imported iron or steel products.* (1) The maximum delivered price for sales or deliveries of any iron or steel product imported prior to April 16, 1941, shall be the price for the product as established by the provisions of Revised Price Schedule No. 49 without reference to subparagraph (2) below.

(2) The maximum delivered price for sales or deliveries of any iron or steel product imported on and after April 16, 1941, shall be the price for the product as established by the Office of Price Administration, upon application by the seller. In establishing such price, the Office of Price Administration shall take into consideration the importance of the product to the war effort, and, wherever appropriate, any increase in the total landed

costs of the product over the total landed costs of the same product or a similar product sold by the seller or a similar seller on or about April 16, 1941. The application by the seller shall include a proposed price and all information which he considers necessary for the Office of Price Administration to judge that proposed price and to determine the price to be established: *Provided*, That no petition or application for amendment, adjustment, exception or other relief made by the buyer of an imported iron or steel product will be entertained by the Office of Price Administration to the extent that such petition or application is based, directly or indirectly, on the purchase from a seller of an imported iron or steel product at a price higher than the price established under subparagraph (1) above for the same or similar imported iron or steel product. If the seller of the imported iron or steel product has applied or intends to apply to the Office of Price Administration for the establishment of a price under the provisions of this subparagraph (2), he shall prior to the time of selling or agreeing to sell the product notify the buyer in writing of the above limitation. In any case, under this subparagraph, where a maximum delivered price is to be determined by the Office of Price Administration, a seller may prior to such determination contract, sell, bill and deliver at an adjustable price, the definite price to be finally determined by the Office of Price Administration.

(c) The foregoing prices are base prices and quantity extras to which may be added all other extras permitted under Revised Price Schedule No. 49, provided also that where the sellers named in § 1306.160 Appendix B of Revised Price Schedule No. 49 published prices which reflected in the base price an extra for size, grade or section, (such as the difference in base prices between standard cold rolled sheets and deep drawing cold rolled sheets) such difference in base prices shall be considered an extra which may be added by sellers under the provisions of § 1306.159 Appendix A (a) (2) of Revised Price Schedule No. 49.

(d) The prices and extras set forth above shall be used as a basis for the computation of "Lowest Combination" Prices, (as defined in § 1306.157 (k)).

(e) No seller shall use the foregoing prices or extras if the use thereof would result in a sale at a price higher than such seller's published price as of April 16, 1941.

(f) In all respects other than those specifically set forth in this Appendix E the provisions of Revised Price Schedule No. 49 shall apply.

[§ 1306.163 added by Amendment 10, 8 F.R. 319, effective 1-11-43]

§ 1306.164, Appendix F: Maximum delivered prices for certain secondary or rejected iron or steel products. The maximum delivered prices for the following secondary or rejected iron or steel products: hot rolled, cold rolled, galvanized, galvanized, and long terme sheets; hot and cold rolled strip; sheared and universal mill plates; tin mill black plate; and semi-finished iron or steel products; shall not be the prices for products of prime quality as otherwise established in this Revised Price Schedule No. 49, regardless of the sorting or other processing which the seller may perform, but shall be determined in accordance with the provisions of this § 1306.164, Appendix F.

(a) Relationship to § 1306.159, Appendix A. The provisions of the following

paragraphs of § 1306.159, Appendix A, shall also apply to this Appendix F:

§ 1306.159, Appendix A, (e) Maximum prices for exports of iron or steel products.

§ 1306.159, Appendix A, (k) (Subparagraphs (1), (2), (5), (6) and (8) only). Maximum delivered prices for shipments of carload quantities and in certain specific cases.

§ 1306.159, Appendix A, (m) General provisions.

§ 1306.159, Appendix A, (s) Maximum prices for imported iron or steel products.

(b) Definitions. When used in this Appendix F, the term:

(1) "Secondary or rejected iron or steel products" means iron or steel products purchased by the seller as any grade lower than prime quality or invoiced to him as such by his supplier.

(2) "Sheared to specifications" means cut from a size in stock either by shearing, slitting or burning to a different and exact dimension or dimensions specified in the buyer's order. It does not mean cut for the purpose of reconditioning material.

(3) "Unsheared" means not sheared to specifications.

(4) "Job or warehouse pickled" means pickled by any person other than an iron or steel mill or producer.

(5) "Mill extra" means the standard published or quoted extra of the United States Steel Corporation and its subsidiaries presently in effect as permitted under Revised Price Schedule No. 6.¹⁸

(6) "Rejects" means flat rolled secondary or rejected iron or steel products which meet the following requirements:

(i) Are of a designated specific grade, size and gauge (or thickness); and

(ii) Contain minor imperfections, such as surface defects, lack of flatness, camber, off-grade, off-temper and similar imperfections, but which may be utilized without requiring unusual processing in order to remove or minimize the imperfections; and

(iii) Conform to the following size restrictions:

Sheet "rejects": may not be smaller than 18" wide by 50" long or have an area of less than 900 square inches.

Sheared plate "rejects": may not be smaller than 36" wide by 84" long or have an area less than 21 square feet.

Universal mill plate "rejects": may not be smaller than 6" wide by 60" long.

Hot rolled strip "rejects": may not be smaller than 36" long by 3" wide or have an area less than 108 square inches.

Cold rolled strip "rejects": may not be smaller than 36" long by 3" wide or have an area less than 108 square inches.

Tin mill black plate "rejects": may not be smaller than 14" wide by 20" long or have an area less than 280 square inches; tin mill black plate "rejects" includes tin mill black plate in U. S. S. gauge #28 and heavier, which by product classification is priced on a sheet basis.

(7) "Wasters" means flat-rolled secondary or rejected iron or steel products

¹⁸ 7 F.R. 1215, 2132, 2153, 2299, 2997, 3115, 3941, 4780, 7240, 8948.

(i) Which meet the following requirements:

(a) Are of a designated specific gauge (or thickness) and are unassorted to size; and

(b) Are of the same quality as rejects; and

(c) Conform to the following size restrictions:

Sheet "wasters": may not be smaller than 15" wide by 40" long or have an area less than 600 square inches.

Sheared plate "wasters": may not be smaller than 24" wide by 72" long or have an area less than 12 square feet.

Universal mill plate "wasters": may not be smaller than 6" wide by 60" long.

Hot rolled strip "wasters": may not be smaller than 36" long by 3" wide or have an area less than 108 square inches.

Cold rolled strip "wasters": may not be smaller than 36" long by 3" wide or have an area less than 103 square inches.

Tin mill black plate "wasters": may not be smaller than 10" wide by 10" long or have an area less than 100 square inches; tin mill black plate "wasters" includes tin mill black plate in U. S. S. gauge #28 and heavier which by product classification is priced on a sheet basis; or

(ii) Which would otherwise be of rejects classification (i. e., sorted to size and of a designated specific gauge (or thickness)) except that they do not meet the rejects size restrictions but do meet the wasters size restrictions.

(8) "Waste wasters" means flat rolled secondary or rejected iron or steel products

(i) Which meet the following requirements:

(a) Are unassorted to both size and gauge (or thickness), whether of rejects or lower quality; and

(b) Conform to the following size restrictions:

Sheet "waste wasters": may not be smaller than 15" wide by 40" long or have an area less than 600 square inches.

Sheared plate "waste wasters": may not be smaller than 24" wide by 72" long or have an area less than 12 square feet.

Universal mill plate "waste wasters": may not be smaller than 6" wide by 60" long.

Tin mill black plate "waste wasters": may not be smaller than 10" wide by 10" long or have an area less than 100 square inches; tin mill black plate "waste wasters" includes tin mill black plate waste wasters in U. S. S. gauge #28 and heavier, which by product classification is priced on a sheet basis; or

(ii) Which are of rejects and wasters classifications but contain imperfections, in addition to those specified under rejects above, which appreciably limit the utility of the product (such as blisters, laminations, fluctuating gauges, perforations, dirty surfaces, bad edges, wrinkles and other mars), and require further processing by the purchaser (such as shearing, pickling, scrubbing or gauging) in order to remove or minimize such imperfections; and meet the waste wasters size restrictions as set forth in (i) above.

(9) "Offal" means flat-rolled secondary or rejected iron or steel products which would otherwise be:

(i) Of rejects classification, but fall within the following size restrictions:

Sheet offal: (a) are under 18" wide by 50" long or the equivalent area of 900 square inches but (b) are not smaller than 12" wide by 20" long or the equivalent area of 240 square inches.

Sheared plate offal: (a) are under 36" wide by 84" long or the equivalent area of 21 square feet but (b) are not smaller than 20" wide by 50" long or the equivalent area of 1000 square inches; or

(ii) Of wasters classifications, but fall within the following size restrictions:

Sheet offal: (a) are under 15" wide by 40" long or the equivalent area of 600 square inches but (b) are not smaller than 12" wide by 20" long or the equivalent area of 240 square inches.

Sheared plate offal: (a) are under 24" wide by 72" long or the equivalent area of 12 square feet but (b) are not smaller than 20" wide by 50" long or the equivalent area of 1000 square inches.

(10) "Side and end shearings" means flat-rolled secondary or rejected iron or steel products which would otherwise be:

(i) Of waste wasters classification, but fall within the following size restrictions:

Sheet side and end shearings: (a) are under 15" wide by 40" long or the equivalent area of 600 square inches but (b) are not smaller than 3" wide by 20" long or the equivalent area of 60 square inches.

Sheared plate side and end shearings: (a) are under 24" wide by 72" long or the equivalent area of 12 square feet but (b) are not smaller than 4" wide by 24" long or the equivalent area of 96 square inches; or

(ii) Of wasters or waste wasters classification, but fall within the following size restrictions:

Tin mill black plate side and end shearings: have an area less than 100 square inches.

(11) "Semi-finished rejects" means partly finished iron or steel products such as, but not limited to, blooms, billets, slabs, sheet bars, skelp, and tube rounds, which have been rejected because of poor surface condition, lack of internal soundness or other defects which render

the steel unsuitable for sale or use by the mill as a prime product.

(c) Maximum delivered prices for un-sheared products. (1) The maximum delivered price for unsheared secondary or rejected iron or steel products shall be the aggregate of:

(i) The delivered base price, as determined under sub-paragraph (2) below; plus

(ii) The extras specifically permitted in Table V below; and

(iii) The quantity charge or deduction and the warehouse pickling charge, where applicable, as set forth in paragraphs (f) and (g) below, respectively.

(2) The delivered base price (referred to under (c) (1) (i) above) shall be:

(i) For any shipment made within or into any city for which a base price for the product sold is listed in Tables I, II, III, or IV below, the delivered base price shall be the city base price as shown in Tables I, II, III, or IV for the classification and product sold. No freight or delivery charge is to be added.

(ii) For any shipment made to a destination for which a base price for the product sold is not listed in Tables I, II, III, or IV, the delivered base price shall be the country base price, as listed in Tables I, II, III, or IV of that city, for the classification and product sold, which, plus freight from that same city to destination, results in the lowest delivered base price at destination.

(iii) For any shipment which qualifies as dislocated tonnage, as defined in § 1306.157 (f), the delivered base price shall be the delivered country base price as established under subdivision (i) or (ii) above for the city from which shipment is made plus freight from that city to destination, less 15¢ per 100 pounds. If the resultant delivered base price at destination is lower than that established for such destination by subdivision (i) or (ii) above, it need not be used.

TABLE V.—PERMISSIBLE EXTRAS ON UNSHEARED SHEETS, STRIP, PLATES, AND BLACK PLATE

Description of product				Only permissible extras
Type	Classification	Sorting required	Size restrictions	
I. Hot rolled, galvanized, galvanealed, and long terne sheets.	A. Rejects.....	Grade, size, and gauge.	Not smaller than 18" wide by 50" long or have an area of at least 600 square inches.	90% of mill extras for size, gauge and pickling (if pickled).
	B. Wasters.....	Gauge.....	Not smaller than 15" wide by 40" long or have an area of at least 600 square inches.	80% of mill extras for gauge and pickling (if pickled). Where products have a combined size and gauge extra, 80% of lowest standard mill extra for that particular gauge.
	C. Waste wasters.....	None.....	Not smaller than 15" wide by 40" long or have an area of at least 600 square inches.	75% of mill extra for pickling (if pickled). Where lot is unsorted as to gauge within a specified range of gauges, 75% of lowest standard mill gauge extra within the range, for the entire lot.
	D. Offal.....	Gauge.....	Not smaller than 12" wide by 20" long or have an area of at least 240 square inches.	75% of mill extras for gauge and pickling (if pickled). Where products have a combined size and gauge extra, 75% of lowest standard mill extra for that particular gauge.
	E. Side and end shearings.	None.....	Not smaller than 3" wide by 20" long or have an area of at least 60 square inches.	65% of mill extras for pickling (if pickled). Where lot is unsorted as to gauge within a specified range of gauges, 65% of lowest standard mill gauge extra within the range, for the entire lot.
II. Cold rolled sheets.	A. Rejects.....	Grade, size, and gauge.	Not smaller than 18" wide by 50" long or have an area of at least 600 square inches.	90% of mill extras for size and gauge; and 90% of extras for drawing quality and stretcher levelled resquared quality, of \$.25 per 100 lbs. and \$.55 per 100 lbs., respectively, provided such quality is specified in buyer's order and is actually furnished by seller.
	B. Wasters.....	Gauge.....	Not smaller than 15" wide by 40" long, or have an area of at least 600 square inches.	80% of mill extra for gauge. Where products have a combined size and gauge extra, 80% of lowest standard mill extra for that particular gauge.
	C. Waste wasters.....	None.....	Not smaller than 15" wide by 40" long, or have an area of at least 600 square inches.	Where lot is unsorted as to gauge within a specified range of gauges, 75% of lowest standard mill gauge extra within the range for the entire lot.
	D. Offal.....	Gauge.....	Not smaller than 12" wide by 20" long, or have an area of at least 240 square inches.	75% of mill extra for gauge. Where products have a combined size and gauge extra, 75% of lowest standard mill extra for that particular gauge.
	E. Side and end shearings.	None.....	Not smaller than 3" wide by 20" long, or have an area of at least 60 square inches.	Where lot is unsorted as to gauge within a specified range of gauges, 65% of lowest standard mill gauge extra within the range, for the entire lot.
III. Mill sheared plates.	A. Rejects.....	Grade, size, and gauge.	Not smaller than 36" wide by 84" long or have an area of at least 21 square feet.	90% of mill extras for thickness, size, pickling (if pickled), sand blasting and quality; provided that quality extra may be charged only if it has been actually charged by the mill, was not the reason for the original rejection and is specified in buyer's order.
	B. Wasters.....	Gauge.....	Not smaller than 24" wide by 72" long or have an area of at least 12 square feet.	80% of mill extras for gauge and pickling (if pickled). Where products have a combined size and gauge extra, 80% of lowest standard mill extra for that particular gauge.
	C. Waste wasters.....	None.....	Not smaller than 24" wide by 72" long or have an area of at least 12 square feet.	75% of mill extra for pickling (if pickled). Where lot is unsorted as to gauge within a specified range of gauges, 75% of lowest standard mill gauge extra within the range, for the entire lot.
	D. Offal.....	Gauge.....	Not smaller than 20" wide by 50" long or have an area of at least 1,000 square inches.	75% of mill extras for gauge and pickling (if pickled). Where products have a combined size and gauge extra, 75% of lowest standard mill extra for that particular gauge.
	E. Side and end shearings.	None.....	Not smaller than 4" wide by 24" long or have an area of at least 96 square inches.	65% of mill extra for pickling (if pickled). Where lot is unsorted as to gauge within a specified range of gauges, 65% of lowest standard mill gauge extra within the range, for the entire lot.
IV. Universal mill plates.	A. Rejects.....	Grade, size and gauge.	Not smaller than 6" wide by 60" long.	90% of mill extras for thickness, size, pickling (if pickled), sand blasting and quality; provided that quality extra may be charged only if it has actually been charged by the mill, was not the reason for the original rejection and is specified in buyer's order.
	B. Wasters.....	Gauge.....	Not smaller than 6" wide by 60" long.	80% of mill extras for gauge and pickling (if pickled). Where products have a combined size and gauge extra, 80% of lowest standard mill extra for that particular gauge.
	C. Waste wasters.....	None.....	Not smaller than 6" wide by 60" long.	75% of mill extra for pickling (if pickled). Where lot is unsorted as to gauge within a specified range of gauges, 75% of lowest standard mill gauge extra within the range, for the entire lot.
V. Hot rolled strip.	A. Rejects.....	Grade, size and gauge.	Not smaller than 3" wide by 36" long or have an area of at least 108 square inches.	90% of mill extras for size, gauge and pickling (if pickled).
	B. Wasters.....	Gauge.....	Not smaller than 3" wide by 36" long or have an area of at least 108 square inches.	80% of lowest mill extra for gauge and 80% of mill extra for pickling (if pickled) for width range of 5 1/4" to 12" of that gauge.
VI. Cold rolled strip.	A. Rejects.....	Grade, size and gauge.	Not smaller than 3" wide by 36" long or have an area of at least 108 square inches.	90% of mill extras for size and gauge for strip .26 carbon and higher; 90% of mill extras for size and gauge in cut lengths for either hard or soft temper for strip under .26 carbon.
	B. Wasters.....	Gauge.....	Not smaller than 3" wide by 36" long or have an area of at least 108 square inches.	80% of lowest mill gauge extra for width range of over 6" to 9" inclusive, in cut lengths.
VII. Black plate.	A. Rejects.....	Grade, size and gauge.	Not smaller than 14" wide by 20" long or have an area of at least 280 square inches.	90% of mill extras for size, gauge and finish (if applicable).
	B. Wasters.....	Gauge.....	Not smaller than 10" wide by 10" long or have an area of at least 100 square inches.	80% of mill extras for gauge and finish (if applicable). Where products have a combined size and gauge extra, 80% of lowest standard mill extra for that particular gauge.
	C. Waste wasters.....	None.....	Not smaller than 10" wide by 10" long or have an area of at least 100 square inches.	75% of mill extra for finish (if applicable). Where lot is unsorted as to gauge within a specified range of gauges, 75% of lowest standard mill gauge extra within the range, for the entire lot.

* This table is to be used in conjunction with tables I, II, III, and IV.

(d) Maximum delivered prices for products sheared to specifications. (1) The maximum delivered price for secondary or rejected iron or steel products sheared to specifications shall be the aggregate of:

(i) The delivered base price, as determined under subparagraph (2) below; plus

(ii) The extras specifically permitted in Table VIII below; and

(iii) The quantity charge or deduction, the warehouse pickling charge, and the shearing, slitting or flame-cutting charge, where applicable, as set forth in paragraphs (f) and (g) and Table IX below, respectively. *Provided*, That no shearing or slitting charge may be made where hot and cold rolled sheets are sheared or slit to width only, 12" or under, and plates are sheared or flame-cut to width only, 6" or under.

(2) The delivered base price (referred to under (d) (1) (i) above) shall be:

(i) For any shipment made within or into any city for which a base price for the product sold is listed in Table VI or VII below, the delivered base price for the product sold shall be the city

base price, as shown in Table VI or VII. No freight or delivery charge is to be added.

(ii) For any shipment to a destination for which a base price for the product sold is not listed in Table VI or VII, the delivered base price shall be the country base price, as listed in Table VI or VII of that city for the product sold, which, plus freight from that same city to destination, results in the lowest delivered base price at destination.

(iii) For any shipment which qualifies as dislocated tonnage, as defined in § 1306.157 (f), the delivered base price shall be the delivered country base price as established under sub-division (i) or (ii) above for the city from which shipment is made plus freight from that city to destination, less 15¢ per 100 pounds. If the resultant delivered base price at destination is lower than that established for such destination by sub-division (i) or (ii) above, it need not be used.

(3) The weight used in determining the total delivered price of sheared products shall be the net weight of the products shipped, not the gross weight from which they were sheared.

2. THE METHOD OF APPLYING THE CHARGES

- Charges are to be based on total lineal feet of one thickness.
- Minimum charge—50¢ net, per thickness.
- Intermediate thicknesses are to take the next heavier plate basis.
- Fractions of an inch of burning are to be charged for the next full inch.
- Rectangular Plates—All thicknesses charged on net weight plus flame-cutting one side and one end at above extras unless flame-cutting all edges is specified, when charge is for two sides and two ends.
- Circular Plates—All thicknesses are to be charged on the basis of gross weight of smallest square from which circle can be cut (size of square $\frac{1}{2}$ inch larger than diameter specified), plus flame-cutting charge based on circumference of circle.
- Rings—All thicknesses are to be charged at the gross weight of the nearest square from which ring can be flame-cut (size of square $\frac{1}{2}$ inch larger than diameter specified), plus lineal foot charge for flame-cutting inner and outer circumferences.
- Sketches with Straight Sides and no Re-entrant Cuts—All thicknesses are to be charged at the gross weight of smallest rectangle from which sketch can be cut (size of rectangle $\frac{1}{2}$ inch larger than plate required), plus charge for lineal feet for perimeter of sketch.

(e) Maximum delivered prices for semi-finished rejects. (1) The maximum delivered price for semi-finished rejects shall be the aggregate of:

(i) The mill basing point base price for rerolling grade (or prime grade if there is no rerolling grade for the product) at the mill basing point nearest freightwise to the point of shipment, plus the applicable mill extra for cross-sectional area, plus freight from the basing point to location from which shipment is made, as established by Revised Price Schedule No. 6; plus

(ii) 10 per cent of (i) above; plus

(iii) Freight from location from which shipment is made to customer's destination.

(f) Quantity charge or deduction. (1) For a quantity of less than 40,000 pounds.

(i) For all products except cold rolled strip.

(a) To determine the quantity charge or deduction under subdivision (b) below, combine the weight of material on all orders of one day from one person for shipment to one destination, regardless of how shipments may be split by the seller for his own convenience or at the buyer's request; similarly, combine the weight of material in all shipments to one person in one day to one destination, regardless of whether such shipments are made against one order or any number of orders placed over a period of time.

(b) The quantity charge or deduction shall be at the rate of:

Under 100 # Add \$1.00 per 100 #
100 # to 399 # Add \$0.75 per 100 #
400 # to 1,999 # No charge or deduction
2,000 # to 9,999 # Deduct \$0.10 per 100 #
10,000 # to 19,999 # Deduct \$0.15 per 100 #
20,000 # to 39,999 # Deduct \$0.20 per 100 #

(ii) For cold rolled strip only.

(a) To determine the quantity charge or deduction under sub-division (b) below, combine the weight of material on all orders for one gauge, width, temper and finish, of one day from one person for shipment to one destination, regardless of how shipments may be split by the seller for his own convenience or at the buyer's request; similarly, combine the weight of material in all shipments of one gauge, width, temper and finish, made to one person in one day to one destination, regardless of whether shipments are made against one order or any number of orders placed over a period of time.

(b) The quantity charge or deduction shall be at the rate of:

Under 200 # Add \$5.25 per 100 #
200 # to 299 # Add \$3.25 per 100 #
300 # to 499 # Add \$2.25 per 100 #
500 # to 999 # Add \$1.25 per 100 #
1,000 # to 1,999 # Add \$0.65 per 100 #
2,000 # to 5,999 # Add \$0.25 per 100 #
6,000 # to 39,999 # No charge or deduction

(2) For a quantity of 40,000 pounds or more, the quantity charge or deduction shall be determined in accordance with the provisions of § 1306.159 (k) (2) and (5).

(g) *Warehouse pickling charge.* For secondary or rejected iron or steel products which have been job or warehouse pickled, in addition to the mill pickling extra allowed under Table V or VIII, there may also be added 25¢ per 100 pounds for sheets and 20¢ per 100 pounds for plates. No extra charges may be made in connection with this charge, such as, but not limited to, oiling, liming, drying, handling and transportation or cartage. The method of invoicing this warehouse pickling charge is set forth in paragraph (j) below.

(h) *Restrictions on extras and charges.* (1) Where a shipment is made containing two or more products or grades of products (or both) having different base prices or quality extras (or both), the maximum price for any shipment containing such range of products or grades (or both), unless the exact amount of each can be specified by the seller, shall be determined by computing the lowest base price or the lowest quality extra (or both). Such lowest base price or lowest quality extra (or both) shall be used in computing the price for the entire shipment.

For example:

(i) Where a shipment contains both hot rolled strip and cold rolled strip and the exact amount of each product cannot be specified by the seller, the maximum price for the entire shipment is the hot rolled strip price.

(ii) Where a shipment contains both hot rolled sheets and hot rolled pickled sheets and the exact amount of each grade cannot be specified by the seller, the maximum price for the entire shipment is the hot rolled sheet price.

(2) No extras not specifically listed in Table V or VIII above, and no charges not specifically listed in paragraphs (f) and (g) and Table IX above, may be added to the maximum delivered price (such as, but not limited to, analysis, thickness or gauge tolerance, deoxidizing, surface inspection, and roller levelling). *Provided*, That the Office of Price Administration may approve, upon application, certain extras and charges not permitted in this § 1306.164, Appendix F, and which were in effect and charged on April 16, 1941, by the seller or group of sellers applying.

(i) *Special inventory filing and record requirements.* Every seller of secondary or rejected iron or steel products, covered by this § 1306.164, Appendix F, shall comply with the following requirements:

(1) File, in duplicate, with the Office of Price Administration, Iron and Steel Price Branch, Washington, D. C., on or before April 1, 1943, his total inventory on hand on March 1, 1943, of secondary or rejected iron or steel products covered by this § 1306.164, Appendix F. This filing need not be made by any seller who had no inventory of secondary or rejected iron or steel products on hand on March 1, 1943. The inventory filing shall include the total tonnage of the products covered by this § 1306.164, Appendix F, segregated according to prime and secondary or rejected quality. A separate filing of this information shall be made for each warehouse location.

This requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Keep open for inspection for a two year period an inventory in a form similar to that required to be filed under subparagraph (1) above, taken at the end of each of his accounting periods. Also, keep open for inspection for two years after date of purchase a record of all material purchased as secondary or rejected iron or steel products which are covered by this § 1306.164, Appendix F. Such record shall distinguish secondary or rejected quality material from prime quality material. Further, there shall be kept for the same period records of purchases and sales of universal mill plates adequate to identify them as the product of a universal mill; of purchases and sales of all classifications of tin mill black plate in U. S. S. gauge # 28 and heavier; and of sales of job and warehouse pickled material on which a charge has been made in accordance with paragraph (g) above.

(j) *Special invoicing requirements.* Every seller of secondary or rejected iron or steel products shall indicate on all invoices covering the sale of such products, the classification of the material sold, that is, rejects, wasters, waste wasters, offal or side and end shearings; also, whether sheared to specifications or unsheared. There shall, also, be indicated as a separate item on each invoice covering all job or warehouse pickled material on which a charge has been made in accordance with paragraph (g) above, the statement "charge for warehouse pickling."

(k) *Secondary or rejected products not qualifying as rejects, wasters, waste wasters, offal or side and end shearings.* The maximum prices for secondary or rejected iron or steel products subject to this § 1306.164, Appendix F, which do not qualify as rejects, wasters, waste wasters, offal, or side and end shearings, shall be those set forth in Revised Price Schedule No. 4 for sales of iron and steel scrap to a consumer.

GROCERY PRODUCTS MANUFACTURING CORP.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1859 *Authorization of maximum prices for sales of sliced dehydrated mushrooms packed in six gram laminated glassine bags, 24 to a case by Grocery Products Manufacturing Corporation, Mushroom Division, West Chester, Pennsylvania, and for wholesalers and retailers.* (a) On and after April 8, 1943, the maximum price for sales by the Grocery Products Manufacturing Corporation, Mushroom Division, West Chester, Pennsylvania, of sliced dehydrated mushrooms shall be \$2.25 per case of 24-6 gram packages delivered anywhere in the United States.

(b) Wholesale grocers shall determine their maximum prices for sliced dehydrated mushrooms packed in six gram laminated glassine bags 24 to a case by Grocery Products Manufacturing Corporation, Mushroom Division, in accordance with the provisions of Maximum Price Regulation No. 237.

(c) Retail grocers shall determine their maximum prices for sliced dehydrated mushrooms packed in six gram laminated glassine bags 24 to a case by Grocery Products Manufacturing Corporation, Mushroom Division, in accordance with the provisions of Maximum Price Regulation No. 238.

(d) The applicant, Grocery Products Manufacturing Corporation, Mushroom Division, shall not change its customary allowances, discounts or price differentials unless such change results in a lower price.

(e) This Order No. 372 may be revoked or amended by the Price Administrator at any time.

(f) Unless the context otherwise requires the definitions set forth in § 1499.20 of the General Maximum Price Regulation and section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to terms used herein.

This Order No. 372 (§ 1499.1859) shall become effective on the 8th day of April, 1943.

PART 1305—ADMINISTRATION

[RO 3A, Amendment 2]

RATION BANKING: DEPOSITORS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

General Ration Order 3A is amended in the following respects:

1. Section 1305.444 is amended to read as follows:

§ 1305.444 *Signature cards and other papers required.* A person opens his first account in any bank by completing, signing and delivering to the bank signature cards supplied by the bank. He may open any additional account at that bank by requesting the bank to enter the additional account on the original signature cards. If the bank requests new signature cards, however, he must complete and deliver them. He shall also submit, if the bank requests them, references, other proofs of identity and documents showing his authority to execute the signature cards. He shall also, if the bank requests it, furnish a statement, signed by him, of the facts which require or permit him to open or to continue to have an account. If, after an account is opened, new persons are authorized to sign checks drawn on that account, new signature cards must be completed and delivered, and such new documents as the bank requests must be submitted.

2. Section 1305.484a is added to read as follows:

§ 1305.484a *Specified groups compelled to close accounts.* Whenever a ration order of the Office of Price Administration shall require all depositors in a specified class or group to close their accounts, each depositor in that class or group shall promptly advise his bank in writing of the facts which bring him within it. The depositor shall reduce the balance in his account to zero within the time fixed in the ration order for the closing of such accounts.

3. Section 1305.486 is amended by striking out the words "Or who for any reason ceases to use an account."

This amendment shall become effective April 7, 1943.

PART 1305—ADMINISTRATION

[Gen. RO 3, Amendment 2]

AMENDMENT NO. 2 TO GENERAL RATION ORDER No. 3¹

RATION BANKING: BANKS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

§ 1305.412 (a) (12) is amended to read as follows:

(12) *Adjustment and closing of accounts.* Debit, credit, close out or otherwise deal with any accounts maintained by them upon written instructions of the Office of Price Administration, and refuse to close out or transfer any accounts, except upon instructions of the Office of Price Administration. However, whenever a ration order of the Office of Price Administration requires that the accounts of all depositors of a specified class or group shall be closed within a fixed time, each depositor within such class or group will notify his bank in writing of the facts bringing him within such class or group, and the bank shall, on receipt of such notice from a depositor, and without any further notice or instructions from the Office of Price Administration, close his account as soon as the balance in the account shall have been reduced to zero, but in any event not later than the time fixed by the ration order for the closing of such accounts.

This amendment shall become effective April 7, 1943.

PART 1306—IRON AND STEEL

[RPS 10, Amendment 6]

PIG IRON

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1306.55 (b) is amended to read as follows:

(b) Any person, who is prepared to show that (1) its cost of production of pig iron are above its furnace net realization at maximum prices or (2) its furnace net realization is inadequate in view of its high operating costs for continued operations at maximum prices, may file a petition for an adjustment of or exception to the maximum prices established by Revised Price Schedule 10. In such cases the petitioner should submit, and the Office of Price Administration will consider, all relevant data,

‡ 8 F.R. 1236, 2482.

including the relation of the current, requested, and projected realization on the pig iron or on the furnace, to the total over-all return of the petitioner, and the necessity, in terms of the war effort, for the granting of such adjustment or exception. The Office of Price Administration may require, in connection with any such petition, full data on costs, profits, and other relevant factors. Petitions for adjustment under this paragraph shall be filed with the Office of Price Administration in the manner provided in Revised Procedural Regulation 1.¹ Petitions for exception under this paragraph shall be filed with the Office of Price Administration in the manner provided for applications for adjustment under Revised Procedural Regulation 1.

This amendment shall become effective April 13, 1943.

[RO 1A,² Amendment 22]

TIRES, TUBES, RECAPPING AND CAMELBACK

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration order No. 1A is amended in the following respects:

1. Section 1315.505 (a) (14) (i) is amended to read as follows:

(i) Ice, fuel and milk.

2. Section 1315.505 (b) (1) is amended by deleting the word "milk" and the comma following it.

This amendment shall become effective April 13, 1943.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RPS 87, as Amended,¹ Amendment 4]

SCRAP RUBBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1315.1251 is amended to read as follows:

§ 1315.1251 *Maximum prices for scrap rubber.* On and after June 26, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver scrap rubber to a consumer, and no consumer shall buy or receive scrap rubber, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1315.1263; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That a sale of scrap rubber articles or materials to a person who acquires them solely for the purpose of re-sale shall not be deemed a sale to a consumer. *Provided further*, That this schedule shall not apply to any scrap rubber articles or materials which are acquired for the purpose of repairing or reconditioning them, or of reselling them to be repaired or reconditioned, to make them re-usable for their original purpose, even though such articles or materials may be acquired together with scrap rubber which is covered by this schedule.

This amendment shall become effective April 13, 1943.

PART 1316—COTTON TEXTILES

[MPR 11,² Amendment 2]

FINE COTTON GOODS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

1. Section 1316.4 Table III (4) (i) is amended by changing the date March 24, 1943 to read April 24, 1943.

2. Section 1316.4 Table III (4) (ii) is amended by changing the date March 24, 1943 after the phrase "if the delivery is made (or to be made) on or after" to read April 24, 1943.

3. Section 1316.4 Table III (5) is amended to read as follows:

For any fabric subject to Table III of a construction sold or delivered by the

seller between July 1, 1942 and January 6, 1943, which is sold or delivered pursuant to a contract other than a government contract where the seller in accordance with (3) above has requested the Office of Price Administration to determine a special maximum price for such fabric:

(i) If the delivery is made prior to April 24, 1943, the maximum price shall be the maximum price in effect on January 6, 1943;

(ii) If the delivery is made on or after April 24, 1943, the seller may charge a price not in excess of the applicable poundage maximum price set forth in (2) above and may reserve the right to charge the purchaser an amount equal to the difference between the applicable poundage maximum price and the special maximum price thereafter established pursuant to the seller's request.

This amendment shall take effect as of January 13, 1942.

§ 1341.401 *Classes of persons included as sellers.* (a) The term "seller" shall include only the canner, packer or processor, as the case may be, and as defined by this Revised Maximum Price Regulation No. 233.

§ 1341.402 *Prohibition against dealing in certain apple products above maximum prices.* (a) On and after December 24, 1942, regardless of any contract or other obligation, no seller shall sell or deliver any of the apple products for which maximum prices are established by this Revised Maximum Price Regulation No. 233 at a price higher than the maximum price established herein for such apple product.

(b) No person in the course of trade or business shall buy or receive any such apple product from any seller at a price higher than the maximum price established herein for such product; and

(c) No seller or other person shall agree, offer, solicit or attempt to do any of the foregoing.

[NOTE: Supplementary Order No. 7 (7 F.R. 5176) provides that the prohibition contained in any price regulation against buying or receiving any commodity or service at a price higher than the maximum price permitted by such regulation shall not apply to any war procurement agency, or government whose defense is vital to the defense of the United States.]

§ 1341.403 *Base periods for apple products.* (a) The base period for each

kind, grade and container size of canned apples, canned applesauce, and canned or bottled apple juice or sweet apple cider, made from whole apples, shall be the first sixty days after the beginning of the 1941 pack of such item.

(b) The base period for each kind, grade and container size of dried apples shall be the month of October, 1941.

§ 1341.404 *Computation of base prices.* (a) The base price for each kind, grade and container size of any apple product for which a maximum price is established by this Revised Maximum Price Regulation No. 233 shall be the total gross dollars charged by the seller for each item during the base period for such item, divided by the number of units sold during the base period.

§ 1341.405 *The seller's maximum prices for canned apples and canned applesauce.* (a) The seller's maximum price per unit, f. o. b. factory, for each kind, grade and container size of canned apples and canned applesauce packed after the 1941 pack shall be:

(1) The seller's base price for such kind, grade and container size; plus

(2) Eighteen and one-fourth percent of such base price.

§ 1341.405a *The seller's maximum price for vinegar stock.* The seller's maximum price, f. o. b. factory, for vinegar stock, shall be ten cents per gallon.

§ 1341.406 *The seller's maximum prices for canned or bottled apple juice or sweet apple cider, made from whole apples.* (a) The seller's maximum price per unit, f. o. b. factory, for each grade of canned or bottled apple juice or sweet apple cider, made from whole apples, in container sizes of less than one gallon, shall be:

(1) The base price per unit for the same grade and container size; plus

(2) Ten per cent of such base price per unit; plus

(3) The amount of six cents per gallon, apportioned to each unit in the same proportion which the contents of such unit bears to one gallon.

(b) The seller's maximum price per unit, f. o. b. factory, for each grade of canned or bottled apple juice or sweet apple cider, made from whole apples, in container sizes of one gallon or more, shall be:

(1) The base price per unit for the same grade and container size; plus

(2) Eight per cent of such base price; plus

(3) The amount of six cents per gallon, apportioned to each unit in the same proportion which the contents of such unit bears to one gallon.

§ 1341.407 *Maximum prices established by proportionate relationships.*

(a) In the event, and only in the event, that the maximum price for any item, except No. 10 container size, of any canned apples, canned applesauce, and canned or bottled apple juice or sweet apple cider, made from whole apples, cannot be determined under the foregoing sections, but the seller has been

able to determine his maximum price under the foregoing sections for the dominant item of such product, the maximum prices of the remaining items of such product, except No. 10 container size, shall be those prices which bear the same proportionate relationship to the maximum price for the dominant item of that product as the price for each such item bore to the price of the dominant item of such product in the seller's first price list applying to the 1941 pack.

(b) In computing maximum prices under paragraph (a) of this section, the dominant item of any product shall be the one of which the seller packed the largest quantity in 1941.

(c) In the event, and only in the event, that the maximum price of one or more grades of such items in a No. 10 container size cannot be determined under the foregoing sections, but the seller has been able to determine the maximum price for one or more other grades of the same product in a No. 10 container size, the maximum prices for the grades not so determined shall be established in the manner provided in paragraph (a) of this section, using as the dominant grade the grade for which the price has been determined, or, if the price of more than one grade has been so determined, using as the dominant grade the one of those for which a maximum price has been so determined, of which the seller packed the largest quantity in 1941.

§ 1341.408 *The seller's maximum price for dried apples.* (a) The seller's maximum price for dried apples, packed in wood boxes containing 25 to 50 pounds, for all states except California, Oregon, Idaho and Washington, shall be as follows:

Grade	Kind	Maximum price in cents per pound
U. S. Grade A.....	Rings, quarters or slices.....	21
U. S. Grade B.....	Rings, quarters or slices.....	21
U. S. Grade C.....	Rings, quarters or slices.....	19½
Cored and peeled, lower than U. S. Grade C.	Rings, quarters or slices.....	16½
Chops.....		7½

(b) The seller's maximum price for dried apples, packed in wood boxes containing 25 to 50 pounds, for the states of California, Oregon, Idaho and Washington, shall be as follows:

Grade	Kind	Maximum price in cents per pound
U. S. Grade A.....	Rings, quarters or slices.....	19
U. S. Grade B.....	Rings, quarters or slices.....	19
U. S. Grade C.....	Rings, quarters or slices.....	17½

(c) Maximum prices for other kinds or grades of dried apples, such as chops

and screenings, when no price has been established therefor by the foregoing provisions of this section, and maximum prices for other container sizes, shall be computed as follows:

(1) Compute the base price for U. S. Grade C dried apples and the base price for each other item for which a maximum price is to be computed.

(2) Compute the percentage relationship of the maximum price for U. S.

Grade C dried apples, as established by paragraph (a) or (b) or this section, to the base price for U. S. Grade C dried apples.

(3) For each item for which a maximum price is being computed, multiply the base price of that item by the same percentage as computed for U. S. Grade C dried apples pursuant to paragraph (c) (2) of this section.

§ 1341.409 *The seller's maximum prices for boiled cider, concentrated cider, filtered concentrated apple juice and depectinized concentrated apple juice.*

(a) The seller's maximum prices, f. o. b. plant for boiled cider, concentrated cider, filtered concentrated apple juice and depectinized concentrated apple juice, all as defined in this section, shall be as follows:

Product	Baumé test	Maximum price
Boiled cider.....	32 degrees.....	90 cents per gallon.
Concentrated cider.....	32 degrees.....	\$1.00 per gallon.
Filtered concentrated apple juice.....	32 degrees.....	\$1.07 per gallon.
Depectinized concentrated apple juice.....	32 degrees.....	\$1.17 per gallon.

(b) To compute maximum prices, f. o. b. plant, for boiled cider, concentrated cider, filtered concentrated apple juice or depectinized concentrated apple juice for Baumé test other than 32 degrees, the seller shall add to the maximum price set forth in paragraph (a) of this section, the sum of five cents per gallon for each degree over 32 degrees and the seller must deduct from the maximum price set forth in paragraph (a) of this section, the sum of five cents per gallon for each degree under 32 degrees. For fractions of degrees over or under 32 degrees, the seller shall add or subtract, as the case may be, the similar fraction of five cents.

(c) When used in this section the term:

(1) "Boiled cider" means the product obtained by boiling pure cider in an open receptacle to the extent that at least six gallons of pure cider are used to obtain one gallon of boiled cider.

(2) "Concentrated cider" means the product obtained by concentrating pure cider by heating under vacuum pressure.

(3) "Filtered concentrated apple juice" means the product obtained by filtering pure apple juice and concentrating the same by heating under vacuum pressure.

(4) "Depectinized concentrated apple juice" means the product obtained by filtering pure apple juice, concentrating it by heating under vacuum pressure and depectinizing it to a sufficient extent to result in a liquid concentrate.

(5) [Revoked by Amendment 3, issued April 7; effective April 13, 1943]

§ 1341.410 *Separate maximum prices for apple products in tin and glass containers.* Any seller who packed the same item in both glass and tin during the 1941 pack shall compute base prices and maximum prices separately for such item packed in tin and the same item packed in glass.

§ 1341.411 *Maximum prices for apple products in new container types and sizes.* (a) The maximum price per dozen, f. o. b. factory, for a kind and

grade of any of the apple products covered by this regulation packed in any container type or size of which the seller made no sales during the first 60 days after the beginning of the 1941 pack shall be calculated as follows. He shall:

(1) *Determine the base container.* If the seller sold the same kind and grade of the apple product during the first 60 days following the beginning of the 1941 pack, but only in other container types or sizes, he shall first determine the most similar container type in which he is able to calculate a maximum price for that kind and grade of apple product (even though he no longer sells that container type). From that container type he shall choose the nearest size which is 50% or less larger, or if there is no such size, 50% or less smaller (even though he no longer sells these sizes). This will be the "base container." If there is no such smaller size, he shall go to the next most similar type and proceed in the same manner to find the base container.

NOTE: In most cases "the most similar container type" will be merely the container type which the seller is adding to or replacing, such as tin which he may be replacing with glass. Where there has been only a size change, "the most similar container type" will be the same container type. This is also true in the reverse situation; where there has been a change only in container type, the "nearest size" will be the same size.

(2) *Find the base price.* The seller shall take as the "base price" his maximum price per dozen, f. o. b. factory, for the kind and grade of apple product when packed in the base container. However, if this maximum price is a price delivered to the purchaser or to any point other than the seller's factory, the seller shall first convert it to a base price f. o. b. factory by subtracting whatever transportation charges were included in it.

(3) *Deduct the container cost.* Taking his base price, f. o. b. factory, the seller shall then subtract the direct cost of the base container. "Direct cost of the container" means the net cost, at the seller's factory, of the container, caps,

label and proportionate part of the outgoing shipping carton, but it does not include costs of filling, closing, labeling or packing.

(4) *Adjust for any difference in contents.* The figure obtained by this deduction shall then be adjusted, in the case of a size change, by dividing it by the number of ounces or other units in the base container and multiplying the result by the number of the same units in the new container.

(5) *Add the new container cost to get the price f. o. b. factory.* Next, the seller shall add to the adjusted figure the "direct cost of the container" in the new type and size. If his maximum price for the commodity in the base container is an f. o. b. factory price, the resulting figure is the seller's maximum price, f. o. b. factory.

(6) *Convert to a maximum delivered price, if the maximum price for the base container is on a delivered basis.* If the seller's maximum price for the apple product in the base container is a delivered price, he shall figure transportation charges to be added, as follows. The seller shall take the transportation charges which he first deducted to get his base price and adjust them in exact proportion to the difference in shipping weight. If for any reason the apple product in the new container will move under a different freight tariff classification, the seller shall figure his transportation charges (by the same means of transportation and to the same destination) on the basis of the new shipping weight, but at the rate in effect for that freight tariff classification during March 1942. Increases in tariff rates or transportation taxes made since March 31, 1942, shall not be taken into account. (Similar principles shall apply where shipping volume is the measure of transportation charge.) The seller shall then add these transportation charges to his f. o. b. factory price for the commodity in the new container. The resulting figure is the seller's maximum delivered price.

(b) If the seller has established prior to January 25, 1943, a maximum price under the provisions of this regulation for a kind, grade, and container size of apple products, of which he made no sales during the first 60 days following the beginning of the 1941 pack, he may retain that maximum price, or, at his option, may establish a maximum price under this section.

[§ 1341.411 as amended by Amendment 1, 8 F.R. 1135]

[NOTE: Supplementary Order No. 31 (7 F.R. 9894) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

[NOTE: Supplementary Order No. 34 (7 F.R. 10779) permits special packing expenses to be

added to maximum prices on sales to procurement agencies of the United States.]

§ 1341.412 *Maximum prices of competitor.* If the maximum price of the seller for any item for which maximum prices are established by this Revised Maximum Price Regulation No. 233 cannot be computed under the foregoing sections of this regulation, the seller's maximum price for such item shall be the maximum price of the most closely competitive seller for the same item.

§ 1341.413 *Authorization of maximum prices.* If the seller's maximum price cannot be determined under any of the foregoing sections of this Revised Maximum Price Regulation No. 233, the maximum price shall be a price determined by the seller after specific authorization from the Office of Price Administration, Washington, D. C., on application setting forth (a) a description in detail of the item for which a maximum price is sought; and (b) a statement of the facts which differentiate such item from the most similar item for which he has determined a maximum price, stating such most similar item and the maximum price determined therefor. When such authorization is given, it will be accompanied by instructions as to the method for determining the maximum price. Within ten days after such price has been determined, the seller shall report such maximum price to the Office of Price Administration, Washington, D. C., under oath or affirmation. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

§ 1341.414 *Maximum prices for a seller who has more than one factory.* The maximum price for each item for a seller who owns more than one factory shall be determined separately for each factory, except that if any group of two or more factories had the same f. o. b. factory prices in 1941, the maximum prices shall be determined uniformly for the entire group by using the combined figures for all of the factories in the group in computing the base price and maximum price hereunder, or, if that cannot be determined, by using the maximum price of the most closely competitive seller as the maximum price of the entire group. In applying for the specific authorization of a price, the application may be made for a uniform price for all of the factories in such group.

§ 1341.415 *Maximum delivered prices.* Any seller who sold and delivered a particular brand of canned apples, canned applesauce, or canned or bottled apple juice or sweet apple cider packed by him during the calendar year 1941 on an established uniform delivered price basis by zone or area, shall add to the maximum price per dozen f. o. b. factory computed under the foregoing sections for each grade and container size of such brand, the freight charge he added to his f. o. b. factory price during the calendar year 1941, for such grade and container size of such brand in the same zone or area. The resulting price is the seller's maximum delivered price for such grade and container size of such brand for the

zone or area in which the same freight charge was used in 1941.

§ 1341.416 *Maintenance of customary discounts and allowances.* Each seller shall maintain his customary cash discounts and his quantity discounts to different classes of purchasers.

§ 1341.417 *Less than maximum prices.* Lower prices than those established by this Revised Maximum Price Regulation No. 233 may be charged, demanded, paid or offered.

§ 1341.418 *Transfer of business or stock in trade.* If the business, assets or stock in trade of a seller are sold or otherwise transferred on or after the effective date of this Revised Maximum Price Regulation No. 233 and the transferee carries on the business, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions contained in this regulation.

§ 1341.419 *Evasion.* The price limitations set forth in this Revised Maximum Price Regulation No. 233 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to any of the items covered by this regulation, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1341.420 *Records and reports.* (a) Every packer who makes sales of dried apples after the effective date of this Revised Maximum Price Regulation No. 233 shall preserve, for so long as the Emergency Price Control Act of 1942 remains in effect, all his existing records which were the basis of computing maximum prices by relationship to other kinds, grades and sizes of dried apples and make and preserve for the same period, all records of the same kind as he has customarily kept, relating to the prices which he charged for dried apples sold after the effective date of this regulation.

(b) Every seller who makes sales of canned apples, canned applesauce, or canned or bottled apple juice or sweet apple cider, made from whole apples, and vinegar stock, packed after the 1941 pack, shall (1) preserve for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, all his existing records which were the basis for the computation of maximum prices under this Revised Maximum Price Regulation No. 233 and (2) preserve for the same period all records of the same kind as he has customarily kept, relating to the prices which he charged for such products sold on and after the effective

date of this regulation and (3) file with the Office of Price Administration, Washington, D. C., within ten days after determining his maximum price for each item, a statement certified under oath or affirmation showing his base price and his maximum price for each item, together with his customary cash discounts and customary quantity discounts to different classes of purchasers and (4) in those cases in which the maximum price of any item was determined by the maximum price of the most closely competitive seller, showing the maximum price of such item and the name and address of the seller whose maximum price was so adopted and (5) in those cases in which a seller made sales and deliveries of a particular brand of any of such products packed by him in 1941 on an established uniform delivered price basis by zone or area, showing his maximum price per dozen f. o. b. factory for each such item, the freight charge which he added to his f. o. b. factory price during the calendar year 1941 for each zone or area and the maximum delivered price for each such item packed after the 1941 pack, delivered in each zone or area, and (6) preserve for the same period a true copy of each such statement for examination by any person during ordinary business hours. Any seller who claims that substantial injury would result to him from making such statement available to any other person, may file such copy of such statement with the appropriate field office of the Office of Price Administration. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of this regulation.

[NOTE: Supplementary Order No. 23, (7 F. R. 8478) provides that on and after October 24, 1942, no report filed with the Office of Price Administration pursuant to any price regulation need be notarized.]

(c) Every seller who makes sales of boiled cider, concentrated cider, filtered concentrated apple juice or depectinized concentrated apple juice after the effective date of this regulation, shall make and preserve for so long as the Emergency Price Control Act, as amended, remains in effect, all records of the same kind as he has customarily kept, relating to the prices charged by him for such products.

§ 1341.421 *Information to purchasers from canners.* (a) Except as hereinafter provided, any canner selling any canned apples, canned applesauce, or canned or bottled apple juice or sweet apple cider made from whole apples, packed after the 1941 pack, to any wholesaler, retailer, or any other purchaser for resale, shall, before making such sale or on his invoice disclose in writing to such purchaser, for each item, his base price, his maximum price, and the amount of the difference between the base price and the maximum price, which amount shall be designated as the "permitted increase."

(b) Any such canner may disclose such information by stating it on his invoice on the first occasion that he sells any item to such purchaser; or he may prepare and supply to the purchaser one or more lists or statements containing such information, at or before the first sale to such purchaser. Any such statement may contain the required information for any number of items.

(c) When a maximum price has been established pursuant to § 1341.411 for any item for which the container type or size has been changed, the canner shall not report any base price or permitted increase.

(d) For the purposes of this section:

(1) When a maximum price has been established for any item by the use of proportionate relationship, the base price for such item shall bear the same ratio to the maximum price as the base price of the item from which such maximum price was determined bears to the maximum price of such item.

(2) When a canner has established a maximum price by using the maximum price of his competitor for the same item, his base price and permitted increase for that item shall be the same as the base price and permitted increase of his competitor for the same item.

(3) When any canner makes application to determine a maximum price after specific authorization by the Office of Price Administration, such authorization, when given, will be accompanied by instructions as to the method for determining the price to be deemed the base price.

§ 1341.422 *Enforcement.* Persons violating any provisions of this Revised Maximum Price Regulation No. 233, are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942.

§ 1341.423 *Petitions for amendment.* Any person seeking an amendment of any provision of this Revised Maximum Price Regulation No. 233 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.¹

[Note: Procedural Regulation No. 6 (7 F. R. 5087, 5665) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Supplementary Order No. 9 (7 F. R. 5444) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, with the exception of those on scrap, waste, and salvage materials.]

[Note: Supplementary Order No. 28 (7 F. R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

§ 1341.424 *Sales for export.* The maximum price at which a person may export any of the products covered by this Revised Maximum Price Regulation No. 233 shall be determined in accordance with the provisions of the Revised

Maximum Export Price Regulation² issued by the Office of Price Administration.

§ 1341.425 *Applicability of the General Maximum Price Regulation.*⁴ This Revised Maximum Price Regulation No. 233 supersedes the provisions of the General Maximum Price Regulation with respect to sales or deliveries by sellers subject to this regulation of all products for which maximum prices are established by this regulation.

§ 1341.426 *Applicability.* The provisions of this Revised Maximum Price Regulation No. 233 shall be applicable only in the United States and the District of Columbia.

§ 1341.427 *Definitions.* (a) When used in this Revised Maximum Price Regulation No. 233 the term:

(1) "Persons" includes an individual, corporation, partnership, association, any other organized group of persons, legal successors or representatives of any of the foregoing and includes the United States, any agency thereof, any other government, or any of its political subdivision and any agency of any of the foregoing.

(2) "Canner" means a person who processes and packs apples, applesauce, apple juice or sweet apple cider, made from whole apples, in containers of metal or glass, or who packs apple juice or sweet apple cider, made from whole apples, in wooden containers. A canner of any commodity covered by this regulation shall be a canner when selling any other commodity covered by this regulation unless he sells that other commodity as a wholesaler or retailer. If that other commodity is covered at wholesale and retail by Maximum Price Regulations Nos. 237 and 238, "wholesaler" and "retailer" mean the persons respectively referred to as "wholesalers" and "retailers" in those regulations. If that other commodity is covered at wholesale and retail by Maximum Price Regulation No. 255 and revised Maximum Price Regulation No. 256, "wholesaler" and "retailer" mean the persons respectively referred to as "wholesalers" and "retailers" in those regulations.

[Paragraph (2) as amended by Amendment 2, 8 F. R. 2998]

(3) "Packer" means a person who removes the major portion of moisture from apples by natural or artificial means or prepares them for shipping in dried form, but does not include a grower when he delivers dried apples to a packer.

(4) "Processor" means a person who produces vinegar stock, boiled cider, concentrated cider, filtered concentrated apple juice or depectinized concentrated apple juice.

(5) "Canned" means sealed or enclosed in containers of metal or glass, whether or not hermetically sealed, and

also refers to apple juice or sweet apple cider in wood containers.

(6) "1941 pack" of any item affected by this regulation shall be that pack the major portion of which was processed from apples grown in the calendar year 1941.

(7) "Vinegar stock" means fermented apple juice or fermented apple cider.

(8) The "most closely competitive canner or packer" means the canner or packer who:

(i) Sells to the same class of buyers, (ii) produces the same or a similar quality range of the product in question, (iii) has in the past sold the same item at approximately the same prices as the canner or packer seeking to establish a maximum price, (iv) is located in the same or the nearest canning or packing area.

(9) "Item", when referring to any of the products affected by this Revised Maximum Price Regulation No. 233, unless the context otherwise requires, also refers to the kind, grade and container size of such product; it designates not only the product, but also the kind, grade and container size. For example, "any item" means any kind, grade and container size of any of such products.

(10) "Kind" refers to the style of pack as well as to the product.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1341.428 *Effective date.* This Revised Maximum Price Regulation No. 233 (§§ 1341.401 to 1341.428, inclusive) shall become effective December 24, 1942.

Region I: Maine, New Hampshire, Vermont, Massachusetts, Connecticut and Rhode Island.

Region II: New York.

Region III: Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Oklahoma, Arkansas, Missouri and Kansas.

Region IV: Ohio, Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, Nebraska, North Dakota and South Dakota.

Region V: Arizona, Montana, Wyoming, Colorado, New Mexico, Utah, Nevada and that part of Idaho not included in Region VI.

Region VI: Washington, Oregon, California and Southwestern Idaho (Washington, Fayette, Gem, Canyon, Ada and Omyhee counties).

(3) Differentials for other types of beans for which maximum prices are not named in paragraph (d) (1) of this section:

(i) In Regions I, II, III, IV and V, the maximum prices for pole beans shall be: in #2 cans, five cents per dozen, in #2½ cans, seven and one-half cents per dozen, and in #10 cans twenty-five cents per dozen, higher than the maximum prices named for bush beans.

(ii) In Region VI, the maximum prices for bush beans shall be: in #2 cans, five cents per dozen, in #2½ cans, seven and one-half cents per dozen, and in #10 cans, twenty-five cents per dozen, lower than the maximum prices named for pole beans.

(4) Differentials for other styles of pack for which maximum prices are not named in paragraph (d) (1) of this section:

(i) The maximum prices for asparagus style or vertical style of pack shall be: in #2 cans, twenty-five cents per dozen, in #2½ cans, thirty-two and one-half cents per dozen, and in #10 cans, \$1.25 per dozen, higher than the maximum prices for whole beans of the same variety and grade, as listed herein or as determined by differential under the provisions of this section.

(ii) The maximum prices for French style of pack shall be: in #2 cans, five cents per dozen, in #2½ cans, seven and one-half cents per dozen, and in #10 cans, twenty-five cents per dozen, higher than the maximum prices for whole beans of the same variety and grade, as listed herein or as determined by differential under the provisions of this section.

(5) *Blends of sieve sizes.* (i) The maximum price of a blend of two sieve sizes of a variety and grade shall be the maximum price of the largest sieve size in the blend.

(ii) The maximum price of a blend of three sieve sizes containing only #4 sieve size and larger shall be the same as the maximum price for the same variety and grade, ungraded as to sieve size, in the same container. The maximum price of a blend of three sieve sizes of a variety and grade, which blend includes at least one sieve size which is smaller than #4

sieve size shall be: in #2 cans, five cents per dozen, in #2½ cans, seven and one-half cents per dozen and in #10 cans, twenty-five cents per dozen, more than the maximum price of the largest sieve size in the blend, packed in the same container.

(iii) The maximum price of a blend of four or more sieve sizes of a variety and grade shall be the same as the maximum price for ungraded sieve size of the same variety and grade in the same container.

(6) The word "ungraded" when used in connection with beans, refers to the sieve size and means not separated by sieve sizes, and includes all blends of more than three sieve sizes.

This amendment shall become effective April 7, 1943.

BY-PRODUCT FOUNDRY AND BY-PRODUCT BLAST FURNACE COKE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1345.6 (b) is amended to read as follows:

(b) Any person, who is prepared to show that (1) its cost of production of by-product foundry or by-product blast furnace coke is above its oven net realization at maximum prices or (2) its oven net realization is inadequate in view of its high operating costs for continued operations at maximum prices, may file a petition for an adjustment of the maximum prices established by Revised Price Schedule 29. In such cases the petitioner should submit, and the Office of Price Administration will consider, all relevant data, including the relation of the current, requested, and projected realization on the coke or on the oven to the total over-all return of the petitioner, and the necessity, in terms of the war effort, for the granting of such adjustment or exception. The Office of Price Administration may require, in connection with any such petition, full data on costs, profits, and other relevant factors. PART 1347—PAPER, PAPER PRODUCTS AND RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[MPR 359]

CERTAIN CONVERTED PAPER PRODUCTS

Certain converted paper products, including plates, dishes, spoons and forks and liquid-tight cylindrical containers.

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales of cer-

tain converted paper products by a separate price regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.* In the judgment of the Price Administrator, the maximum prices established by this Maximum Price Regulation No. 359 are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. So far as practicable, the Price Administrator has advised and consulted with members of the industry which will be affected by this regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration, Maximum Price Regulation No. 359 is hereby issued.

§ 1347.551 *Prohibition against dealing in certain converted paper products at prices above the maximum prices.* On and after April 10, 1943, regardless of any contract, agreement, lease or other obligation:

(a) No person for whom maximum prices are established under this regulation shall sell, deliver, or transfer certain converted paper products at prices higher than the maximum prices set forth in Appendices A, B, C, and D of this Maximum Price Regulation No. 359.

(b) No person shall buy or receive from a manufacturer certain converted paper products in the course of trade or business at higher prices than the maximum prices set forth in Appendices A, B,

*Copies may be obtained from the Office of Price Administration.

and C of this Maximum Price Regulation No. 359.

(c) No person shall buy or receive certain converted paper products from any person, other than a retailer, in the course of trade or business at higher prices than the maximum prices set forth in Appendix D of this Maximum Price Regulation No. 359.

(d) No person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That the provisions of this Maximum Price Regulation No. 359 shall not apply to sales or deliveries of certain converted paper products to a purchaser if prior to April 10, 1942 such converted paper products have been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser.

§ 1347.552 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 359 may be charged, demanded, paid or offered.

§ 1347.553 *Export sales.* The maximum price at which a person may export certain converted paper products shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation, issued by the Office of Price Administration.

§ 1347.554 *Federal and State taxes.* Any tax upon, or incident to, the sale or delivery of certain converted paper products, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto: If the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however*, That the tax on the transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any product covered by this Maximum Price Regulation No. 359, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the maximum price.

§ 1347.555 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to and at prices not in excess of the maximum prices in effect at the time of delivery,

*7 F.R. 3178, 3242, 3482, 3554, 4176, 4668, 5712, 5780, 5943, 7974, 8939, 8948, 9131, 9724, 10152, 10812, 1389, 2337.

§ 1347.556 *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after April 9, 1943, and the transferee carries on the business, or continues to deal in the same type of commodities or services in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records in accordance with § 1347.562 shall be the same. The transferor shall either preserve and make available for so long as the Emergency Price Control Act of 1942 remains in effect, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this Maximum Price Regulation No. 359.

§ 1347.557. *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 359 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1347.558 *Discounts and allowances.* Every manufacturer shall continue to grant to persons buying certain converted paper products, differentials, discounts, allowances and terms of sale not less favorable to the purchaser than those generally in effect during the period of October 1 to 15, 1941, for a sale of such certain converted paper products by such manufacturer to a purchaser of the same class.

§ 1347.559 *Evasion.* Price limitations set forth in this Maximum Price Regulation No. 359 shall not be evaded whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to certain converted paper products, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege or other trade understanding or otherwise.

§ 1347.560 *Enforcement.* Persons violating any provision of this Maximum Price Regulation No. 359 are subject to the criminal penalties, civil enforcement action, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942.

§ 1347.561 *Licensing.* The provisions of Supplementary Order No. 19, licensing distributors of paper and paper products, are applicable to every distributor selling any of the commodities for which maximum prices are now, or hereafter established by Maximum Price Regulation No. 359. The term "distributor" shall have the meaning given to it by Supplementary Order No. 19.

§ 1347.562 *Records and reports.* (a) Every person for whom maximum prices are established under this regulation

shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect accurate records of each sale of certain converted paper products made after April 9, 1943, showing the date thereof, the name and address of the buyer, the price contracted for or received and the quantity of each type and grade of certain converted paper products.

(b) Such persons shall submit such reports to the Office of Price Administration and shall keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 1347.563 *Definitions.* (a) When used in this Maximum Price Regulation No. 359, the term:

(1) "Basis weight" means the weight in pounds per 1,000 square feet of paperboard.

(2) "Certain converted paper products" includes all commodities for which maximum prices are now or hereafter established by this Maximum Price Regulation No. 359.

(3) "Plates" includes all substitutes for china or tin food, pie, cake, or ice cream receptacles embossed, stamped, or pressed from paperboard, or molded from woodpulp.

(4) "Dishes" includes all dishes and trays made from wood veneer or paperboard, the ends of which are either glued or held together with staples or by any other means, or a tray or dish molded from woodpulp; the sizes and grades of such dishes include those specified in Simplified Practice Recommendation No. 187-42, Food Trays or Dishes, issued by the National Bureau of Standards, Washington, D. C.

(5) "Spoons and forks" includes all spoons and forks manufactured from vulcanized fibre and all shaped and bowled wood spoons and forks.

(6) "Liquid tight cylindrical containers" includes all straight sidewall containers spirally wound on a mandrel to a thickness of two or more plies and made of chemical and/or mechanical pulp paperboard.

(7) "Cake circle" means a round paperboard or molded disc customarily used by bakers for carrying, dispensing, or handling cakes excepting cake circles made of single or double faced white lined corrugated paperboard.

(8) "Depth" is the measured vertical distance from the inside bottom surface of a plate to the top side of the rim.

(9) "Deep, extra deep, and western deep" means plates with a depth range of $\frac{3}{8}$ to 1 $\frac{1}{2}$ inches.

(10) "Shallow and medium plates" includes all plates with a depth range of from $\frac{1}{2}$ to $\frac{3}{4}$ of an inch, inclusive.

(11) "Diameter of plates" shall be measured from the outside edges of the top rim of plates.

(12) "Groundwood plates" includes all plates made from paperboard whose principal component is mechanical pulp.

(13) "Luncheon plates, luncheon and ice cream plates" includes all plates whose general use is service of luncheons, sandwiches, ice cream, etc.

(14) "Molded plates and dishes" includes all plates and dishes made from wet pulp formed to shape in molds with vacuum and air pressure.

(15) "Paperboard" includes all kinds, grades, types, calipers, colors, and patterns of paperboard unless otherwise limited by the context.

(16) "Embossed, pressed or stamped paperboard plates" includes all plates made by embossing, pressing or stamping to shape by use of dies.

(17) "Solid white plates" includes all plates made from paperboard of 100% chemical pulp.

(18) "Vulcanized fibre" includes paper or board produced by treating unsized paper with either zinc chloride or sulphuric acid to cause a partial gelatinization of the cellulose and then laminating into the proper thickness over heated cylinders.

(19) "White lined plates" includes all plates made from paperboard lined with chemical pulp.

(20) "Resale packages" includes all plates, plain or printed, carton packed, transparent wrapped or banded and intended for sale at retail.

(21) "Manila out, white in; white out, manila in; special bleached all white" includes all containers made of one ply of manila and one ply of white lined paperboard or made of two plies of white lined paperboard.

(22) "Solid bleached all white" includes all liquid tight cylindrical containers made wholly of bleached chemical pulp paperboard.

(23) "Stock printed" includes all liquid tight cylindrical containers printed on body sidewall in abstract design without brand or other customer identification.

(24) "Special printed" includes all liquid tight cylindrical containers, the body sidewall or cover or both of which are printed with the consumer's identification, including brand name or company name.

(25) "Brown out, Manila in" includes all liquid tight cylindrical containers made of solid manila paperboard as the inside ply and brown colored or kraft colored paperboard as the outside ply.

(26) "Regular wax" refers to all liquid tight cylindrical containers the inner and outer plies of which have been wax treated to insure their liquid tightness.

(27) "Heavy wax" refers to all liquid tight cylindrical containers which have been treated by dipping in or otherwise treating the finished container with paraffine.

(28) "Sizes" shall be determined by the liquid measurement of the liquid tight cylindrical container or the avoirdupois carrying capacity in terms of butter.

(29) "Diameter of liquid tight cylindrical containers" shall be the inside diameter of the liquid tight cylindrical container and not including the thickness of the sidewall.

(30) "Snap disc" includes round flat discs printed with customer brand or

other identification and which may be inserted in the top of the lid by customer.

(31) "Manufacturer" includes any person who manufactures or converts certain converted paper products covered by this regulation and any person who distributes as an agent or representative of the manufacturer of certain converted paper products.

(32) "Distributor" includes any person who buys certain converted paper products from the manufacturer or any other seller and who resells the same.

(33) "Consumer" includes any person who buys certain converted paper products to use as packaging for vending his products.

(34) "Zone A" consists of the following: All of the States of Connecticut, Delaware, Indiana, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, Illinois except Moline and Rock Island; southern peninsula of Michigan, cities of Cape Girardeau, Hannibal, New Madrid, Ste. PART 1364—FRESH, CURED, AND CANNED MEAT AND FISH PRODUCTS

[MPR 364]

FROZEN FISH AND SEAFOOD

In the judgment of the Price Administrator, it is necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, that maximum prices be established for the sale by processors and wholesalers of frozen fish and seafood.

So far as practicable, the Price Administrator has consulted and advised with representative members of the industry which will be affected by the regulation. In the judgment of the Price Administrator, the prices established are generally fair and equitable and will effectuate the purposes of the Act. The prices established are not below the average price of frozen fish and seafood in the year 1941.

A statement of considerations involved in the issuance of the regulation has been issued herewith and filed with the Division of the Federal Register.*

§ 1364.1151 Maximum prices for frozen fish and seafood. Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 364 (Frozen Fish and Seafood), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1364.1151 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

ARTICLE I—PURPOSE AND SCOPE OF REGULATION

SECTION 1 What this regulation does. This regulation fixes the maximum prices at which processors and wholesalers may sell frozen fish and seafood. On and after April 13, 1943, the date this regulation takes effect, no processor or wholesaler may sell any frozen fish or seafood, and no person in the course of trade or business may buy any frozen fish or seafood from a processor or wholesaler, at prices higher than the prices fixed by this regulation. But prices lower than those fixed may be charged or paid.

SEC. 2 How processors' maximum prices are fixed. Section 14 lists alphabetically the various species of salt water fish and of shellfish and mollusks for which maximum prices are fixed by this regulation. The base price per pound, in cents, is listed for each species according to the style of processing, and the size. The listed base prices in section 14 are base prices per pound for frozen fish and seafood as packed in the container size and kind customary for the species and for the industry. Section 13 sets out the amount which may be added to, or which must be subtracted from, the listed base price to fix the maximum price when the frozen fish or seafood is packed in other kinds or sizes of containers. The listed base price, with any adjustment for kind of package, is the maximum price f. o. b. the port of entry. If the processor freezes the product at any other place, his maximum price, f. o. b. the point at which the product is frozen, is: the price listed in section 14 for the species, style of processing and size; plus or minus the differential for special packaging provided in section 13; plus the carload rail freight rate, per pound, for fresh fish from the port of entry to the freezing point.

SEC. 3 How wholesalers' maximum prices are fixed—(a) General instruction. Each wholesaler's maximum price for the kind of frozen fish or seafood listed is found by adding to his "net cost" defined in the following paragraph (b), the mark-up defined in the following paragraph (c) for the class of wholesaler and for the kind of service he performs as specified in the following paragraph (d).

(b) Net cost. The wholesaler's "net cost" is the amount he paid for the particular item of frozen fish or seafood delivered at his customary receiving point, less all discounts allowed him except the discount for prompt payment, and excluding any charge for local trucking and unloading.

(c) Wholesaler's mark-up for different classes of sales. Mark-up is the percentage over net cost set forth hereinafter for each class of wholesaler or the type of sale involved. To obtain the selling price, multiply the net cost by the

percentage mark-up figure—the result added to the net cost is the selling price. The mark-up which applies in any particular sale depends on the class in which the wholesaler is and the kind of service performed in the particular sale. The classes, types of service, and mark-ups are set forth in the following paragraph (d).

(d) *Classes of sales at wholesale for the purpose of this regulation.* Depending upon the type sale to be made, a wholesaler will fall within one of the following classes. After the proper class is determined, the wholesaler will apply the mark-up provided for that class of sale:

(1) *Primary wholesalers.* Primary wholesalers are wholesalers who buy frozen fish or seafood from processors and distribute it for resale from cold storage warehouses to other wholesalers, to retailer-owned cooperative and chain store warehouses; who do not sell to individual retail stores or purveyors of meals and who do not customarily deliver. In the sale of frozen fish or seafood which has been unloaded, stored and warehoused in the regular course of his business, the primary wholesaler's mark-up is 12%. In the case of sales of goods which have not been stored and warehoused, the primary wholesaler's mark-up is 7%. In the case of sales involving delivery from the processor's cold storage warehouse to the primary wholesaler's customer, there is no mark-up.

(2) *Retailer-owned cooperative wholesalers.* This class includes wholesalers which are either non-profit organizations or corporations of which 51% or more of the stock is owned by its retailer customers and which generally sell and deliver from a cold storage warehouse to affiliated retail stores. The mark-up for this class of wholesaler is 10% to affiliated retail stores.

(3) *Cash and carry wholesalers.* This class includes wholesalers who distribute frozen fish and seafood to retail stores and purveyors of meals; who normally do not extend credit; and whose sales are made ex-freezer or platform. The mark-up for this class of wholesaler is 15%.

(4) *Service and delivery wholesalers.* This class includes wholesalers who distribute frozen fish and seafood to retail stores and purveyors of meals and whose sales are made on a delivered basis to the customer's usual receiving point. The mark-up for this class of wholesaler is 25%.

(5) *Broken lots.* Sales of broken lots of frozen fish and seafood are permitted except on sales to other wholesalers. "Broken lots" are defined as partial lots of frozen fish and seafood that have been broken or separated from the original content of the immediate container in which the product had been packed by the processor, and which broken lots are sold, made ready for delivery, and shipped out to a customer apart from the remainder of the original content of the immediate container. On sales of broken

lots of frozen fish and seafood, a wholesaler will be permitted to add 10% to the normal mark-up as specified under the various classes of wholesalers as outlined in this regulation.

(6) *Country trade shipments.* Wholesalers who ship to retailers and purveyors of meals to country and outlying points may add to their permitted mark-ups the actual cost of any special shipping cases and the cost of any extra refrigerant used for the shipment. Such wholesalers must denote separately on invoices to customers the actual cost of the cases and the refrigerant.

(e) *Imported frozen fish and seafood.* The maximum price at which a wholesaler may sell any frozen fish or seafood listed in section 14 shall be the base price listed in section 14 for the species and style of dressing plus or minus the differential for packaging provided for in section 13, plus the actual freight to the wholesaler's warehouse. To this amount may be added the mark-up provided for the class of sale in paragraph (c) of section 3.

Sec. 4 *Where the regulation applies.* The provisions of this regulation shall apply to the United States, its territories and possessions.

Sec. 5 *Sales to which this regulation does not apply.* (a) The provisions of this regulation shall not be applicable to sales or deliveries of frozen fish and seafood to a purchaser, if prior to April 13, 1943, such frozen fish and seafood have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The provisions of this regulation shall not apply to any sales at retail. A sale at retail is a sale to an ultimate consumer other than an industrial or commercial user.

Sec. 6 *Relation to other regulations.* (a) The provisions of this regulation repeal the provisions of the General Maximum Price Regulation¹ with respect to sales and deliveries for which maximum prices are established by this regulation. (b) The maximum price at which a person may export frozen fish and seafood shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation² issued by the Office of Price Administration.

ARTICLE II—RECORD KEEPING AND ENFORCEMENT

Sec. 7 *Records and reports.* (a) Every processor making a sale and every person making a purchase of frozen fish or seafood in the course of trade or business or otherwise dealing therein, other than a purchaser at retail, after March 1943, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and of the seller, the price contracted for or received, the quantity, species, grade, style

of pack, and the container size of frozen fish or seafood.

(b) Such person shall, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require.

Sec. 8 *Indirect price increases.* No person shall evade any of the provisions of this regulation by any scheme or device and no person shall indirectly charge or receive for frozen fish or seafood a price higher than the maximum price permitted by this regulation. No person shall as a condition of selling any frozen fish or seafood require a purchaser to buy any other frozen fish or seafood or any other product.

Sec. 9 *Enforcement.* On and after April 13, 1943, any person violating any provision of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for revocation of licenses provided by the Emergency Price Control Act of 1942, as amended.

ARTICLE III—MISCELLANEOUS PROVISIONS

Sec. 10 *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

Sec. 11 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

Sec. 12 *Definitions.* (a) When used in this maximum price regulation the term:

"Artificially frozen" means fish which are frozen by any method other than by exposure to the elements.

"Butterfly fillet" means two single fillets which are held together as a single unit by leaving intact the belly wall of the fish.

"Cellophane wrapped" means fish or fillets which are wrapped in cellophane.

"Cry-o-vac wrapped" means fish or fillets which have been packed in a bag of cry-o-vac composition or like material.

"Drawn fish" means a fish from which the viscera or entrails have been removed.

"Dressed" means a fish from which the viscera and head have been removed.

"Fillet" means the heavily meaty section or strip of fish cut from along the backbone and outside the rib bones, extending from the nape and gills to the tail.

"Frozen fish" means fish that are naturally or artificially frozen.

"Frozen seafood" means shellfish and mollusks that are naturally or artificially frozen.

¹ 8 F.R. 3096.

² 7 F.R. 5059, 7242, 8829, 9000, 10530.

"Gutted" means fish from which the viscera or entrails have been removed.

"Individually frozen" means fish which are singly frozen.

"Layer pack" means fish which have been placed in a container in layers that are divided by sheets of paper before they are frozen.

"Naturally frozen" means fish which are frozen by exposure to the elements for preservation.

"Pan frozen" means fish which are frozen in pans, trays, or similar receptacles in a solid cake or block.

"Parchment wrapped" means fish or fillets individually wrapped in parchment paper.

"Price per pound" means the price for 16 net ounces of frozen fish.

"Processor" means the person who originally freezes the fish or seafood.

"Scaled" means fish from which the scales have been removed but the skin left intact.

"Skinned" means fish from which the skin is removed.

"Steak" means a cross section cut from a dressed fish.

ment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1369.9 (b) is amended to read as follows:

(b) Any person, who is prepared to show that (1) its cost of production of iron ore is above its mine net realization on such product at maximum prices or (2) its mine net realization is inadequate in view of its high operating costs for continued operations at maximum prices, may file a petition for an adjustment or exception of the maximum prices established by Maximum Price Regulation 113—Iron Ore Produced in Minnesota, Wisconsin and Michigan. In such cases the petitioner should submit, and the Office of Price Administration will consider, all relevant data, including the relation of the current, requested, and projected realization on the iron ore, and the necessity, in terms of the war effort, for the granting of such adjustment or exception. The Office of

*Copies may be obtained from the Office of Price Administration.

Price Administration may require, in connection with any such petition, full data on costs, profits, and other relevant factors. Petitions for adjustment under this paragraph shall be filed with the Office of Price Administration in the manner provided in Revised Procedural Regulation 1.¹ Petitions for exception under this paragraph shall be filed with the Office of Price Administration in the manner provided for applications for adjustment under Revised Procedural Regulation 1.

This amendment shall become effective April 13, 1943.

has been filed with the Division of the Federal Register.*

Section 1499.73 (a) (56) (i) is amended to read as follows:

(i) *Maximum prices for sales by first buyers situated in certain parts of Florida.* Any seller obtaining the grades of salt listed here directly from producers in Louisiana and Texas or such producers' agents and reselling the same may, at his option, establish as his maximum prices therefor, the prices set forth in this subdivision (i) in lieu of the maximum prices therefor established pursuant to other provisions of the General Maximum Price Regulation.

Grade and quantity:	Maximum cash price f. o. b. seller's shipping point
100 lbs. C-A, No. 1, 2, 3, and 4	\$1.22
100 lbs. cotton, kiln dried, rock	1.32
6/10 lb. pockets fine rock	1.16
15/4 lb. pockets fine rock	1.20
50 lbs. plain stock blocks	.66
50 lbs. sulfur stock blocks	.77
50 lbs. iodized stock blocks	.93

These maximum prices for the grades mentioned above shall also be the maximum prices for other grades whose cost to the seller is within two cents per hundred pounds, per 6/10 lb. pockets or 15/4 pound pockets, or per 50 pound block, as the case may be, of the cost to the seller of the grades of salt specifically enumerated above.

This subdivision (i) is applicable only to sellers whose place of business is situated within one of the following-named counties in Florida and only to sales made from a shipping point located in one of such counties:

Marion	Hillsborough	Brevard
Volusia	Polk	Indian River
Seminole	Osceola	St. Lucie
Orange	Manatee	Martin

Consolidated Metals, Inc., Cincinnati, Ohio, is engaged in the business of melt-

ing, processing, and selling non-ferrous metals. From January 7 through September 1, 1942, the Company melted approximately 65,000 pounds of aluminum scrap without authority from the War Production Board in violation of Supplementary Order M-1-d and delivered approximately 55,000 pounds of secondary aluminum without authority from the War Production Board, also in violation of the aluminum orders.

During this same period the Company remelted zinc scrap and shipped approximately 36,000 pounds of remelt zinc to persons who did not present allocation certificates issued by the War Production Board. This constituted a violation of General Preference Order M-11.

Subsequent to April 1, 1942, the Company manufactured and sold approximately 28,200 pounds of automobile body solder, containing both tin and lead. The use of these metals in the manufacture of automobile body solder constituted violations of Conservation Orders M-38-c and M-43-a.

These violations of War Production Board orders were caused by the Company's inexcusable failure to acquaint itself with the requirements of the orders governing the distribution and use of these critical materials and have made it appropriate that the Company's use of critical materials be restricted. In view of the foregoing, *It is hereby ordered, That:*

§ 1010.273 Suspension Order No. S-273.

(a) Consolidated Metals, Inc., its successor and assigns, shall not melt, process, or in any other way use aluminum, copper, tin, lead, zinc, including scrap, or any alloy containing any of these metals, except as specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Consolidated Metals, Inc. from any prohibition, restriction, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on April 14th, 1943, and shall expire on August 14th, 1943, at which time the restrictions contained in this order shall be of no further effect.

PART 1016—SHEET STEEL

[General Preference Order M-45 as Amended
April 8, 1943]

Whereas, it is found that demands for steel drums for the shipment of gasoline, oil, and other products overseas, are recurrently creating temporary and local shortages of such drums and of the sheet steel necessary for the manufacture of such drums; and

Whereas, it is further found that the best interests of the national defense require the reservation of a stock of sheet

steel to be immediately available for the manufacture of steel drums required for such shipment; Now, therefore, *it is hereby ordered:*

§ 1016.1 General Preference Order M-45—(a) Definitions. For the purposes of this order:

(1) A "steel drum" means a drum made of hot rolled or cold rolled sheet steel of any gauge.

(2) "Producer" means any fabricator of steel drums.

(b) *Reservation of sheet steel for specific allocation.* The War Production Board will, from time to time, by specific order to each producer, direct the reservation of a designated quantity of hot rolled and cold rolled sheet steel of any gauge in the producer's possession or ownership. Thereafter the War Production Board will, from time to time, specifically authorize the sale, delivery, or processing of quantities of sheet steel so reserved. Except pursuant to such an authorization, no producers shall sell, deliver or process any such reserved sheet steel.

(c) *Records.* Each producer shall keep and preserve for a period of not less than two years, accurate and complete records concerning inventories and stocks on hand of and deliveries to such producer, and by such producer, of hot rolled and cold rolled sheet steel of all gauges, and steel drums.

(d) *False statements and penalties.* Any person who willfully violates any of the terms and provisions of this order, or willfully falsifies records required to be kept or information to be furnished pursuant to this order, or who obtains a delivery of material by means of a material and willful misstatement may be prohibited from obtaining further deliveries of material under allocation and be deprived of any other priorities assistance. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

PART 1123—SHELLAC

[Allocation Order M-106 as Amended
April 8, 1943]

§ 1123.1 Allocation Order M-106—(a) Definitions. For the purpose of this order:

(1) "Shellac" means lac of all grades, including seedlac, produced from the secretion of Laccifer Lacca Kerr (Tachardia Lacca), including dry, bleached, cut or otherwise processed lac. The term "shellac" shall include lac processed no further than bleaching with

chlorine or cutting with alcohol or other solvents, but shall not include lac after it has been mixed with a substantial quantity of other materials, or after it has been incorporated into molding compounds, or after it has been made an integral part of some article, such as electrical equipment or parts.

Certain stocks of shellac are exempted by the provisions of paragraph (c).

(2) "Allocation month" means the calendar month during which the use, processing, delivery or acceptance of delivery of a particular quantity of shellac is specifically authorized.

(3) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not, including but not limited to consumers and suppliers as hereinafter defined.

(4) "Consumer" means, for the purpose of paragraph (e), any person who so uses shellac as defined above that it ceases to be shellac as so defined; for example, any person who incorporates shellac into a molding compound, or who applies cut shellac to a surface as a protective coating, is a consumer, but a person who merely cuts or bleaches shellac, or who uses a molding compound containing shellac, is not a consumer.

(5) "Supplier" means, for the purpose of paragraphs (d) (5) and (e), any person, including any importer, engaged in the business of selling shellac to other persons.

(6) "Inventory" of a person includes all shellac to or in which such person has any title or equity of redemption, as well as the inventory as so defined of affiliates and subsidiaries of such person, but excluding shellac ordered for future delivery for which payment has not been made.

(b) *Restrictions on use, processing and delivery.* (1) No person shall use, process, deliver or accept delivery of shellac except as specifically authorized by the War Production Board upon application pursuant to paragraph (e).

(2) Each person authorized to accept delivery of shellac shall use such material only for the purpose authorized except as otherwise specifically directed by the War Production Board.

(3) Shellac allocated for inventory shall be reserved intact and shall not be used, processed or delivered except as further specifically directed by the War Production Board. Likewise, shellac which is not used for the purpose for which it was allocated shall revert to inventory as though allocated for inventory.

(4) Authorizations for a particular allocation month shall not terminate at the end of such month, except with respect to delivery to and acceptance of delivery by any consumer who

(1) Requires the supplier to postpone any authorized delivery beyond ten days

after the close of the allocation month; or

(ii) Fails to place an order with the supplier for the authorized shellac before the end of the allocation month.

(5) In addition to regular allocations of shellac by the War Production Board for each allocation month, the War Production Board at its discretion, notwithstanding the provisions of paragraph (c) or (d) hereof, may issue special directions to any person with respect to use, processing, delivery or acceptance of delivery of shellac by such person.

(c) *Existing stocks exemptions.* (1) The provisions of paragraph (b) (1) shall not apply to cut or bleached shellac (including seedlac) in the possession of a person other than a bleacher or importer on February 25, 1943.

(2) Cut or bleached shellac in the hands of a bleacher or importer on February 25, 1943, shall be subject to the provisions of paragraph (b) (1), except:

(i) Shellac cut or bleached prior to July 31, 1942; or

(ii) Seedlac cut or bleached prior to February 25, 1943: *Provided, however,* That the exemption provided in this paragraph (c) (2) (ii) shall not alter or modify special directions of the Director General for Operations issued to any bleacher or importer prior to February 25, 1943, with respect to any particular seedlac.

(d) *General exceptions.* The provisions of paragraph (b) (1) shall not apply to:

(1) The use or processing for testing purposes by any person in any one calendar month of not more than 20 lbs. of shellac; or the delivery of samples of shellac of not more than 20 lbs. each by any person to any other person and the use of such samples of shellac by the deliverer for testing purposes, provided that no person during any one calendar month shall accept delivery of more than 20 lbs. of shellac for testing purposes, or deliver more than 50 lbs. of shellac for testing purposes.

(2) Delivery of shellac by (but not to), and the use or processing of shellac by, the United States Army, Navy, Coast Guard, Maritime Commission or War Shipping Administration.

(3) Delivery of shellac by any person to Defense Supplies Corporation, Commodity Credit Corporation, or any other Government agency which may from time to time be specified by the Director General for Operations.

(4) The importation of shellac into the United States or its territories and possessions, the acceptance of delivery of such shellac by the consignee thereof and the delivery by such consignee to any person who purchased or contracted to purchase such shellac prior to its importation; provided, that nothing contained in this paragraph (d) (4) shall alter the requirements of General Imports Order M-63, as now or hereafter amended.

(5) Delivery of shellac by any person to a supplier; provided, however, that no supplier shall deliver shellac to another supplier pursuant to this paragraph (d) (5), unless the aggregate amount of shellac held in inventory by the supplier making delivery is less than ten thousand (10,000) pounds immediately prior to the delivery.

(e) *Applications.* (1) Each consumer as defined in paragraph (a) (4) above seeking authorization to use, process or accept delivery of shellac shall file application for such authorization on or before the 15th day of the month preceding the requested allocation month, on Form PD-617 (revised), in the manner prescribed therein. Such consumer shall state, among other things, the technical reasons necessitating the use of shellac instead of other materials, the grade of shellac requested, alternate acceptable grades, or technical reasons why alternate grades cannot be used, and whether he proposes to process the shellac requested himself or how he wishes to have it processed before delivery to him. He shall forward five certified copies of his application to his supplier if seeking authorization for delivery as well as use; if seeking authorization for use of shellac from his own inventory only, he shall forward three certified copies of his application to the War Production Board, Chemicals Division, Washington, D. C., Ref: M-106.

(2) Each supplier receiving a set of PD-617 forms from a consumer shall, if he wishes to acquire a like amount of shellac from another supplier, execute Part II of the PD-617 set of forms and shall forward all these forms to the second supplier. The second supplier may repeat this process by executing Part III of the set of PD-617 forms and forwarding them to a third supplier. The third supplier and any subsequent suppliers to whom the set of PD-617 forms are forwarded, shall add similar additional parts in the same form and at the same time add one copy of all parts of the complete set before forwarding the set to another supplier.

(3) Each supplier receiving a set of PD-617 forms from a consumer or from another supplier and not needing to apply for delivery of shellac from another supplier, shall forward such forms, without making any entry therein or adding any additional copies, to the War Production Board, Chemicals Division, Washington, D. C., Ref: M-106.

(4) Each supplier seeking authorization to process shellac in inventory in anticipation of future orders shall apply for authorization on Form PD-617 in the manner prescribed therein on or before the 15th day of the month preceding the requested allocation month. Three certified copies of such PD-617 application shall be forwarded to the War Production Board, Chemicals Division, Washington, D. C. Ref: M-106.

(5) Each supplier seeking authorization to accept delivery of shellac for inventory shall apply for authorization on Form PD-617, in the manner prescribed therein, specifying as end use "to hold intact pending further authori-

zation". He shall forward four certified copies of his application to the supplier from whom he seeks delivery, and such supplier shall complete Part II and forward such forms to the War Production Board, Chemicals Division, Washington, D. C., Ref: M-106.

(f) *Reports.* (1) On or before March 15, 1943, and on or before the 15th day of each calendar month thereafter, each person who on the first day of the previous calendar month had 5,000 pounds or more of shellac shall file with the War Production Board, Chemicals Division, Washington, D. C., Ref: M-106, an inventory report on Form PD-334 (revised) in the manner prescribed therein. Each person having a lesser quantity of shellac who shall receive a set of PD-334 forms from the War Production Board shall so certify in such forms as indicated and shall return such forms to the War Production Board.

(2) Each person who shall accept delivery of shellac pursuant to paragraph (d) (5) shall, within twenty-four hours after acceptance of such delivery, report by letter addressed to the War Production Board, Chemicals Division, Washington, D. C., Ref: M-106, the amount and grade of shellac delivered and the names of the persons making and accepting such delivery.

(3) Each person affected by this order shall file such other reports as may from time to time be required by the War Production Board.

(g) *Notification of customers.* Each supplier shall notify his regular customers as soon as possible of the requirements of this order as amended, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(h) *Miscellaneous provisions.* (1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board Regulations, as amended from time to time, except Priorities Regulation No. 13, which shall be subject to this order to the extent it is inconsistent herewith.

(2) *Records.* Each person who shall use or participate in any transaction with respect to shellac shall keep and preserve for a period of not less than two years accurate and complete records of all such transactions and of his use and inventory of shellac.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be ad-

ressed to: War Production Board, Chemicals Division, Washington, D. C., Ref.: M-106.

Issued this 8th day of April 1943.

PART 1176—IRON AND STEEL CONSERVATION

[Conservation Order M-126 as Amended
April 8, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1176.1 *General Conservation Order M-126—(a) Definitions.* For the purpose of this order:

(1) "Governing date", with respect to any item on List A or List S, or part thereof, means the date set forth opposite such item.

(2) "Army - Navy - Maritime order" means an order for material to be purchased (or physically incorporated into material to be purchased) by or for the account of the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration, where with respect to any item on List A, or part thereof, the use of iron or steel, or with respect to any item on List S, or part thereof, the use of stainless steel, is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration, applicable to the contract, subcontract or purchase order.

(3) The terms "iron" and "steel" shall not be deemed to include "tin plate" and "terne plate" as defined by Supplementary Order M-21-e, as amended, nor to include screws, nails, rivets, bolts, wire, strapping or small hardware for joining or other similar essential purposes.

(4) The term "stainless steel" means corrosion or heat resistant alloy iron or alloy steel containing 10 per cent or more of chromium with or without nickel and/or other alloying elements.

(5) "Process" means cut, draw, machine, stamp, melt, cast, forge, roll, turn, spin or otherwise shape.

(6) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(7) The term "assemble" shall not be deemed to include the putting together of an article after delivery to a sales outlet or consumer in knockdown form pursuant to an established custom. The term "assemble" shall also not be deemed to include adding finished parts to an otherwise finished article when the placing of one or more finished parts or the size or type of one or more finished parts

is determined by the use to which the ultimate consumer is to put the article.

(8) The term "Bessemer processed steel" means steel made by a process, in which air is blown through molten cast iron contained in a converter.

(9) The term "top cut" means that portion of a steel ingot rejected because it is not of sufficiently high quality for use on the order for which the ingot was melted, but which is normally used for some other purpose.

(b) *Restrictions with respect to List A products.* Except as provided in paragraph (d):

(1) *Raw material deliveries.* From and after the applicable governing date of any item on List A, no person shall deliver or accept delivery of any iron or steel which he knows or has reason to know will be used to make such item, or any part thereof.

(2) *Fabrication.* (i) *Limitation.* During the 30 days next following the applicable governing date of any item on List A, no person shall put into process any iron or steel to make such item, or any part thereof, in an aggregate weight greater than 75 per cent of the average monthly weight of all metals put into process by him during 1941 in the making of such item and parts, and no person shall put into process any iron or steel in the making of any such item or part unless processing thereof will be completed within such 30 day period.

(ii) *Prohibition.* From and after the date 30 days after the applicable governing date of any item on List A, no person shall process any iron or steel to make such item, or any part thereof.

(3) *Assembly.* From and after the date 60 days after the applicable governing date of any item on List A, no person shall assemble such item, or any part thereof, containing any iron or steel.

(4) *List A products without governing dates.* With respect to any item on List A without a governing date, (i) no person shall deliver or accept delivery of any iron or steel which he knows or has reason to know will be used to make such item, or any part thereof, (ii) no person shall put into process or process any iron or steel to make such item, or any part thereof, and (iii) no person shall assemble such item, or any part thereof, containing any iron or steel.

(5) *Finished item deliveries.* No person shall deliver or accept delivery of any item on List A, or part thereof, which he knows or has reason to know was fabricated, assembled or delivered in violation of any applicable provision of this order as amended from time to time.

(c) *Restrictions with respect to List S products.* Except as provided in paragraph (d):

(1) *Raw material deliveries.* From and after the applicable governing date of any item on List S, no person shall deliver or accept delivery of any stainless steel which he knows or has reason to know will be used to make such item, or any part thereof.

(2) *Fabrication.* (i) *Limitation.* During the 30 days next following the applicable governing date of any item on List S, no person shall put into process

any stainless steel to make such item, or any part thereof, in an aggregate weight greater than 50% of the average monthly weight of stainless steel put into process by him during 1941 in the making of such item and parts, and no person shall put into process any stainless steel in the making of any such item or part unless processing thereof will be completed within such 30 day period.

(ii) *Prohibition.* From and after the date 30 days after the applicable governing date of any item on List S, no person shall process any stainless steel to make such item, or any part thereof.

(3) *Assembly.* From and after the date 45 days after the applicable governing date of any item on List S, no person shall assemble such item, or any part thereof, containing any stainless steel.

(4) *Finished item deliveries.* No person shall deliver or accept delivery of any item on List S or part thereof, which he knows or has reason to know was fabricated, assembled, or delivered in violation of any applicable provision of this order as amended from time to time.

(d) *Exemption for Army-Navy-Maritime orders.* (1) The provisions of paragraph (b) with respect to items on List A with governing dates shall not apply to Army-Navy-Maritime orders for such items, or any parts thereof, for a period of 60 days after the applicable governing date. From and after the expiration of the applicable exemption period, no person shall deliver, accept delivery of, put into process, process or assemble any iron or steel for the making of any item on List A, or part thereof, unless such item or part is on List C. The provisions of paragraph (b) shall not apply to Army-Navy-Maritime orders for any item on List C, or part thereof, except that stainless steel shall not be used to make such item and parts, unless permitted by paragraph (d) (3).

(2) The provisions of paragraph (c) shall not apply to Army-Navy-Maritime orders for any item on List S, or part thereof, for a period of 60 days after its governing date. Except as provided in paragraph (d) (4), from and after the expiration of the applicable exemption period, no person shall deliver, accept delivery of, put into process, process or assemble any stainless steel for the making of any item on List S, or part thereof, unless such item or part is on List C.

(3) Except as otherwise specified on List C as to any item, or part thereof, stainless steel may be used to make any item on List C, or part thereof, for Army-Navy-Maritime orders until January 5, 1943. Except as provided in paragraph (d) (4), on and after January 5, 1943, no person shall use any stainless steel to make any item on List C, or part thereof, unless, and then only to the extent that, the use of stainless steel is expressly permitted for such item.

(4) The provisions of this order prohibiting the delivery, processing or assembling of stainless steel or a type of stainless steel for the making of any item, or part thereof, for Army-Navy-

Maritime orders shall not apply to any order which has been approved on form PD-391 for melting during the fourth quarter of 1942 or for delivery during such quarter; or to any order which can not be filled by the manufacturer because of his inability to secure permitted materials, except that this exemption shall be only for the minimum period of time necessary to obtain such permitted materials and in no event later than April 30, 1943.

(e) *Restrictions with respect to other products—(1) Roofing and siding.* No person shall manufacture any iron or steel into roofing and siding except from Bessemer processed steel and only:

(i) For delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development; or

(ii) For delivery on a preference rating of AA-5 or higher assigned by a PD-3A preference rating certificate or by a preference rating order in the P-19 series; or

(iii) For defense housing, to the extent specified in the Defense Housing Critical List; or

(iv) For the manufacture, maintenance and repair of railroad freight cars, street cars, or busses; or

(v) For deliveries on preference ratings assigned by the Board of Economic Warfare or for deliveries on Lend-Lease orders; or

(vi) For delivery to an ultimate purchaser for maintenance and repair purposes regardless of rating. With respect to this paragraph (e) (1) (vi), no person shall manufacture in the calendar year 1943, or any subsequent calendar year, more than 133 1/3 percent of the roofing and siding made by him from iron or steel for maintenance and repair purposes during the calendar year 1942.

Any person manufacturing or selling any such roofing or siding may rely on the certificate of his customer that such roofing or siding will only be sold or used as permitted by this paragraph (e) (1).

(2) *Other products.* No person shall use any iron or steel to make any article not prohibited on List A, or any part thereof, where and to the extent that the use of other material (excluding material on List D) is practicable. Alloy steel shall not be used when the use of carbon steel is practicable, and no more iron or steel shall be used in connection with the manufacture of any such article than is essential. The provisions of this paragraph (e) (2) shall not apply in the case of articles or parts to be purchased by or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration, or to be physically incorporated into products to be so purchased to the extent that the use of iron or steel is required by the specifications (including performance specifications) of the Army or Navy of the United States, the United States Maritime Commission

or the War Shipping Administration applicable to the contract, subcontract or purchase order.

(f) *Restrictions with respect to other scarce materials.* No person whose use of iron or steel is restricted by paragraphs (b), (d) or (e) shall use as a substitute therefor any material on List D.

(g) *Disposition of frozen and excessive inventories.* The disposition of frozen and excessive inventories containing iron or steel shall be subject to the applicable provisions of Priorities Regulation No. 13 (§ 944.34).

(h) *Miscellaneous provisions—(1) Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(2) *Appeal.* Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(3) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply whether the items are ordered or manufactured pursuant to a contract made prior to, on, or subsequent to May 5, 1942, or pursuant to a contract supported by a preference rating. Insofar as any other order of the War Production Board may have the effect of limiting or curtailing to a greater extent than herein provided the use of any material in the production of any item, the limitations of such order shall be observed.

(4) *Intra-company deliveries.* The restrictions of this order with respect to deliveries prohibit or restrict deliveries not only to other persons, including affiliates or subsidiaries, but also from one branch, division, or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(5) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(6) *Installation.* The restrictions of this order with respect to putting into process, processing, and assembling shall not apply to the installation of an item or part for the ultimate consumer on his premises when any putting into process, processing or assembling of such item or part is incidental to such installation and is done on such premises.

(7) *Repair.* The restrictions of this order (other than those contained in paragraph (e) (2)) shall not apply to a person repairing a used article on or off the premises of the owner, if the person making the repair does not use iron or

steel weighing in the aggregate more than 25 pounds and if any putting into process, processing or assembling done by such person is for the purpose of making the specific repair. The limitations in this paragraph (h) (7) on repairing a used article shall not apply to any item on List A or List S, or part thereof, to the extent that maintenance and repair of such item is specifically excepted on List A or List S.

(8) *Restrictions on manufacturing in certain labor areas.* In addition to the other prohibitions and restrictions contained in this order, no person shall put into process, process, or assemble any iron or steel, to make any item on List A, or part thereof, unless such processing or assembling is to take place in a manufacturing establishment located in groups 3 or 4 of the labor market areas as may be from time to time designated by the War Manpower Commission. The provisions of this paragraph (h) (8) shall not apply to Army-Navy-Maritime orders for any item on List C, or part thereof, nor to any of the exceptions set forth opposite any item on List A, unless such exceptions are specifically made subject to the provisions of this paragraph (h) (8).

Issued this 8th day of April 1943.

LIST C

[NOTE: List C amended April 8, 1943]

Access panels—for use on board ship, on military vehicles and where climatic or safety conditions make necessary.
Access panels of stainless steel for radio equipment.
Accessories, soda fountain—for use on board ship.
Acoustical ceilings—for use on board ship.
Air conditioning systems ² —but for offices and quarters on shore only non-compressor type units.
Aircraft fire walls—stainless steel permitted where required for non-magnetic properties.
Attic fans ¹ —where climatic conditions make necessary.
Automobile accessories.
Automobile heaters—where specified for military vehicles.
Awning frames and supports—for use on board ship, military repair units, hospital installations, and military construction units.
Barber shop supplies.
Bases on refrigerating machines—for use on board ship.
Baskets ¹ —for cooking and manufacturing uses and for ordnance operations.
Bath tubs—for use on board ship and in hospitals.
Baths, steam—for use on board ship.
B-B shot—for training and shot blast cleaning purposes.
Beds—but only from iron or steel in the form of re-rolled rail stock or Bessemer processed steel.
Bench legs.
Binoculars.
Bird cages—for carrier pigeons.
Bird feeders—for carrier pigeons.
Biscuit boxes—for use on board ship and where climatic conditions make necessary.
Bleachers and grandstands—but only straps and necessary fasteners for demountable wooden bleachers and grandstands.
Boat hooks.
Bobbin heads of non-nickel bearing stainless steel—for use on board ship.
Boiler casings of stainless steel ¹ —for use on board destroyers and where required for corrosion or heat resistance on board ship.
Bottle holders—for use on board ship and in hospitals.
Boxes, meter, and covers.
Brushes—wire bristles only.
Buckets and pails. ²
Buckles for clothing.

² Stainless steel permitted where required for corrosion or heat resistance or non-magnetic properties.

Buildings, portable.

Buttons.

Cabinets¹ for mobile units such as maintenance company equipment (truck mounted), spare parts trucks and mobile reproduction units, and for electrical installations, hospital operating and examining rooms, and as permitted by L-13-a and L-62.

Cabinets of stainless steel for radar equipment.

Cable terminals, fittings and turnbuckles of stainless steel—for aircraft and use on board ship.

Canopies, hoods, and supports—for use on board ship, military repair units, hospital installations, and military construction units.

Cans or containers for anti-freeze, candy, coffee, nuts—where climatic conditions make necessary.

Cash boxes.

Casket handles.

Ceilings—for use on board ship, but only where necessary.

Chains and cables.²

Cigarette lighters—as ordered by the Army Exchange Service, the Bureau of Naval Personnel, and the Marine Corps, for use by the Army, Navy, Coast Guard, and Marine Corps.

Clock cases.

Clothing trim.

Control levers of stainless steel for aircraft.

Cooking stoves, commercial electric.

Counter tops and edgings—for use on board ship.

Covers, manhole.

Covers, meter frame.

Culverts—for airports, for use outside continental limits of the U. S., and where certified to the manufacturer or supplier as necessary by the Army or Navy engineer in charge.

Cups of all kinds, drinking.

Dishwashing machines.

Door closers—for fire prevention, for use on board ship, and where climatic or safety conditions make necessary.

Door handles—for fire prevention, for use on board ship, for military vehicles, and where climatic or safety conditions make necessary.

Door stops.

Dust collecting systems and equipment.

Dust covers and enclosures—when specified for military vehicles.

Electric drinking water coolers¹—for use on board ship, in hospitals and in tropical climates.²

Erasing knives.

Fences, including chain link, weighing not more than 2 pounds per lineal foot and not more than .33 pounds per square foot.

Fence posts from iron or steel in the form of re-rolled rail stock.

Fans of stainless steel—for use on board ship and where required for corrosion resistance.

First aid kit boxes.

Flag holders.

Flag staffs and flag masts—for use on board ship, and on military vehicles.

Flashlight tubes.

Floor and ceiling plates for piping—for use on board ship, for military vehicles, and where climatic or safety conditions make necessary.

Fountains, portable, of stainless steel—for use on board ship.

Furniture—for use on board ship.

Galley and mess equipment of stainless steel, as follows:

Canteens of stainless steel.

Coffee urns of non-nickel bearing stainless steel.

Cold storage space on board ship—but only non-nickel bearing stainless steel clad for doors and other parts coming in direct contact with food.

Compartment mess trays—but only from existing finished stocks of stainless steel.

Dishwashing machines—but only tanks, hoods and pump shafts of non-nickel bearing stainless steel.

Kettles, steam jacketed—but only inside lining of single clad stainless steel.

Metal sponges of non-nickel bearing stainless steel wire.

Portable water coolers—but only liners of non-nickel bearing stainless steel.

Pressure cookers—but only clad stainless steel for bottoms and solid stainless steel for sides.

Sinks and dresser tops for use on board ship and aircraft—but only single clad stainless steel.

Steam tables and warming pans—but only clad stainless steel.

Stock pots—but only single clad stainless steel.

Games.

Garage hoists and car lifts.

Gates for fences—but only in conformance with A. N. M. B. specifications.

Grilles—sewer.

Hand seals for documents.

Harness and saddlery fittings.

Hat frames, wire and gimps.

Hat-making machinery, but only—

Blocking machines with complete sets of blocks.

Sets or dies for cutting parts.

Helmets—stainless steel permitted for bead-ing and loops.

Hose clamps of stainless steel—for aircraft.

Hose reels.

Hospital equipment—

Arm immersion stands.

Bed trays.

Bedside panel screen frames—for use in operating rooms, and outside continental limits of U. S.

Bowl stands—for use in operating rooms and on board ship.

Cabinets—X-ray film filing.

Cabinets for diathermy, sinusoidal and galvanic apparatus.

Chart holders.

Commodore—for hospital use outside continental limits of U. S.

Dental cabinets.

Dish trucks—frames and wheel tires only.

Dressing stand frames.

Examining tables, non-adjustable—for use on board ship and in field hospitals.

Instrument cabinets.

Instrument tables.

Nurses' work tables.

Overbed and swing overbed tables—functional parts only.

Stands and racks for colonic irrigation apparatus.

Sterilizer stands.

Supply and treatment cabinets.

Utensil racks.

Hot water heater tanks and coils of stainless steel—where specified for aircraft and military vehicles.

Ice box exteriors—for use on board ship, mobile type refrigerators, and for use where climatic conditions make necessary.

Ice cube trays.

Inclinerators.

Instrument dials and cases of stainless steel.

Keys for opening cans.

Ladders, step.

Laundry trays—for use on board ship.

Lavatories—for use on board ship and outside continental limits of U. S.

Lockers—for office equipment as limited by Limitation Order L-13-a, for use on board ship, military vehicles, outside continental limits of U. S. and in ordnance plants.

Luggage—valance only.

Mail boxes—for use on board ship.

Measuring pumps and dispensers for gasoline stations and garages, including but not limited to—

Air pumps.

Gasoline dispensing pumps.

Grease guns.

Grease pumps.

Kerosene pumps.

Oil pumps.

Mechanical drawing and drafting equipment of stainless steel.

Metal cloths.

Mirrors, hand—for signal use.

Motion picture cameras and projectors—stainless steel permitted for sprockets and aperture plates.

Motion picture screen stands.

Music stands—for use on board ship.

Paint spray outfits—stainless steel permitted for nozzle tips and needle valves.

Partitions—for use in hospitals and on board ship.

Partition studs for radar equipment.

Pegs, tent.

Phonograph motors, hand wound.

Phonograph record blanks.

Photographic equipment and accessories.²

Pie plates.

Pipe posts.

Pitchers.

Plumbing and heating equipment—

Gas fired boiler-furnace units.

Gas fired furnace-burner units.

Oil fired furnace-burner units.

Pneumatic tube delivery systems.

Portable bathtubs.

Pump shafts of stainless steel for deep well turbines.

Push carts—for ordnance and combat organizations.

Radio antenna of stainless steel.

Radio antennae poles.

Railings—for use on board ship.

Reels, cable and rope—for combat and field training purposes and for use on board ship.

Refrigerator boxes, walk-in—for use on board ship in advance bases and in theaters of operations.

Scaffolding—for use in airfields and other places where use of wood scaffolding is impracticable.

Screen frames.

Sewer pipe, exterior installations—for pressure lines only.

Shirt and stocking dryers of cast iron only.

Shower receptors—for use on board ship.

Shower stalls—for use on board ship.

Sink aprons and legs—for use on board ship.

Sink drainboards, both integral and removable—for use on board ship and where required for sterilization.

Siphon chargers for life jacket inflation.

Slide fasteners.²

Snow shovels and pushers, hand.

Spools for ink ribbon.

Spools for wire—for combat and field training purposes.

Sporting and athletic goods.

Stair and threshold treads—for use on board ship.

Stamped bakery equipment.

Stencils.

Swimming pool equipment and materials for swimming pools for training purposes by Navy or Marine Corps.

Swivel chairs—for use on board ship.

Tags—

For marking ammunition.

Identification tags and badges for personnel.²

Tanks, storage, water—but only for use on board ship, mobile units, range boilers and hot water storage, use outside continental limits of U. S., heights in excess of 100 feet, pneumatic pressure tanks.

¹ Maintenance and repair permitted.

² Stainless steel permitted where required for corrosion or heat resistance or non-magnetic properties.

Tanks, water storage, of stainless steel—for use in aircraft.
 Telephone bell boxes—for use on board ship or where climatic or safety conditions make necessary.
 Telescopes.
 Tent frames and supports.
 Termite shields—for use outside continental limits of U. S.
 Thermos jugs and bottles.
 Tile, steel back—for ladder treads, step plates and use on board ship.
 Tool boxes.
 Tool cases—for mobile equipment.
 Tool handles—where specified.
 Truck and trailer units and bodies—where specifically designed for military purposes.
 Typewriter mechanism for pedestal and drop-head desks—for use on board ship.
 Urinals—for use on board ship, in hospitals, and outside continental limits of U. S.
 Ventilators, shutter type—for use on board ship and for use with exhaust fans.
 Waste paper receptacles—for hospital use only.
 Water troughs—frame and support only.
 Wheelbarrows.
 Wire racks.
 Workbenches—where wooden benches will not stand up under ordinary use.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1519]

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

MODIFICATION OF RELIEF ORDER

Memorandum opinion and order modifying order granting relief in the matter of the petition of District Board 13 for the establishment of minimum prices for coal sold for domestic stoker use by certain mines in District No. 13.

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by the Bituminous Coal Producers Board for District No. 13 ("District Board 13"), pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. Petitioner requested the establishment of price classifications and minimum prices for coals produced and shipped for domestic stoker use from Mine Index Nos. 3, 4, 6, 7, 8, 9, 11, 13, 14, 17, 18, 19, 21, 22, 23, 29, 77, 78, and 1306, all located in Subdistrict 1 of District 13.

On March 3, 1943, after hearing, the waiver of the preparation and filing of the Examiner's report by all parties, and the submission of the record to the Director for consideration, an order was issued, 8 F.R. 2773, effective March 18, 1943, providing that the Schedule of Effective Minimum Prices for District No. 13 for all shipments except truck be amended by the addition of the following price exception:

When mines in Subdistrict 1 listed herein specially prepare coals included in Size Group 18, and such coals are sold and applied for

stoker use, the prices listed herein for Size Group 18 coals into the respective market areas shall be increased 35 cents per net ton: *Provided*, Such stoker coals shall have a top size not larger than $1\frac{1}{2}$ " and a bottom size with a maximum of $\frac{1}{2}$ " and a minimum of $\frac{1}{8}$ "; and *Provided further*, The actual size of the stoker coal is specified in all notices, lists, reports or other documents.

Thereafter, on March 17, 1943, District Board 13 filed a petition for modification of the aforesaid order, requesting that the price exception be modified to apply only to coal sold and applied for domestic stoker use and having a top size of $1\frac{1}{2}$ " and a bottom size not larger than $\frac{1}{2}$ ". The district board alleged that there are no producers in District 13 presently producing stoker coal with a bottom size of $\frac{1}{8}$ "; that in order to comply with the order of the Director, it would be necessary for these producers to install special screens to produce stoker coal within this size limitation and to make certain changes in the loading facilities; and that such installation and changes cannot be made within the time limit set in the order. The petitioner further alleged that there is no benefit to be gained by the removal of fines under $\frac{1}{8}$ " in coals moving for domestic stoker use, that "some of the free burning coals are better for this use with all the fines left in; other coals with various degrees of coking tendency may be improved by the removal of some part of the fines; it is a matter of individual determination and judgment by producers."

I am mindful of the difficulties existing at the present time in procuring and installing special screening facilities and in making alterations in loading facilities at mines. In view of that difficulty; and in light of petitioner's allegation, which appears to be borne out by the record in this proceeding, that at least some producers in District No. 13 marketing the stoker sizes are not presently equipped to produce a coal with a bottom size of $\frac{1}{8}$ "; and in recognition of petitioner's contention that relief in this matter is urgent, I am prepared at this time to modify the Order of March 3, 1943, in accordance with petitioner's request.

I do this hesitantly, however. The definition of the special stoker size which petitioner urges and which I am here establishing is little if any different from the definition of the chestnut size groups designated as Size Groups 10 and 11 in the minimum price schedule. Moreover, there is some indication that some producers in District No. 13 consider this special stoker size as falling within the washed screening size group designated as Size Group 18 in the minimum price schedule. The establishment of identical size groups differentiated only by the requirement that the coals in some of the size groups must be "specially prepared" is not in my opinion conducive to a sound minimum price pattern and permits of ready evasion by producers who, because of exigencies of competition or their unwillingness to cooperate in the maintenance of a sound price

structure, may be unscrupulous enough to take advantage of such vague limitations in the size group definitions. Moreover, it is not clear whether the term "domestic stoker" is intended as a reference to Price Instructions 9 and 10 of the minimum price schedule, thus requiring the sale of the specially prepared stoker size at the higher minimum price to all consumers other than those referred to in Price Instruction 9.

Because these several matters are unclear, I am only temporarily modifying the order of March 3, 1943, as petitioner requests. I contemplate further modification in the future to define more exactly the special stoker size. Toward this end, the District Board's aid is essential. Accordingly, the present modification of the order of March 3, 1943, in accordance with the District Board's request, is made only on condition that on or before June 30, 1943, petitioner submits a statement setting forth a more exact definition of the special stoker size group, and a clarification of the definitions of Size Groups 10, 11, 18, and 23 as compared with that for the special stoker size group, and of the term "domestic stoker" as read in connection with Price Instructions 9 and 10 of the schedule.

Now, therefore, it is ordered, That, effective immediately, the price exception provided in the order of the Director issued March 3, 1943, § 333.1 (b) (*Price instructions and exceptions*), 8 F.R. 2773, be and the same hereby is modified to read as follows:

When mines in Subdistrict 1 listed herein specially prepare coals included in Size Group 18, and such coals are sold for domestic stoker use, the prices listed herein for Size Group 18 coals into the respective market areas shall be increased 35 cents per net ton; *Provided, however*, That such stoker coals have a top size not larger than $1\frac{1}{2}$ " and a bottom size not larger than $\frac{1}{2}$ "; and *Provided further*, That the actual size of the domestic stoker coal and the designation "domestic stoker" is specified in all notices, lists, reports or other documents.

It is further ordered, That jurisdiction over this proceeding is hereby reserved to the Director to revoke the price exception hereinabove established in the event the Bituminous Coal Producers Board for District No. 13 on or before June 30, 1943, shall not have submitted to the Division a statement in accordance with the opinion rendered above; and for any other purposes he may deem appropriate.

Dated: April 3, 1943.

[SEAL]

DAN H. WHEELER,
 Director.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 8—SUPPLIES AND ACCOUNTS

ADJUSTMENT OF ROYALTIES FOR USE OF PATENTS AND INVENTIONS

Pursuant to the authority conferred upon the Secretary of the Navy by Pub-

lic Law 768, 77th Congress, 2d Session, an Act which provides for adjusting royalties for the use of inventions for the benefit of the United States, in aid of the prosecution of the war, and for other purposes, approved October 31, 1942, the following rules and regulations are hereby prescribed.

Section 8.2404 *Special investigation and price fixing* is amended by adding subparagraph (7-1) to paragraph (b) immediately following subparagraph (7):

(7-1) *Adjustment of royalties for use of patents and inventions*—(i) *Basic statute.* The Act of October 31, 1942 (Public Law 768, 77th Congress, 2d Session), makes provisions for adjusting royalties for the use of inventions for the benefit of the United States in aid of the prosecution of the war and for other purposes. The succeeding subdivisions contain a summary of the provisions of the Act as applied to the Navy Department, together with rules and regulations governing the administration thereof.

(ii) *Applicability and notice.* Whenever an invention, whether patented or unpatented, is manufactured, used, sold, or otherwise disposed of for the United States (for this purpose, the Navy Department) under the conditions set forth in the Act, and the license under which this is done includes provisions for the payment of royalties, the rates or amounts of which are believed to be unreasonable or excessive by the Secretary of the Navy, the latter shall give written notice of such facts to the licensor and the licensee. By definition, the manufacture, use, sale, or other disposition of an invention, whether patented or unpatented, by a contractor, subcontractor, or any person, firm, or corporation for the Government and with the authorization or consent of the Government is construed as manufacture, use, sale, or other disposition for the United States.

(iii) *Fixing of rates and order.* The Act further provides that within a reasonable time after the effective date of the notice, in no event less than ten days, the Secretary of the Navy by order shall fix and specify such rates or amounts of royalties, if any, as he shall determine are fair and just, taking into account the conditions of wartime production, and shall authorize the payment thereof by the licensee to the licensor on account of such manufacture, use, sale, or other disposition. Either the licensor or the licensee is privileged, if he so requests within ten days from the effective date of the notice, to present within thirty days from the date of his request, in writing or in person, any facts or circumstances which may in his opinion have a bearing upon the rates or amounts of royalties, if any, to be determined, fixed, and specified as aforesaid, and the order fixing such rates and amounts of royalties shall be issued within a reasonable time after such presentation. The written notice shall be mailed to the last known address of the licensor and the licensee and shall be effective upon receipt or five days after the mailing thereof, whichever date is the earlier.

(iv) *Prohibition against payment of excessive royalties.* The licensee is forbidden after the effective date of the notice to pay to the licensor, or to charge directly or indirectly to the United States, a royalty in excess of that specified in the order. It is provided, That, whenever a reduction in the rates or amounts of royalties is effected by order, the reduction shall inure to the benefit of the Government by way of a corresponding reduction in the contract price to be paid directly or indirectly for such manufacture, use, sale, or other disposition of such inventions, or by way of refund, if already paid to the licensee.

(v) *Remedies of licensor.* The Act contains certain provisions as to the remedies of the licensor, which, in general, limit him to a claim against the United States in a suit in the Court of Claims, or in certain instances, to a suit brought in a District Court of the United States.

(vi) *Settlement of claims.* The Secretary of the Navy is authorized, before suit has been instituted against the United States, to enter into an agreement with the owner or licensor of an invention in full settlement and compromise of any claim accruing under the provisions of the Act, and for compensation to be paid such owner or licensor based upon future manufacture, use, sale, or other disposition of said invention.

(vii) *Authority of Secretary of Navy to delegate powers and issue regulations under Act.* The Secretary of the Navy is authorized in his discretion and under such rules and regulations as he may prescribe, to delegate any powers conferred by the Act to such qualified and responsible officers, boards, agents, or persons as he may designate or appoint. He is also authorized to issue such rules and regulations and to require such information as may be necessary and proper to carry out the provisions of the Act. In accordance with such provisions of the Act, the Secretary of the Navy herewith issues delegations of authority, the terms of which are set forth in the succeeding subdivisions. Likewise, he has issued the ensuing regulations which shall govern the administration of the Act.

(viii) *Delegation of authority to the Patent Royalty Revision Board.* There is hereby established in the Navy Department a Patent Royalty Revision Board, which shall be composed of a Chairman and seven members selected and appointed by the Secretary of the Navy to serve for such terms as the Secretary shall designate. Any three members designated by the Chairman may act in any matter as and for the entire Board. The following powers are hereby conferred upon and delegated to the Patent Royalty Revision Board to be exercised in connection with matters referred to the Board in accordance with the provisions of subdivision (ix) of this subparagraph:

(a) To receive and hear such facts or circumstances as may be presented in writing or in person as specified in subdivision (iii) of this subparagraph.

(b) To fix and specify by the order referred to in subdivision (iii) of this subparagraph fair and just rates or

amounts of royalties and to authorize the payment thereof by the licensee to the licensor, subject, however, to the approval of such order by the Secretary of the Navy.

(c) To enter into agreements with the owners or licensors of inventions or with contractors and subcontractors by the terms of which unreasonable or excessive rates or amounts are reduced to reasonable or unexcessive rates or amounts, subject, however, to the approval of such agreements by the Secretary of the Navy. Such agreements may be executed on behalf of the Board by the Chairman, or a member of the Board designated by the Chairman.

(d) To enter into an agreement before suit against the United States has been instituted with the owner or licensor of an invention in full settlement and compromise of any claim against the United States accruing to such owner or licensor by reason of the manufacture, use, sale, or other disposition referred to in subdivision (ii) of this subparagraph and for compensation to be paid such owner or licensor based upon future manufacture, use, sale, or other disposition of such invention, subject, however, to the approval of such agreement by the Secretary of the Navy. Such agreements may be executed on behalf of the Board by the Chairman, or by a member designated by the Chairman.

(e) To exercise the powers conferred by section 8 of the Act.

(ix) *Factors to be considered.* In determining what are fair and just rates and amounts of royalties payable for an invention, such factors as the following should be taken into account:

(a) The conditions of wartime production.

(b) The production and use of the invention prior to any increase due to wartime procurement, including:

(1) Any established royalty rate;

(2) The volume on which royalty was paid;

(3) The yearly aggregate royalty paid; and

(4) The circumstances under which the licensing and the establishment of the royalty rate occurred.

(c) The character of the invention and any patent protection therefor, the value of its contribution to the art in which it is used, and the character and expense of research and development that have been devoted to the invention.

(d) The extent of use and proposed use of the invention by other departments or agencies of the Government and the amounts of royalties involved in the aggregate in such use.

(e) All other considerations which are ordinarily and properly taken into account in determining fair and just royalties or which appear to be appropriate to the particular case.

(x) *Counsel.* The Patent Section of the Procurement Legal Division shall serve as counsel for the Patent Royalty Revision Board in matters arising under the Act, and its services in this connection shall include the preparation of the written notice referred to in subdivision (ii) of this subparagraph, and the submission of such notice for signature to

the Secretary of the Navy and the reference to the Board for appropriate action of all instances in which such a notice has been issued.

(xi) *Assistance of Bureaus.* (a) The Chief of each Bureau and the Commandants of the Marine Corps and Coast Guard shall cause such action to be taken in connection with existing and future contracts as may be appropriate in order to ascertain whether unreasonable or excessive royalties are being paid by the Navy Department. Such action shall be taken pursuant to such instructions as may be issued by the Chief of the Bureau or the Commandant concerned: *Provided*, That nothing in this subdivision shall apply to contracts the royalty provisions of which have been reduced in accordance with the provisions of the Act.

(b) If it is determined, in accordance with subdivision (xi) (a), that excessive rates or amounts of royalties are being paid by the contractors or subcontractors of any Bureau or of the Marine Corps or Coast Guard, the Chief of such Bureau or the Commandant of the Marine Corps or Coast Guard may conduct voluntary negotiations with the owners and licensors of inventions and with contractors and subcontractors for the purpose of reducing all such unreasonable or excessive royalties to reasonable royalties, and may enter into and sign agreements of settlement and compromise embodying the terms of such negotiations, subject, however, to the approval of such agreements by the Secretary of the Navy: *And provided, however*, That if such negotiations are not successfully concluded within a reasonable time with the approval of the Secretary of the Navy, or in the event that the Chief of the Bureau concerned or the Commandant of the Marine Corps or Coast Guard does not, in his discretion, desire to conduct such negotiations, he shall transmit promptly to the Patent Section of the Procurement Legal Division written reports reciting the facts and circumstances of such instances, together with a statement to the effect that such royalties are believed to be, or on investigation may prove to be, unreasonable or excessive.

(c) The assistance of the cost analysis sections and engineering and technical branches of the several Bureaus and Offices of the Navy Department and the Patent Division of the Office of the Judge Advocate General will be available to the Patent Royalty Revision Board to assist the latter in administering the provisions of the Act.

(xii) *Price Adjustment Board.* Questions of unreasonable or excessive royalties coming before the Price Adjustment Board shall be referred to the Patent Royalty Revision Board for determination and all findings of the latter Board as to the reasonableness of royalties shall be binding on the Price Adjustment Board.

(xiii) *Form of notice.* The following form of notice is approved for use subject to such deviations as may be appropriate in any given case:

Pursuant to the Act of October 31, 1942 (Public Law 768, 77th Congress, 2d Session), notice is hereby given that patent royalties now being paid directly or indirectly by the United States are believed to be unreasonable or excessive.

It is understood that these payments are made by virtue of an agreement between _____ as licensee and _____ as licensor. This notice becomes effective upon receipt hereof or five days after the mailing hereof, viz., _____, 194____, whichever date is the earlier.

Under the Act the licensee or the licensor, if he so requests within ten days from and after the effective date of this notice, may within thirty days from the date of such request present in writing or in person any facts or circumstances which may, in his opinion, have a bearing upon the rates or amounts of royalty if any, to be determined, fixed and specified, all as provided in said Act.

Within a reasonable time after the effective date of this notice an order will be made fixing and specifying the rates or amounts of royalty, if any, which are determined to be fair and just taking into account the conditions of wartime production. Such order will authorize the payment of such rates or amounts of royalty by the licensee to the licensor.

The Act provides that the licensee shall not after the effective date of this notice pay to the licensor, nor charge directly or indirectly to the United States a royalty, if any, in excess of that which may be specified in the order to be hereafter made. Until the making of such order no royalties should be so paid or charged on account of the manufacture, use, sale or other disposition for the United States.

The foregoing notice shall be mailed to the last known address of the licensor and the licensee and to other known interested parties, if any.

(xiv) *Forwarding copies of notice.* Copies of all notices served shall be sent to:

(a) The office of the Chief of the Bureau concerned.

(b) The office of the Judge Advocate General.

(xv) *Form of order.* The following form of order is approved for use subject to such deviations as may be appropriate in any given case:

ORDER NO. _____

Adjusting royalties in connection with

Contract No. _____

Contractor and Address _____

For:

Whereas, under date of _____, pursuant to the authority contained in the Act of October 31, 1942 (Public Law 768, 77th Congress, 2d Session), written notice was given to (Licensor) and (Licensee) that the rates or amounts of royalties are set forth in Column 5 of Schedule A¹, attached hereto and by reference made a part hereof, provision for the payment of which by Licensee to Licensor is evidence in the manner set out in Column 6 of said Schedule A, and directly or indirectly charged or chargeable to the United States for the manufacture, use, sale, or other disposition for the United States of the inventions set forth in Columns 1, 2, 3, and 4 of said Schedule A, under the terms of the above-identified contract, were believed to be unreasonable or excessive, and that after the date of the receipt of said

¹ Form filed as part of the original document.

Notice, or five days after the mailing thereof, whichever date was the earlier, no royalty should be paid by the Licensee to the Licensor, and charged directly or indirectly to the United States, for or on account of the manufacture, use, sale, or other disposition of said invention for the United States, as provided for in said Act; and

Whereas, an opportunity has been afforded Licensor and Licensee to present in writing or in person any facts or circumstances which may, in the opinion of either or both of said parties, have a bearing upon the rates or amounts of royalties hereinafter determined, fixed, and specified; and

Whereas, the undersigned, having taken into account such pertinent facts as have been brought before them, including representations of the Licensor and Licensee, the conditions of wartime production, and all other considerations which are ordinarily and properly taken into account in determining a fair and just rate or amount of royalty in the premises:

Now, therefore, It is hereby determined, fixed, and specified that a fair and just rate or amount of royalty, to be paid by Licensee to Licensor, after the effective date of said Notice, is that rate or amount set forth in Column 7 of said Schedule A, and payment thereof by the Licensee to the Licensor on account of the manufacture, use, sale, or other disposition of the inventions set forth in Columns 1, 2, 3, and 4 of said Schedule A, insofar as such payment is consistent with the provisions of said Act, is hereby authorized.

(xvi) *Submission of order or settlement for approval.* In transmitting to the Secretary of the Navy for approval the order or agreements for settlement and compromise referred to herein, there shall be included in duplicate the following documents which shall be classified as "Confidential":

(a) A short statement of the history of the case.

(b) A copy of the notice, if any.

(c) A statement or resume of any facts or circumstances presented under the terms of the Act by the licensor or the licensee.

(d) A statement of the basis for the conclusion that the rates or amounts or royalty fixed in the order are fair and just, or in the case of a settlement, a statement of the basis for the settlement.

(xvii) *Reservation of authority.* The delegation of authority made and rules and regulations prescribed herein are without prejudice to the authority of the Secretary of the Navy to make such other or further delegations of authority and to prescribe such other rules and regulations as the Secretary of the Navy may from time to time deem proper under the Act.

These rules and regulations shall become effective on March 1, 1943, and shall not modify or change any existing delegations or notices sent out or any proceedings instituted prior to that date.

PART 25—MEDICAL

HOSPITALIZATION AND DOMICILIARY CARE

Section 25.6047 is amended in the following respects:

§ 25.6047 *Eligibility for hospital treatment or domiciliary care of persons discharged or retired from military or naval service.* Within the limits of Veterans Administration facilities, hospital treatment or domiciliary care may be furnished the following applicants in the specified order of preference:

(a) Hospital treatment for: (1) Persons who served during the period of the World War I as defined in paragraphs I and IV, § 35.10, as amended; or in any

war prior to the Spanish-American War; or during the Spanish-American War, Philippine Insurrection or Boxer Rebellion from April 21, 1898 to July 4, 1902 (or to July 15, 1903, if the service was in Moro Province), or on or after December 7, 1941, and before the termination of hostilities in World War II (as determined by proclamation of the President or by concurrent resolution of the Congress), including those who had active duty as a member of the Women's Army Auxiliary Corps, Women's Reserve of the Navy and Marine Corps, and the Women's Reserve of the Coast Guard—when honorably discharged from their last period of war service, and when suffering from an injury or disease incurred or aggravated in line of duty in active military or naval service, and for which they are medically determined to be in need of hospital treatment.

No change in (a) (2), (3).

No change in (b) (1), (2), (3) and (4).

(5) *Retired officers.* Persons retired from the United States Army under Public No. 18, 76th Congress, as amended by Public No. 262, 77th Congress, who had service only in a period other than wartime and who are suffering from a disease or injury incurred in line of duty which is medically determined to require hospital treatment, may be supplied hospital treatment in a facility under the direct and exclusive jurisdiction of the Veterans Administration, provided the applicant agrees to pay the per diem rate to cover subsistence which is set by the Administrator of Veterans Affairs.

No change in (c) (1), (2) and (3).

No change in (d) (1), (2) and (3).

(4) Retired personnel of the classes comprehended by (b) (5) who meet the other requirements of (d) (1) hereof, may be supplied hospital treatment in a facility under the direct and exclusive jurisdiction of the Veterans Administration, if beds are available, and such applicants agree to pay the per diem rate to cover subsistence, which is set by the Administrator of Veterans Affairs.

No change in (e) (1) and (2).

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 205—REPORTS

QUARTERLY REPORT OF PROPERTY REVENUES, EXPENSES AND STATISTICS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 2d day of April, A. D. 1943.

The matter of statistical reports of Class I motor carriers of property being under consideration:

It is ordered, That the orders of August 1, 1938, and December 2, 1941, (§ 205.12 of Title 49, Code of Federal Regulations) be and they hereby are vacated and set aside, effective January 1, 1943, and the following order shall become effective:

§ 205.12 *Quarterly report of property revenues, expenses and statistics.* All Class I common and contract motor carriers of property subject to the provisions of section 220 of the Interstate Commerce Act, shall file, under oath, quarterly reports in duplicate, commencing with the period January 1, 1943, to March 31, 1943, (both dates inclusive) of revenues, expenses, and other statistics in accordance with the quarterly form which is attached hereto and made a part of this order.¹ Such reports shall be filed in the office of the Bureau of Motor Carriers of the Interstate Commerce Commission within thirty days after the close of the period to which they relate. (Sec. 220, 49 Stat. 563, sec. 24, 54 Stat. 926; 49 U.S.C. 320.)

Chapter II—Office of Defense Transportation

[General Order ODT 3, Revised, Amendment 3]

PART 501—CONSERVATION OF MOTOR EQUIPMENT

SUBPART B—COMMON CARRIERS OF PROPERTY

Pursuant to Executive Orders 8989 and 9156, §§ 501.9 and 501.10, General Order ODT 3, Revised, as amended, (7 F.R. 5445, 6689, 7694), are hereby amended to read as follows:

§ 501.9 *Submission of plans for joint action.* Whenever joint action between two or more common carriers is contemplated in order to accomplish any of the purposes of this subpart, such common carriers may formulate and submit to this Office for consideration, a plan or plans designed to accomplish such purposes by one or more of the methods described below:

(a) Alternate or stagger motor truck schedules between two or more points;

(b) Reciprocally exchange shipments of property between two or more points;

(c) Pool traffic, revenues, or both, between two or more points;

(d) Jointly load for transportation or operate a motor truck or trucks between two or more points;

(e) Divert traffic, operate joint terminals or joint pick-up or delivery vehicles;

(f) Establish arrangements with other carriers for the interchange of equipment;

(g) Appoint one of their own number or any other carrier to act as its or their individual, common or joint agent, to concentrate, receive, load, forward, unload, distribute, and deliver property; re-

¹ Filed as part of the original document.

ceive, account for, and distribute gross or net revenues therefrom, or otherwise handle or conduct the carrier's business as common carriers of property upon just and reasonable terms and conditions: *Provided*, That this subpart shall not be construed to authorize any common carrier or carriers to operate in any of the methods described in this section unless directed so to do by the Office of Defense Transportation or unless pursuant to a contract, agreement or combination approved by the Interstate Commerce Commission or a State regulatory body.

§ 501.10 *Interchange of traffic; holding shipments; billing and rates applicable.* (a) Every common carrier whether by rail, motor, water, or otherwise, shall accept and receive from any common carrier as defined herein and transport all shipments of every kind. Such shipments shall be handled and transported in the same expeditious and efficient manner as shipments of a like nature received from any other source.

(b) No common carrier shall hold, carry over, store, or warehouse any shipment at any one station (including the final destination station), for longer than thirty-six (36) hours, or at two or more such stations for an aggregate period of more than forty-eight (48) hours, except where there is no other common carrier by rail, motor, water, or otherwise, capable of transporting the shipment consistent with the provisions of this subpart.

(c) Whenever a shipment is interchanged or diverted pursuant to the provisions of this § 501.10 the shipment shall be accepted and received by the carrier with which interchange is made or to which diverted at the connecting or diverting carrier's station or at the consignor's door, as the case may be, and such carrier shall load, transport, forward, or deliver, as the case may be, such shipment on the bill of lading and billing and at the rates, rules and regulations of the carrier issuing the bill of lading, which rates, rules and regulations shall be those which would have applied if the shipment had not been interchanged or diverted pursuant to the provisions of this § 501.10: *Provided*, That if the Interstate Commerce Commission, in respect to transportation in interstate or foreign commerce, or a State regulatory body in respect to transportation in intrastate commerce, has prescribed regulations governing the method of determining the rates, rules and regulations to apply on shipments interchanged or diverted pursuant to the provisions of this subpart, the regulations of the Interstate Commerce Commission or State regulatory body, as the case may be, shall apply.

(E.O. 8989, 9156; 6 F.R. 6725, 7 F.R. 3349)

This amendment shall become effective on April 8, 1943.

Issued at Washington, D. C., this 8th day of April 1943.

Bituminous Coal Division.

[Docket Nos. A-1874, A-1885]

STEEL TIPPLE COAL CO. AND O. B. C. COAL CO.

ORDER WITHDRAWING PETITIONS, TERMINATING TEMPORARY RELIEF AND CANCELLING HEARING

In the matter of the petition of Steel Tipple Coal Company for a change in shipping point. In the matter of the petition of O. B. C. Coal Company for a change in loading point.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division in Docket No. A-1874 by Chester Wasson, a code member, owner and operator of Steel Tipple Coal Company, requesting a change in shipping point for the coals produced at the Steel Tipple Mine, Mine Index No. 1222, in District No. 10; and in Docket No. A-1885 by Homer Choate, a code member, owner and operator of O. B. C. Coal Company, requesting a change in loading point for the coals in Size Groups 1-16, inclusive, and 26 and 27 produced at the O. B. C. Coal Company Mine, Mine Index No. 1367, located in District No. 10; and

Petitions of intervention having been filed in both of these matters by District Board No. 10 and in Docket No. A-1885 by McLaren Fuel Company, in each of which petitions of intervention it is alleged that the original petitions in these matters should be denied because they will prejudice the parties affected by the order, dated February 17, 1942, in Docket No. A-1079; Homer Choate having filed a reply to the petitions of intervention filed in Docket No. A-1885; and

An order, dated March 23, 1943, having been issued consolidating these matters, granting temporary relief and providing for hearing; and

Motions having been filed by Chester Wasson to withdraw the original petition in Docket No. A-1874 and by Homer Choate to withdraw the original petition and reply to petitions of intervention in Docket No. A-1885, requesting reinstatement of the order, dated February 17, 1942, in Docket No. A-1079 in so far as it concerns his O. B. C. Coal Company Mine, Mine Index No. 1367, and also requesting cancellation of the hearing heretofore scheduled to be held on April 8, 1943, in, among other matters, Docket No. A-1885; and

Good cause having been shown in support of the said motion:

Now therefore it is ordered, That the original petitions in Docket No. A-1874 and Docket No. A-1885 be, and they hereby are, withdrawn.

It is further ordered, That the temporary relief heretofore granted in Docket No. A-1874 and in Docket No. A-1885 be, and it hereby is, terminated.

It is further ordered, That the price classifications and minimum prices, shipping point and originating railroads established for the coals produced for all

shipments except truck at the Steel Tipple Mine, Mine Index No. 1222 and at the O. B. C. Coal Company Mine, Mine Index No. 1367, both located in District No. 10, be those established for such coals by the order dated February 17, 1942, in Docket No. A-1079.

It is further ordered, That the consolidated hearing in Dockets No. A-1874 and A-1885 heretofore scheduled to be held on April 8, 1943, be, and it hereby is, cancelled.

Dated: April 6, 1943.

J. W. BENNETT

AMENDMENT OF ORDER TITLE

It appears that an order directing J. W. Bennett, code member, to cease and desist from violating the Order of the Director in General Docket No. 19, dated October 9, 1940, 5 F.R. 4063, and from otherwise violating the Act or rules and regulations thereunder, was erroneously entitled "Order Revoking Code Membership";

Said order should have been entitled "Order to Cease and Desist";

Now, therefore, it is ordered, That the title to the Order of the Director in Docket No. B-188, dated April 3, 1943, 8 F.R. 4354, be and it hereby is amended to read "Order to Cease and Desist".

WEST VIRGINIA-PITTSBURGH COAL COMPANY

ORDER GRANTING APPLICATION FOR RESTORATION OF CODE MEMBERSHIP

A complaint dated June 6, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on June 6, 1942, by the Bituminous Coal Producers Board for District No. 6, complainant, with the Bituminous Coal Division (the "Division") alleging that West Virginia-Pittsburgh Coal Company willfully violated the Bituminous Coal Code (the "Code") and rules and regulations promulgated thereunder; and

An order having been issued herein on March 22, 1943, revoking and cancelling the code membership of the above-named applicant, effective fifteen (15) days from the date of said order, and ordering that prior to the restoration of West Virginia-Pittsburgh Coal Company to membership in the Code, there shall be paid to the United States a tax in the amount of four thousand dollars (\$4,000.00), as provided in section 5 (c) of the Act, and that upon the payment

of said tax and application for restoration of said code membership, the same shall be restored as of the date of payment of said tax; and

An application dated March 31, 1943, for restoration of membership in the Code having been filed by said applicant with the Division on March 31, 1943; and

It appearing from said application that the above named applicant paid to the Collector of Internal Revenue, at Cleveland, Ohio, on March 29, 1943, said tax of four thousand dollars (\$4,000.00), pursuant to said order issued March 22, 1943, and section 5 (c) of the Act, as a condition precedent to the restoration of said membership in the Code;

Now, therefore, it is ordered, That said application be, and the same hereby is granted; and

It is further ordered, That the code membership of West Virginia-Pittsburgh Coal Company be, and the same hereby is restored effective simultaneously as of the effective date of revocation thereof.

Dated: April 6, 1943.

DEPARTMENT OF LABOR.

Wage and Hour Division.

[Administrative Order No. 190]

APPOINTMENT OF INDUSTRY COMMITTEE NO. 58 FOR THE VEGETABLE FATS AND OILS INDUSTRY

1. By virtue of and pursuant to the authority vested in me by the Fair Labor Standards Act of 1938, I, L. Metcalfe Walling, Administrator of the Wage and Hour Division, United States Department of Labor, do hereby appoint and convene for the vegetable fats and oils industry (as such industry is defined in paragraph 2) an industry committee composed of the following representatives:

For the public. Alva W. Taylor, Chairman, Nashville, Tennessee; Richard Lester, Durham, North Carolina; Arthur W. MacMahon, New York, New York; Elizabeth S. Magee, Cleveland, Ohio; Caroline F. Ware, Vienna, Virginia.

For the Employers. A. M. Dietrich, Jersey City, New Jersey; W. S. Dorsett, Sherman, Texas; Homer P. Goff, Roby, Indiana; John F. Jelke, Chicago, Illinois; A. A. Schumann, San Francisco, California.

For the employees. O. L. Farr, Selma, California; Jack Fox, Chicago, Illinois; Abraham Marcus, Memphis, Tennessee; Phillip Rozzo, Edgewater, New Jersey; Boris Shishkin, Washington, D. C.

Such representatives have been chosen with due regard to the geographical regions in which such industry is carried on.

2. For the purpose of this order the term "Vegetable Fats and Oils Industry" means:

A. The extraction of crude oils and fats from vegetable materials (other than cottonseed and peanuts) and the refining and processing of all vegetable fats and oils, including those derived from cottonseed and

peanuts, into oleomargarine, cooking and other edible fats and oils, and into inedible fats and oils.

B. The manufacture of the by-products of the industry including but without limitation hulls, cake, meal, and soap stock.

Provided, however, That this definition shall not include the manufacture of the following: essential oils; feeds; nitrated, sulfonated and similarly processed oils; mixtures principally composed of animal fats and oils or containing petroleum; and crude, refined, or processed wood and gum naval stores.

3. The definition of the vegetable fats and oils industry covers all occupations in the industry which are necessary to the production of the articles specified in the definition including clerical, maintenance, shipping, and selling occupations: *Provided, however,* That this definition does not cover clerical, maintenance, shipping, and selling occupations when carried on in a wholesaling or selling department, physically segregated from the other departments of a manufacturing establishment, the greater part of the sales of which wholesaling or selling department are sales of articles which have been purchased for resale; and provided further that where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

4. Any person, who, in the opinion of the committee, having a substantial interest in the proceeding and who is prepared to present material pertinent to the question under consideration, may, with the approval of the committee, appear on his own behalf or on behalf of any other person.

5. The industry committee herein created shall meet at 10:00 a. m. on April 30, 1943, in Room 1001, 165 West 46th Street, New York, New York, and, in accordance with the provisions of the Fair Labor Standards Act of 1938 and rules and regulations promulgated thereunder, shall proceed to investigate conditions in the industry and recommend to the Administrator minimum wage rates for all employees thereof who within the meaning of said Act are "engaged in commerce or in the production of goods for commerce," excepting employees exempted by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14.

Signed at New York, New York, this 6th day of April 1943.

[Vesting Order 1189]

ESTATE OF MARGHERITA BUONO

In re: Estate of Margherita Buono, deceased; File No. D-38-1047; E. T. sec. 2769.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Lewis A. Twitchell, Administrator, acting under the judicial supervision of the Probate Court, Hampden County, Massachusetts;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Italy, namely,

Last known address

Nationals:

Laura Buono	Italy.
Battista Buono	Italy.
Nicola Buono	Italy.
Angela Buono	Italy.
Antonia Buono	Italy.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Italy; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Laura Buono, Battista Buono, Nicola Buono, Angela Buono and Antonia Buono, and each of them, in and to the Estate of Margherita Buono, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and interests and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property and

interests or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

ESTATE OF ROGER W. LITTLE

In re: Estate of Roger W. Little, deceased; File D-28-2417; E. T. sec. 3369.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Donald B. Waltman, Clerk of the Orphans' Court, York, Pa., Custodian, and Judge of the Orphans' Court, Depository, of the estate of Roger W. Little, deceased, acting under the judicial supervision of the Orphans' Court of York County, Pa.

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National: Last known address
Rebecca Singer.....Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

The sum of \$6,165.09, the distributive share of Rebecca Singer of the estate of Roger W. Little, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and interests and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property and interests or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by the Treasurer of the City of New York, as depositary acting under the judicial supervision of the Surrogate's Court, Kings County, New York;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals:	Last known address
Franz Steiger	Germany.
Dina Leiser	Germany.
Marie Karch	Germany.
George Steiger	Germany.
Willibald Steiger	Germany.
The heirs at law, next of kin, distributees and legal representatives of Marten Steiger, deceased.	Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Franz Steiger, Dina Leiser, Marie Karch, George Steiger,

No. 70—18

Willibald Steiger, and the heirs at law, next of kin, distributees and legal representatives of Marten Steiger, deceased, and each of them, in and to the Estate of Christine Weiss, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for benefit of the United States.

Such property and interests and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property and interests or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

ESTATE OF WILHELMINE ZIEMANN

In re: Estate of Wilhelmine Ziemann, deceased; file D-28-2013; E. T. sec. 2090.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that—

(1) The property and interests hereinafter described are property which is in the process of administration by Phil C. Katz, Administrator, acting under the judicial supervision of the Superior Court of the State of California in and for the City and County of San Francisco;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals:	Last known address
Wilhelm Ziemann	Germany.
Marie Thiele Tiele	Germany.

And determining that—

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Wilhelm Ziemann and Marie Thiele Tiele, and each of them, in and to the Estate of Wilhelmine Ziemann, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

OFFICE OF DEFENSE TRANSPORTATION.

[Special Order ODT B-40]

SOUTHWESTERN GREYHOUND LINES, INC.
AND SANTA FE TRAIL TRANSPORTATION
COMPANY

COORDINATED OPERATION BETWEEN ALBUQUERQUE, AND TUCUMCARI, NEW MEXICO

Upon consideration of the application for authority to coordinate motor vehicle service in the transportation of passengers filed with the Office of Defense Transportation by Southwestern Greyhound Lines, Inc., Fort Worth, Texas, and Santa Fe Trail Transportation Company, Wichita, Kansas, pursuant to § 501.49 of General Order ODT 11, as amended, (7 F.R. 4389, 11099) and in order to assure maximum utilization of the facilities, services, and equipment of common carriers of passengers by motor vehicle, and to conserve and providently utilize vital equipment, material and supplies, the attainment of which purposes is essential to the successful prosecution of the war: *It is hereby ordered, That:*

1. Southwestern Greyhound Lines, Inc., Fort Worth, Texas, and Santa Fe Trail Transportation Company, Wichita, Kansas (hereinafter called "carriers"), respectively, in the transportation of passengers on the routes served by them between Albuquerque, New Mexico, and Tu-

cumcari, New Mexico, as common carriers by motor vehicle shall:

(a) Honor each other's interstate tickets between all points common to their lines where equal fares apply and divert to each other traffic routed between such points for the purpose of relieving overloads and reducing the operation of additional equipment in extra sections;

(b) Adjust and establish schedules to eliminate duplication of times of departure of the respective carriers and provide reasonable frequency of service throughout the day;

(c) Wherever practicable eliminate duplicate depot facilities and commission ticket agencies and, in lieu thereof, utilize joint depot facilities and joint commission ticket agencies. Contracts, agreements, and arrangements for any such joint facilities and agencies shall not extend beyond the effective period of this order. At such depot facilities and commission ticket agencies used jointly by the carriers, service, travel information, and ticket sales shall be impartial, without preference or discrimination for or against either of such carriers.

2. Subject to obtaining authorization from the proper governmental authorities, the Santa Fe Trail Transportation Company shall provide passenger service for any intrastate passengers moving between Albuquerque, New Mexico, and Tucumcari, New Mexico, and to, from, or between all intermediate points, who hold tickets for transportation issued by the Southwestern Greyhound Lines, Inc.

3. The carriers forthwith shall file with the Interstate Commerce Commission in respect of transportation in interstate or foreign commerce, and with each appropriate State regulatory body in respect of transportation in intrastate commerce, and publish in accordance with law, and continue in effect until further order, tariffs, or appropriate supplements to filed tariffs, setting forth any changes in the fares, charges, operations, rules, regulations and practices of each carrier which may be necessary to accord with the provisions of this order; and forthwith shall apply to said Commission and each such regulatory body for special permission for such tariffs, or supplements, to become effective on one day's notice.

4. Communications concerning this order should be addressed to the Division of Local Transport, Office of Defense Transportation, Washington, D. C., and should refer to "Special Order ODT B-40".

This order shall be come effective April 16, 1943, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 2d day of April 1943.

ED PHILLIPS AND SONS CO.

AUTHORIZATION OF MAXIMUM PRICES

Amendment No. 1 to Order No. 3 under Maximum Price Regulation No. 193—Domestic Distilled Spirits.

Authorization of maximum prices for "Tom Burns" brand of domestic whiskey

manufactured by Ed Phillips & Sons Company. An opinion in support of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. 3 under Maximum Price Regulation No. 193 is amended in the following respects:

1. Paragraph (b) is amended by adding subparagraph (2) as follows:

(2) On or before making any offer to sell, sale or delivery of this commodity to a monopoly state the seller shall notify the monopoly state of his maximum prices established under paragraph (b) for all sales to monopoly states, and of the method for the computation of the monopoly state's maximum prices for sales of this commodity. Such notification shall be accomplished by attaching a true and exact copy of this order to the written quotation or to the invoice issued by the seller in connection with the particular transaction. With respect to any particular monopoly state, no notification shall be required after the first notification.

2. Subparagraph (4) of paragraph (c) and subparagraph (4) of paragraph (d) are respectively amended by adding the following sentences:

(4) * * * Such maximum price shall be inapplicable to sales to monopoly states. The maximum prices for all sales to monopoly states shall be determined pursuant to paragraph (b).

This amendment shall become effective April 7, 1943.

SUPERIOR WATER, LIGHT AND POWER CO.,
ET AL.

ORDER PERMITTING DECLARATION TO BECOME
EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 5th day of April, A. D., 1943.

In the matter of Superior Water, Light and Power Company, Northern Power Company and American Power & Light Company.

Order permitting declarations to become effective and granting applications; granting application for exemption from competitive bidding; and releasing jurisdiction previously reserved.

American Power & Light Company ("American"), a registered holding company and a subsidiary of Electric Bond and Share Company, likewise a registered holding company, and Superior Water, Light and Power Company ("Superior") and Northern Power Company ("Northern"), utility subsidiaries of American, having filed joint declarations and applications and amendments thereto under the Public Utility Holding Company Act of 1935, particularly sections 6 (a) (2), 6 (b), 7 (e), 9 (a) (2), 10, 12 (b), 12 (c), 12 (d), and 12 (f) thereof and Rules U-50, U-42, U-43, U-44, U-45, and U-50 thereunder regarding (a) the issuance by Superior to American of common stock in exchange for the common stock of Northern, (b) the merger of Northern into Superior and the subsequent dissolution of Northern, and (c) the issuance by Superior of certain securities for cash to be applied in discharge of its presently outstanding debt and preferred stock, such

transactions to be consummated as follows:

(1) American will contribute to the capital of Northern the principal of \$794,000 of open account indebtedness of Northern to American, which contribution will be credited by Northern to its capital surplus as of December 31, 1942;

(2) Northern will, by appropriations from surplus, increase its depreciation reserve as of December 31, 1942, to \$148,867.39, such amount being calculated by using rates prescribed in an Order of the Public Service Commission of Wisconsin certifying depreciation rates for Northern under a 4% compound-interest method;

(3) Northern will eliminate a deficit in earned surplus as of December 31, 1942, by a charge to the capital surplus to be created in the manner referred to in (1) above;

(4) American, as the owner of all of the issued and outstanding stock of Northern, consisting of 250 shares of \$100 par value common stock, except 3 shares held by directors, which 3 shares American has an option to purchase, will transfer or cause to be transferred to Superior all of the stock of Northern in exchange for 5,000 shares of the \$100 par value common stock of Superior;

(5) Northern will then be merged into Superior and the latter will issue and sell (a) \$2,500,000 principal amount of First Mortgage Bonds, 3% Series due 1973, (b) \$1,000,000 principal amount of 4% Sinking Fund Debentures due 1958, such debentures to be retired over the life thereof through the operation of a sinking fund created for their retirement, and (c) 1,000 shares of \$100 par value common stock, such bonds and debentures will be sold privately to Northwestern-Mutual Life Insurance Company of Milwaukee, Wisconsin, at annual interest costs to Superior of 3.35% and 4% respectively, and the 1,000 shares of common stock will be sold to American at par;

(6) Superior will apply the proceeds from the sale of such bonds, debentures and common stock to (a) the prepayment of the principal of, and accrued interest on, its presently outstanding \$1,600,000 principal amount of notes held by Guaranty Trust Company of New York, (b) the payment of the principal of, and accrued interest on, \$1,636,000 open account indebtedness of Superior to American, (c) the payment of the redemption price of par and accrued dividends, plus a premium of \$5 a share, on the shares of Superior's presently outstanding \$100 par value 7% preferred stock held by the public, and (d) the payment to American of \$172,926.50, the cost to American of 1,663 shares of Superior's 7% preferred stock now held by American, plus accrued dividends thereon.

Superior having requested an order pursuant to sub-paragraph (5) of Rule U-50 exempting the issuance and sale of said bonds and debentures from the competitive bidding requirements of paragraphs (b) and (c) of said Rule U-50; and

A public hearing having been held, after appropriate notice, and the Com-

mission having filed its Findings and Opinion herein;

It is ordered, That said declarations, as amended, be, and the same hereby are, permitted to become effective, and said applications, as amended, be, and the same hereby are, granted, subject, however, to the terms and conditions prescribed in Rule U-24 and subject to the further terms and conditions:

(1) That so long as Superior exercises the special amortization privilege resulting from its Winslow Steam Plant Necessity Certificate issued pursuant to section 124 of the Internal Revenue Code, it shall charge annually to earned surplus and credit to a deferred credit account the difference between (a) the amount of Federal taxes, based on income, payable, and (b) the amount of such taxes which would have been payable if the special amortization privilege had not been exercised. Any amount in such deferred credit account shall remain therein until transferred to earned surplus as hereinafter set forth. The amount in such deferred credit may be transferred to earned surplus in any year subsequent to the expiration of the special amortization period to the extent of the difference between the amount of Federal taxes, based on income, payable for any such year and the amount of such taxes which would have been payable if the special amortization privilege had not previously been exercised. At such time as the normal tax depreciation period for such facilities shall have expired or such facilities shall have been sold, abandoned, or otherwise disposed of, the remaining balance in such deferred credit, if any, shall be transferred to earned surplus;

(2) That the agreement relating to the issuance of Superior's 4% Sinking Fund Debentures shall provide that Superior will have the option to redeem such debentures at any time or from time to time without payment of redemption premiums in an aggregate principal amount not in excess of the aggregate amount credited to the deferred credit account as provided in condition (1) hereof whether or not all or any part of such amount shall have been transferred from such account;

(3) That so long as any of the 4% Sinking Fund Debentures, due 1958, remain outstanding, the company shall retain in earned surplus, in addition to any amounts otherwise required to be so retained, an amount equal to the amount paid in retirement of such debentures pursuant to the sinking fund provision of section II of Article III of the agreement under which such debentures are to be issued, which amount shall not be available for the payment of dividends but shall be available for any other corporate purpose: *Provided*, That nothing herein shall be construed as requiring the restriction of surplus because of the retirement of any of such debentures otherwise than through the operation of such sinking fund provision;

(4) That Superior submit to the Commission an opinion of counsel certifying that all State laws applicable to the transactions proposed herein have been complied with;

(5) That Superior submit in final form, prior to consummation of the transactions proposed herein, copies of the contracts under which its bonds and debentures are to be issued; jurisdiction as to the final form and terms of such contracts is hereby expressly reserved;

(6) That Superior shall clearly set forth on all future published financial statements, by appropriate annotation, a clear and concise statement with respect to all restrictions on the use of its earned surplus.

It is further ordered, That the application of Superior for the exemption of the issue and sale of its bonds and debentures from the competitive bidding requirements of paragraphs (b) and (c) of Rule U-50 be, and the same hereby is, granted.

It is further ordered, That jurisdiction be, and hereby is, retained over the fee of \$17,500 proposed to be paid by Superior to White Weld & Company and that such fee shall not be paid until further order of this Commission.

It is further ordered, That jurisdiction reserved by the Order of this Commission dated January 10, 1942 issued in the "Matter of American Power & Light Company, Superior Water, Light and Power Company, File No. 70-471" be, and the same hereby is, released; and that the restriction on the payment by Superior of dividends on its common stock contained in such Order of January 10, 1942 be, and the same hereby is, rescinded.

By the Commission.

UNITED LIGHT AND POWER COMPANY, ET AL.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 5th day of April 1943.

In the matter of the United Light and Power Company, the United Light and Railways Company, American Light & Traction Company, Continental Gas and Electric Corporation, United American Company and Iowa-Nebraska Light and Power Company, respondents, File No. 59-17; the United Light and Power Company and its subsidiary companies, respondents, File No. 59-11; the United Light and Power Company, applicant, File No. 54-25.

Order granting Application No. 14 as amended.

The Commission having directed, by an order entered in this proceeding on March 20, 1941, pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935, that the United Light and Power Company be liquidated and dissolved and that said company

make application to the Commission for the entry of any further orders necessary or appropriate for such purpose;

Said order having further provided that said company might submit to the Commission for its approval a Plan proposing a method for complying with said order, on a basis which should be fair and equitable to its security holders, and providing for a determination of the relative rights and interests of its security holders in connection therewith;

The Commission having expressly reserved in said order jurisdiction to enter such further orders in this proceeding as may be necessary or appropriate for the purpose of carrying out the steps required by said order;

The United Light and Power Company, a Maryland Corporation, and its subsidiary, The United Light and Railways Company, a Delaware Corporation, both of which are registered holding companies, having filed a joint application (designated as Application No. 14), pursuant to sections 11 (b) and 11 (e) of the Public Utility Holding Company Act of 1935 and the requirements of said order of March 20, 1941, proposing a Plan for the completion of the liquidation and dissolution of The United Light and Power Company and providing, among other things, for the contribution of cash and minor investments by The United Light and Power Company to The United Light and Railways Company, the distribution by The United Light and Power Company of the remaining asset consisting of all outstanding common stock of The United Light and Railways Company among the preferred and common stockholders of The United Light and Power Company and for a determination of the manner and the basis of such distribution;

A public hearing on said Application No. 14 having been held pursuant to appropriate notice at which the applicants and all their security holders and other interested persons were given an opportunity to be heard, and the Commission, on the basis of the record, having made and filed its findings and opinion dated April 1, 1943, proposing certain modifications to said plan and finding that the plan if modified in accordance with said findings and opinion would be fair and equitable to the persons affected thereby and necessary to effectuate the purposes of section 11 (b) of the Act; and

A document having been filed in this proceeding on April 2, 1943 in which the applicants accept and adopt the modifications of the plan referred to in said findings and opinion of the Commission, and in which the applicants request the Commission to take appropriate action to enforce the plan as so modified, pursuant to the provisions of section 11 (e) of the Act;

The Commission now finds, on the basis of its findings and opinion herein dated April 1, 1943, and its Supplemental Findings and Opinion dated April 5, 1943, that the plan as modified by the applicants is fair and equitable to the persons affected thereby and is necessary to effectuate the provisions of section 11 (b) of the Public Utility Holding Company

Act of 1935, and should be approved subject to the conditions hereinafter enumerated.

The United Light and Power Company, pursuant to the provisions of section 11 (e) of the Act, having requested the Commission to apply to an appropriate Federal Court, in accordance with the provisions of subsection (f) of section 18 of the Act to enforce and carry out the terms and provisions of the plan as modified;

It is hereby ordered, Pursuant to section 11 of the Act and particularly subsections (b) and (e) thereof, and pursuant to all other applicable sections of the Act, that the plan set forth in Application No. 14 as modified be and the same is hereby approved; said approval by the Commission shall not, however, be operative to authorize the consummation of transactions therein proposed until an appropriate federal district court shall upon application thereto enter an order enforcing the plan.

It is further ordered, That the accounting entries submitted by the applicants necessitated by the various transactions comprising the plan as modified are approved under the applicable sections of the Act, and the Rules thereunder.

It is further ordered, That, in carrying out paragraph 11 of the Plan as modified, The United Light and Railways Company shall, upon its acquisition of the securities of Mason City and Clear Lake Railroad Company and La Porte Gas and Electric Company, be bound by the orders of this Commission directing The United Light and Power Company to divest itself of its interest in said companies.

It is further ordered, That the issues, transfers and exchanges of securities specified and itemized below are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, 49 Stat. 820 (U.S.C., Title 15, Sec. 79k (b)):

(a) The issuance by The United Light and Railways Company of 3,173,838 shares of new \$7 par value common stock and the exchange thereof for its outstanding 708,520 shares of \$35 par value common stock in accordance with the Plan as modified.

(b) The delivery of said 3,173,838 shares of common stock of The United Light and Railways Company by The United Light and Power Company to a depository for distribution to the preferred and common stockholders of The United Light and Power Company in accordance with the Plan as modified.

(c) The transfer of not exceeding 3,173,838 shares of \$7 par value common stock of The United Light and Railways Company in exchange for outstanding preferred and common stocks of The United Light and Power Company or in exchange for scrip of The United Light and Railways Company in accordance with the Plan as modified.

(d) The surrender of 600,000 shares of \$6 cumulative preferred stock, 2,421,192 shares of Class A common stock and 1,055,576 shares of Class B common stock of The United Light and Power Company

in exchange for shares of \$7 par value common stock or scrip of The United Light and Railways Company in accordance with the Plan as modified.

(e) The issuance, transfer and exchange of scrip of The United Light and Railways Company and the issuance or transfer of \$7 par value common stock of said Company in exchange therefor to the extent necessary to carry out the Plan as modified.

(f) All other transfers and exchanges of common stock and scrip of The United Light and Railways Company which are required in order to carry out the Plan as modified.

(g) The transfer by The United Light and Power Company to The United Light and Railways Company of \$324,000 principal amount of First Refunding Mortgage 6% bonds, due June 1, 1932 and 100 shares of no par value capital stock of Mason City and Clear Lake Railroad Company, and 7,500 shares of \$100 par value capital stock of La Porte Gas and Electric Company in carrying out the provisions of paragraph 11 of the Plan as modified.

This paragraph is included in view of section 1808 (f) of the Internal Revenue Code and is intended to cover all issues, transfers and exchanges of common stock and scrip of The United Light and Railways Company to preferred and common stockholders of The United Light and Power Company and all other transfers of securities which are required in order to consummate the Plan.

It is further ordered, That pending final determination of the amounts, upon consummation of the Plan as modified and completion of the record, the Commission reserves jurisdiction to pass upon the reasonableness of all counsel fees.

It is further ordered, That counsel for the Commission be, and they are hereby authorized and directed to make application forthwith on behalf of the Commission to an appropriate Federal Court to enforce and carry out the terms and provisions of the Plan as modified, pursuant to the provisions of section 11 (e) of the Act and in accordance with the provisions of subsection (f) of section 18 thereof and the request duly filed herein by The United Light and Power Company.

It is further ordered, That The United Light and Power Company shall mail to its stockholders of record a copy of the Findings and Opinion entered herein, together with a copy of this Order, and shall give notice of the date set by the Court for hearings on said application by mailing to such stockholders a copy of such Notice of Hearing as the Court may direct.

It is further ordered, That within 30 days after the distribution date defined in the Plan as modified the applicants shall file a Certificate of Notification advising the Commission of the steps which have been taken to consummate the Plan.

By the Commission.
